LOCAL.

FIRES.—On Wednesday evening, about half-past eight o'clock, a young man observed the barn at the extremity of the South Burying Ground to be in flames and endeavored to raise an alarm, but as the man who had control of the key of the nearest church took upon himself to withhold it the attempt was a failure until 9 o'clock, when the Eastern Depot bell was rung for a fire in a different direction.

The barn in the cemetery was the property of Benj. Cheever, and contained 30 or 40 tons of hay, belonging to Charles Marden and Jos. Currier.

The fire at the North end was the barn of Jonathan Roberts, at Cutts's Cove, the contents of which was 12 or 15 tons of hay.

We believe none of the property was insured. Doubtless incendiarism.

☞ We understand that three men were detected in the act of housebreaking, in this city, on Tuesday night.

THANKSGIVING, in Maine, to-day, Nov. 20th. In New Hampshire, on Thursday next, one week from to-day. We are much obliged to Gov. Metcalf, for not appointing the same day as our neighbors in Maine have. We think there are abundant blessings to be thankful for, even through two days; and we shall try and improve both occasions.

☞ On Wednesday evening, in this city came of the grand Torchlight Procession, illumination and Democratic Jubilee, in honor of the election of Buchanan and Breckinridge. The show was got up in grand style, at considerable cost, was largely attended by political and military organizations, and must have been gratifying to its projectors.

DANCING.—It will be seen that Mr. Lamprey, the favorite teacher of dancing is to have a grand Ball on Thanksgiving eve, and the lovers of this healthful exercise may be sure of a good time.

☞ There will be no lecture this evening at the Mercantile Lyceum—but Prof. Whitaker will lecture on Friday evening.

☞ George W. Johnson, one of the largest sugar planters of the Mississippi, below New Orleans, who died recently, left an estate valued at not less than $7,000,000. He has by his will manumitted all his slaves, two hundred in number. They are all to be sent to Liberia in four years from his death, and each one is to be furnished with fifty dollars.

☞ General James Wilson, formerly of New Hampshire, and distinguished as an eloquent whig stump speaker of 1840, now resides in California, and just before election came out for Buchanan.

PRESIDENT'S MESSAGE.—The President has been closely occupied for a day or two past, in the preparation of his annual message. It is said that he will review his own administration, and show what it has accomplished, especially in regard to foreign affairs.

Perhaps he will give us some light on domestic affairs, particularly on Kansas, which was the rock on which his bark was wrecked.

COL. BENTON.—The St. Louis Democrat, in referring to the applications which have been received by Mr. Benton to deliver lectures to literary societies at the East, some of which he has accepted, says:—"The purpose of these lectures is to contribute to the pacification of the public mind."

TRIAL OF A RAILROAD CONDUCTOR.—Alfred P. Hoppel, conductor of the excursion train upon the North Pennsylvania Railroad, at the time of the fatal disaster on July 17th, is now on trial before the Court of Quarter Sessions at Norristown, Pa.

AN OFFICIAL SCRIMMAGE.—At Haslingden Court, England, recently when the judges quarrelled over a publican's license, they abused each other roundly, and ended with a regular fight with canes and fists. One of the judges was so badly belabored that he fainted as the servants were carrying him home.

☞ The Journal of Commerce states that the demand for furs of fancy description this season, exceeds all precedents, and as a consequence, prices on raw stock, for varieties, have gone up fifty per cent., or even higher, within the last year.—For dress goods furs will be worn the coming winter to an unusual extent. Sets costing $150 are very common.

MORE THAN THEY BARGAINED FOR.—The Atlas says, those who went to Montreal to see the grand trunk got more than they expected, and were treated to a view of the entire elephant.

ILLINOIS.—The Chicago Democrat of Thursday morning, the 18th, says: "Last evening two telegraphic dispatches were displayed on the bulletin boards of the Tremont House—one to Mr. Drake, and the other to C. L. Wilson, Esq. The former stated that all the returns were in, excepting those of St. Clair, Edwards and Crawford counties, and that the result was—Buchanan's maj. 1267: Bissel's maj. 7236. Mr. Wilson's despatch stated that returns from 93 counties gave Buchanan 567 maj.; Bissel 8414 maj. 7 counties to hear from."

The whole Republican State ticket is elected by majorities ranging from 5500 to 8500, except Miller, who has 20,000 over Moore. The vote on Congressmen shows a Republican majority of 19,500.

MONTPELIER, Nov. 17.—The General Assembly of Vermont adjourned this morning after a session of six weeks.

Among the Acts passed yesterday was one appropriating $20,000 for supplying the suffering poor of Kansas with food and clothing.

EXTRAORDINARY HAIL-STORM IN ALGERIA.—The Echo' Oran gives the following extraordinary description of a storm which lately raged in the neighborhood of that town:

The hail fell so thick and of such enormous size that several accidents occurred, apart from the injury sustained by the crops. M. Castagnet, a hussier, accompanied by several persons in carts and on horseback, was overtaken by the storm while proceeding to Oran. The driver of the vehicle in which he sat was knocked off his seat by the force of the hailstones, some of which exceeded 600 grammes (1 1-2) in weight.

M. Castagnet and his interpreter were stunned by the stones which penetrated into the vehicle, and the former lost the use of his arm for some time. The loss experienced at Oran was immense. The roofs of the government tobacco stores were blown away by the wind, and the goods inundated, causing a loss of 300,000f. The roofs of several houses were pierced by hailstones, and the market gardens were completely cut to pieces. Several inhabitants who were surprised out of the town have received serious injuries and many were stunned by the hailstones.

A LARGE RENT.—In the Morning Chronicle of Wednesday, we made mention of the Badger Musketeers, of Brooklyn, N. Y., and of the company's being composed entirely of the employees of Messrs. D. D. Badger & Co., at their extensive Architectural Iron Works. And we also noticed that this firm are putting up in Chicago, this year, upwards of five hundred feet of five-story iron buildings, one of which is deemed the most splendid building west of New York. We now add, from good authority, that this building is rented for $24,000 per year, and not for $2400 as both we and the Brooklyn Star had it.

George W. Porter, widely and extensively known as the inventor of the "Porter rifle," and other fire-arms, died near Memphis last week.

☞ A correspondent of the Boston Times at Dover, N. H., thinks that C. Levi Woodbury may be the Democratic candidate for Congress in the south-eastern district of this State. Very probable.

The Troy Times mentions a practical "Irish Bull," which was recently perpetrated in Saratoga county with rather serious consequences. Some of the Irish voters, elated with the victory, resolved to burn a tar barrel in honor thereof. For this purpose they kindled it on a bridge, which was of course, entirely destroyed.

DISGORGING A LIZARD.—Last week John Mitchell, of the town of Chemung, was taken with a fit of vomiting, and finally disgorged from his stomach a lizard nine inches long! He had drank several potations of whisky, together with three quarts of milk that day, and it is supposed that the lizard got drunk on milk punch—hence his getting so *high* as to come out of his lodgments. The lizard is supposed to have been swallowed some four years since, as about that time Mr. Mitchell took in something while watching at a "deer lick" which has caused a slight debility of the stomach ever since.—*Elmira Gazette.*

Mr. Buchanan's contemplated marriage has been postponed. Gossip says that his neice, Miss Lane, will preside exclusively over the social graces of the White House, as she has long done at Wheatland. From the same source, we have the following cool item of news:

Judge Douglas will marry Miss Ada Cutts on Tuesday next—the ceremony having been postponed from a former appointed time. The parties know each other pretty well, and they have both been well known about Washington for many years.

SINGULAR AND FATAL ACCIDENT TO A FRENCH LADY.—At Paris, lately, the Comtesse Charles Fitz James, in passing through a room when in full dress, stepped upon a lucifer match lying upon the floor, by which her clothes were set on fire. She was so badly burned that after several weeks of severe sickness she died.

What did Adam and Eve do when they were expelled from Eden? They raised *Cain.*

RUSSIAN PASSPORTS.—The Nord of Brussels contains the following from its Moscow correspondent: "The labor of leaving Russia is one worthy of Hercules; in order to obtain a passport at St. Petersburg, I have been compelled to undergo the following torture: 1, to be announced three times in the public journals; 2, to obtain a certificate of the execution of this formality; 3, to carry this certificate to the police magistrate of the quarter, who furnished me with a second certificate; 4, to betake myself to the bureau of Prince Dolgorouki, where this certificate was exchanged for a countermark; 5, to go to the *bureau d'addresses*, where another certificate was given me; 6, to run to the governor general, who furnished me with a passport; 7, to exhibit this passport at the steam-packet office before obtaining a passage. I was particularly fortunate, for the accomplishment of the above formalities took up only three days; many others have been detained three weeks."

Rev. Dr. Leo, the converted Catholic, is lecturing at Hartford, Ct., and the Catholics throng in crowds to hear him.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Four a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousan: Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 823 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. H. Preston. 6mjo16

The Mustang Liniment cures Rheumatism;

Cooking Stoves.

IT is important in buying a Stove to get a good one, and there are so many new fangled ones urged upon the public, that it is no easy matter for a person who is not acquainted with the Stove business to select the best.

The subscriber would respectfully invite the attention of the public to the following Stoves, from the foundry of A. C. Barstow, Providence, R. I.—all of which he can *warrant to give satisfaction in every respect*—with wood or coal:

BAY STATE,	Patented 8 years since.	
BANNER STOVE,	" 6	"
LILLY DALE,	" 4	"
SWEET HOME,	" 2	"

These Stoves have been used in Portsmouth for years, and we can refer to thousands who are now using them

We have also for sale a variety of cheap Cook Stoves, and second hand Stoves—all of which will be sold cheap for cash. Please call at No. 46 MARKET STREET and examine the Stock.

Oct. 29. E. A. STEVENS.

The Rubicon.

THIS is the name of a new and beautiful
OPEN PARLOR STOVE,
with sliding front,—easily changed to a close stove, adapted to the burning of Bituminous or Anthracite Coal—and is pronounced by Ladies and Gentlemen of taste, to be just the thing for the Parlor or Sitting Room.

Three sizes in store and for sale by the subscriber.

Applications for Insurance received by
JACOB WENDELL.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance of Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than ¼ of 1 per cent. annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1-10 of 1 per cent. on the amount insured. In the 3d, or Union Class, from Oct. 1846 to Jan 1856, the yearly average of assessments has been less than 1-5 of 1 per cent. on the amount insured.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge*.

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufactures."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....50
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....130

IN PIANO CASE:

Five octave Melodeon, from F to F.....$100
Six octave Melodeon, " F to F.....130
Five octave, double reed, " F to F.....150
Organ Melodeon (for churches), 5 octaves, 3 stops, 1½ octave pedals, 4 sets of reeds.....350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,
cor. Niagara & Maryland sts., Buffalo,
and 87 Fulton street, New York.

Agents, for the sale of our Melodeons, for Portsmouth and vicinity,
JOHN S. HARVEY & SON,
nov5 7 Exchange Buildings.
Also, Melodeons TO LET.

Chickering's Piano Fortes.

BOSTON, Oct 1856.

WE have appointed JOHN S. HARVEY & SON *sole Agents* for the sale of our Piano Fortes for Portsmouth and vicinity, and have made arrangements with them to supply our instruments on the same terms as can be purchased at our Sales Rooms.
CHICKERING & SONS.

WE have now on hand and are constantly receiving the above Instruments, and shall take great pleasure in exhibiting them to all who favor us with a call. The world-wide renown and celebrity of these Piano Fortes and the acknowledged superiority of the makers over all competitors are too well known to need comment.
JOHN S. HARVEY & SON,

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire reliability of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be strength of any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in rapidity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,
Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc.

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle his patriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of fleneroul enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procurial of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY.**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Boston, Jan 11 1856 d6eodly

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas. Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	.90
5 lb. Y. Hyson "	2.25	3 lb. good "	1.00

☞ The Spices are put up in ¼ ¼ ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to ½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the Genuine Article. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Boston, Aug. 19, 1856. oo6m

FRIDAY, NOVEMBER 21, 1856.

SALEM WITCHCRAFT.

NO. I.

Late investigations often test the truth of old stories, and bring to light valuable facts long buried. It is, therefore, with much pleasure that we see in the Salem Gazette, what appears to be a very fair report of an evening's work, in the Essex Institute.

On Friday evening, the first of the winter evening meetings of the Essex Institute was held at the rooms of the Society.—George D. Phippen, Esq., the Chairman, introduced Mr. Samuel P. Fowler, of Danvers, who occupied the evening in reading a part of a very long and minute account of the Rev. Samuel Parris, and his connection with the Witchcraft Delusion of 1692. Mr. Parris was settled over the religious society at Salem Village, now known as Danvers Centre, on the 19th of November, 1689, and, during his settlement, was at variance with a large portion of his congregation, causing the spread of much bitterness through the entire town.

Mr. Harris was a merchant, came from Barbadoes, and a was member of Harvard College, but did not graduate. His salary at the Village was £60 and 30 cords of wood—£20 in money, and the remainder in provisions. The difficulties at Salem Village, with the pastor, arose,—first, in consequence of a misunderstanding about the salary; second, in the part taken in the witchcraft delusion by Parris, particularly in the accusations of Rebecca Nurse, Sarah Cloyce, and Mary Easty; third, by the pastor claiming the parsonage and two acres of land. These caused the greatest ministerial quarrel that New England ever saw, before or since. It was brought before several Councils, and Civil Courts, and attracted the atttention of the General Court.

Salem Village, in 1692, contained one hundred rateable polls, and extended to Willis Hill, now Middleton. The Witchcraft Delusion originated in the family of Harris, in the latter end of February, 1692. His nearest neighbors were Capt. Jonathan Walcut, who had a daughter, Mary, 17 years of age, and his Parish Clerk, Thomas Putnam, who had a daughter, Ann, aged 12 years, and a servant girl living with him, named Mercy Lewis, aged 17 years; Mary Warren, aged 20 years, lived with John Proctor, and Elizabeth Booth, aged 18 years, lived near to him. Sarah Churchill, aged 20 years, lived in the family of George Jacobs; Susanna Shelden, aged 18 years, lived somewhere in the Village.—These, with Abigail Williams, a niece of Mr. Parris, aged 11 years, were in the habit of meeting in a circle in the village, to practise palmistry, fortune telling and necromancy, generally. It appears in the evidence that their parents and guardians did not approve of these meetings. Mary Warren, one of the most violent of the accusing girls, lived, as was before stated, with John Proctor, and became his principal accuser. Proctor, out of all patience with the meetings of the girls composing this circle, one day said he "was going to the Village, to bring Mary Warren, the jade, home; for, if let alone these girls would make us all *Devils and Witches together quickley.* They should rather be had to the whipping post; but he would fetch his jade home, and thrash the devil out of *her*." Proctor said, when Mary Warren was first taken with fits, he kept her close to the wheel, and threatened to thrash her, and then she had no more fits; but the next day, he being gone from home, she had her fits again.

If all the accusing girls, said Mr. Fowler, had been dealt with, as John Proctor would have had them, we probably should have had a short story to tell about the Salem Witchcraft. He thought we had discovered, in the meeting of a circle of eight girls, for the practise of fortune telling, palmistry, and necromancy generally, the germ, or the first origin of the Salem Witchcraft. We have endeavored to follow them, so far as we have been able, after the Delusion had passed away, for the purpose of ascertaining their true character in after life. One only of this circle, Ann Putnam, confessed her folly, and asked forgiveness. Some of them grew up licentious in their habits, and all of them appear to have sought obscurity. Their whole course, as seen in their depositions, discovers and discloses much malignancy, and their ignorance was so great, that, of the eight accusing girls, six of them signed their name with a cross. Mr. Parris appears to have been much astonished when informed, by his family physician, that his daughter and niece were under an evil hand. He endeavored to keep it a secret, and sent to Boston to obtain a book upon the subject of Witchcraft, for the purpose of informing himself. He at the same time called in his ministerial brethren for consultation and advice. He appears, at last, to have, with others, come to the full conclusion that Witchcraft had broken out in his parish, and that the devil had commenced his operations in his own family; and, as a faithful pastor, he should not hesitate, for a moment, to grapple with the enemy.

NOTICE.—There will be a meeting of the State Temperance Committee, at the Mayor's Office, in Manchester, on Wednesday, Dec. 3d, at 2 o'clock P. M. As important business is to be transacted. it is hoped that every member will be present.

T. T. ABBOTT,
Chairman of the Com.

Papers favorable please copy.

ANOTHER OF THE "OLD GUARD."—Mr. John Prescott, one of the veterans of Democracy, 92 years old, has voted for every Democratic nominee for the Presidency from Washington down, and has never failed a year to carry his vote to the ballot-box, voted in Bristol, Nov. 4th, for James Buchanan."—*N. H. Patriot.*

No doubt correct in all points but one.—There was no party in this country calling itself Democratic, until the party formed to elect Gen. Jackson took that name. The parties, up to that time, called themselves Federal and Republican. Then, the Adams men called their opponents Jackson men,—but the latter claimed the name of Democrats. Reference to the old Republican papers will show this to be correct.

Some of those papers used the double appellation, Democratic Republicans, as early as Monroe's administration: but they were very few;—and no party generally claimed the name Democrat, till the time above indicated.

CONNECTICUT ELECTION.—*Hartford, Nov. 19th.*—The official vote of Connecticut stands:

Fremont,	42,715
Buchanan,	34,995
Fillmore,	2,615

Fremont's plurality, 7720.

POISONING FROM LEAD.—Capt. Hallet, of West Newport, aged about 34, and till a year or so past remarkably healthy, was brought, about two weeks since, to Boston, under suspicion, on the part of his physicians, of being poisoned by lead. Both his hands were paralyzed, and he could not bear a pound weight on his lower limbs.

Examination confirmed the previous suspicion. Dr. A. A. Hayes analyzed some water from Capt. Hallet's well, and found it largely impregnated with lead, and utterly 'unfit for culinary purposes.' The water, it would appear, in being pumped up, passes about sixty feet through lead pipe.

Capt. H. is rapidly recovering; though it will, doubtless, take much time to restore him to his wonted health.

PUB. DOC.—We are under obligations to Senator Hale for a valuable volume of Maps and Views to accompany Messages and Documents, for 1855–6.

MUTINY.—British ship Falcon, from Liverpool for Portland, put into Gloucester on Sunday with the crew in a state of mutiny. A portion of the men were placed in irons on Monday, and taken to Boston by the British consul, Dr. Northall.

A MISTAKE.—It is a mistake to suppose that newspapers are printed for amusement, and that printers deem it a compliment when a friend begs a half a dozen to give away.

A VENERABLE OFFICE HOLDER.—The Washington Star states that John Monnts has held the office of Clerk and Treasurer of the Georgetown Corporation for sixty-five successive years, to the entire acceptance of the citizens. He first entered upon the responsible duties of his office in 1791.

It was currently reported in the court circle at Compiegne that Queen Victoria contemplates making an addition to the royal family of England in February.

Darling Beam, convicted at Fairfield, S. C., of negro stealing, has been sentenced to be hung on the first Friday in March next.

No less than nine bears have lately been captured in Dauphin county, near Harrisburg, Pa.

AN ANCIENT RELIC.—A servant of Mr. Robert Hamner, while ploughing on the farm of that gentlemen, in Albemarle county, Va., recently, turned up a gold ring, on which was engraved the name of the owner, Rebecca Harper, and the date 1746—110 years ago.

The King of Denmark has conferred upon Mr. Morse, the inventor of the electric telegraph, the order of Danneborg, and our countryman is now entitled to be called Sir Samuel Morse.

"SPIRITUAL."—The Portland Advertiser says that about five thousand of the citizens of Portland are believers in, or investigators of Spiritualism.

KANSAS AFFAIRS.

The following is from a letter which we find in the St. Louis Democrat, dated Lawrence, Nov. 6:

During the week Marshal Fain has been in town two or three times, with a writ for the arrest of Capt. Walker, the commander of Gov. Geary's militia. Walker refused to go to Lecompton at this time.—Fain returned to Lecompton and came back a few days since with some U. S. troops, but Walker was not found. The Marshal threatened to bring sufficient force to ensure his arrest, and it is understood that Col. Titus and his two companies is the force to be used for this purpose. If he comes with Col. Titus and his men, there will certainly be a fight between them and Walker's men, which will be the commencement of another war. Col. Wood, of the U. S. Army, who has been stationed here for several weeks, has moved his camp into the immediate vicinity of Capt. Walker's. What his object is in doing so is not yet known. The election is now over, and perhaps the pro-slavery party is desirous of having a war, for the purpose of exterminating the free State men, and the attempted arrest of Capt. Walker is the excuse.

Gov. Geary had promised that Walker should not be molested, and even commissioned him to organize a company of volunteers to act in concert with the United States troops. We shall see whether he will interfere to stop these outrageous proceedings.

LETTER WRITERS in Kansas report that winter had set in, in earnest, accompanied with ice, snow and piercing winds. Outrages by the ruffians, though of rare occurrence, had not wholly ceased.

The land sale of the 17th was anticipated with much anxiety. A pro-slavery paper in the Territory fulminates the following:

"Everybody is anticipating serious troubles in Leavenworth county during the land sales, which are to come off on the 17th of Nov. Northern speculators, we are informed, are flocking to that point and the "signs of the times" are certainly threatening. The first bid by any speculator will be the sign for a general fight.—We do not blame the settlers, for we are with them in sentiment, heart and soul, and will be with them in person if in our power. 'Tis bad enough for one to pay twice for his home, without having that home purchased over his head by imported Abolition speculators. When they dare make the attempt, our motto is, 'let loose the dogs of war.'"

NORTH CAROLINA.—A large meeting in Lenoir, Caldwell County, on the 22d September, protested against granting liquor licenses in that town; because grog shops invaded the quiet and good order of the town; they hurt its reputation; they injure all its interests, especially the interest of the Female College; they cause crimes which impose burthens upon the tax payers; they create ruinous habits in young men; they set examples of beastly deportment and revolting profanity before the children; they afflict the rich, and make the poor poorer; they make reformed men drunkards, and hurry drunkards to swift destruction. A memorial to this effect was signed by "a large majority of the inhabitants of the county town of Caldwell county." A State Temperance Convention is in contemplation.

Wm. Albright, Esq., a pious man who has served for many years in the North Carolina Legislature, died on the 5th of October. The Spirit of the Age says;—"He had doubtless done more for the cause of temperance than any other man in the country." An honorable epitaph!

Keep your temper in disputes. The cool hammer fashions the red hot iron into any shape needed.

To fatten fowls, feed them with broken corn, mush or Indian meal, with raw potatoes, cut into small pieces. Place, also, broken charcoal within reach.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

Lower Horton, N. S., Aug., 1848.

DR. WM. R. HAYDEN: My dear Sir,—I have sold all the boxes of your pills, and have had many calls since. Please send me ten or twelve dozen boxes the first opportunity.

Your obedient servant,
JUDAH BORDEN.

WM. R PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized this any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus8m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuT&hS 6m.

MATHES & VARRELL,
48 Market Street.

LOCAL.

For the Chronicle.

RE-OPENING THE "OLD SOUTH."

Messrs. Editors:—Allow me to say, through your columns, that the Freewill Baptists of this city, after due consultation, have agreed to go back to the South Meeting-house, their former place of worship.

As some in the city, friendly to our sentiments, may not be conversant with the history of our church here, it may be proper to state, briefly, that, at the time Mr. Miller's views were first proclaimed here, we had quite a large church and numerous congregation worshipping at the South house. A portion of the church imbibed the Advent sentiments—the church became divided, scattered, and finally, if I am correctly informed, disbanded. Entering into a new organization a number of years since, they, it seems, left their former location, rented a room in the Hanover street Chapel; then the main audience room of the same building; but a portion, wishing to go back to the South house, drew off and held meetings there. Since leaving their old ground, the church, it seems, has had but little *permanent* prosperity.

In view of their former success, and the reverses that have beset them since abandoning their house of worship, to seek prosperity in a new locality, our people have, as before stated, decided to re-open the Old South as their permanent place of worship.

A word to the citizens: We thank you for the sympathy and aid which have been given us. Compared with older and wealthier societies in the city, we are weak. May I not be allowed to ask for our little flock the continuance of that Christian reciprocity and friendly aid, which have been so kindly extended to our people here in past years?

Our meetings are to commence at the Old South next Sabbath, 23d inst.

PLUMER CHESLEY.

THE BURGLARS.—On Tuesday evening, the officers discovered three men attempting to enter the house of Mr. John Hodgdon, in Warren street, and arrested them. Two made their escape, but the third was secured, and proved to be a marine belonging to our Barracks. He was much intoxicated, and it is thought they attempted to enter for no purpose except such as drunken men have. He was kept in durance vile until Thursday morning, when he was sent to the Barracks.

☞ The person who withheld the key from the person who wished to ring the bell on Wednesday, was not the gentleman who has charge of it, but an irresponsible person.

☞ Much interest is felt and expressed in many places, to hear Hon. Thomas Hart Benton, Old Bullion, as he used to be called. The lecture committee of the Mechanics' Lyceum have done well to secure his services in this city on Friday evening, the 28th November. It is well understood that his lecture is political, national, and conservative—not radical. He will give his own views, untrammelled.

☞ The Lecture for this evening before the Mercantile Lyceum is to be by Prof. Wm. J. Whittaker of Philadelphia.

PAUL FANE.—Charles Scribner of New York has just published Paul Fane; or Parts of a Life else untold; a new novel by N. P. Willis, 1 vol. 12 mo, cloth, $1.25. It is for sale by A. Williams & Co., Boston, and J. H. Foster, Portsmouth. The fame of the author, and the real merit of the book, will ensure a great sale of it.

"Paul Fane" describes the experience of republican sensibilities when brought into contact with European aristocracy; or, rather, the trials and struggles of proud republican nature and refinement, when subjected to the test questions of artificial rank and fashion. In the history of "Paul Fane," a poor Boston boy, who, in the pursuit of his profession as an artist, forms intimacies with persons of all varieties of rank, in the courtly capitals of Europe, just that experience is told which is commonly left untold—the thread of trial most difficult to weave into language, and, at the same time, about which there is naturally the most eager curiosity.

SAD ACCIDENT.—*Dover, N. H., Nov.* 14. John Foss and George S. Clark were killed last night by the premature discharge of a cannon, while firing a salute to celebrate the Democratic victory.

A nail in the ink stand, or some old steel pens, that the acid of the ink can eat upon, will prevent steel pens in use from being rusty.

"A CITY OF THE DEAD."—Since the opening of Greenwood Cemetery, on Long Island, N. Y., in September, 1840, the interments have amounted to 47,223.

FROM EUROPE—3 DAYS LATER.

HALIFAX, Nov. 19.—*Midnight.*—The royal mail steamship Niagara, from Liverpool 8th inst., has just arrived.

The Persia, from New York, reached Liverpool at 7 P. M. on the 7th, her passage being called nine days and seven hours mean time.

On Thursday evening the 6th inst., the directors of the bank of England held a protracted sitting, in the course of which they deliberately considered the expediency of making a further change in the rates of discount with a view to improve the exchanges and to arrest the continued outflow of gold to the continent. The withdrawal of a considerable amount during the last few days, and the certainty that the demand must continue unless it be interrupted by large arrivals from Australia, are understood to have engaged the attention of the court, and the resolution not to make any change for the present was arrived at by a majority of only one.

The condition of the Bank of France shows no improvement.

Cape of Good Hope advices to October 3, state that the fears of a Caffre war are passing away.

DEATH OF A MEMBER OF THE SUFFOLK BAR.—Died in Boston, on Tuesday morning, Ninian C. Betton, Esq., Councillor at Law, aged 68 years.

Mr. Betton was a native of New Boston, N. H., and studied his profession under the direction of the late Hon. Ezekiel Webster, and afterwards under the direction of his distinguished brother, Daniel Webster. Mr. Betton was admitted to practice in Boston, in October, 1817, since which time with a short interval spent in New Hampshire, he has resided in Boston.

He was a well-read lawyer, and an honest, upright man. He has performed all his duties in every relation of life faithfully and goes to his tomb with the sincere regret and undissembled respect of a large circle of friends, who have long known and valued him for his sterling good sense and honest independence of character. Mr. Betton was well read in his profession, and was a skilful and safe counsellor. He never delayed an honest claimant in obtaining his just claim, and never aided a dishonest man in prosecuting an unjust demand.—*Boston Transcript.*

INTERESTING FROM HAVANA.—*New York, Nov.* 20.—The steamer Black Warrior brings advices from Havana of Nov. 14.—The Spanish interference in the affairs of St. Domingo still occupied much attention there.

The depreciation in the standard of American gold operated injuriously on the local and export trade

The Bishop of Mexico has lately offered to Gen. Ghildari, an Italian by birth, the sum of $100,000 if he would lead a revolution against Comonfort. The offer was declined.

The expedition to Mexico is to be deferred for further instructions from Madrid. The St. Domingo policy is to be continued for annexation if possible.

A substitute for cow dung in calico printing has been discovered and perfected by a Frenchman. It is prepared from silica, and is in reality a liquid glass. It has been adopted by the manufacturers of calico throughout the country, and at the present time no cow dung is used in this manufacture in this country.

FLOUR BARRELS.—The extraordinary demand for flour barrels has caused recently a great rise in the price, although by the aid of steam immense numbers are now manufactured; yet notwithstanding the increased supply, it is inadequate to the demand, and the deficiency is constantly growing greater. A few years ago, old flour barrels could be purchased for from 12 1-2 to 25 cents per barrel; now rough old barrels readily bring 48 cents, and dressed 64 cents. The scarcity is the cause of much complaint among the city millers, who are compelled to pack much in bags—a mode attended with many disadvantages, and a constant loss of the flour.—*Phil. Inquirer.*

THE ARGUMENTUM AD HOMINUM.—A lady whose husband had been for several Sundays following been jeeringly telling her that the great motive with women in going to church was merely to display their bonnets, at last losing all patience, and said to him—"Then, sir, I suppose the reason why you gentlemen so rarely come to church is because you cannot show your hats."

Fifty thousand copies of Emerson's "English Traits" have been sold in England.

A story is told of a Quaker, who, on receiving a blow on his face, turned the other cheek, to which a similar salute was applied. 'Friend,' says the man of peace, —'Scriptural injunction being now satisfied, I will proceed to administer to thee a little wholesome correction.'

"GOT OVER IT."—Strangely do people talk of "getting over" a great sorrow, overleaping it, passing it by, thrusting it into oblivion. Not so. No one ever does that; at least, no nature which can be touched by the feeling of grief at all. The only way is to *pass through* the ocean of affliction, solemnly, slowly, with humility, and faith, as the Israelites passed through the Sea. Then its very waves of misery will divide and become to us a wall on the right side and on the left, until the gulf narrows and narrows before our eyes, and we land safe on the opposite shore.—*The Head of a Family.*

A chap applied at a police station in Boston for lodgings, on Saturday night, who elucidated the question of parentage in this way:—'You see first my father died and then my mother married agin, and somehow or other I don't seem to have no parents at all nor no home nor no nothing."

CALIFORNIA.—The Pastoral Address to the members of the Methodist Episcopal Church, dated Sept. 3, says; "We behold drunkenness, gambling and licentiousness, as vultures, gnawing at the very vitals of society."

Four hundred and twenty temperance meetings were held in California in the year 1855; and 35,911 temperance tracts were distributed during the same time.—Number of Divisions of Sons of Temperance in operation, 180; members admitted, 6663.

HOW TO SQUARE THE CIRCLE. — Settle your wife's bill for hoops at the dry goods store.

Those who have used the Oxygenated Bitters for Dyspepsia, attest the superior efficacy of this medicine. Its health-restoring qualities not being subject to any reaction from stimulants, is the secret of its great success.

GOOD ADVICE GRATIS.—When you get into a passion just walk out in the open air; you may speak your mind to the winds without hurting any one, or proclaiming yourself a simpleton.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

Cooking Stoves.

IT is important in buying a Stove to get a good one, and there are so many new fangled ones urged upon the public, that it is no easy matter for a person who is not acquainted with the Stove business to select the best.

The subscriber would respectfully invite the attention of the public to the following Stoves, from the foundry of A. C. Barstow, Providence, R. I.—all of which he can *warrant to give satisfaction in every respect*—with wood or coal:

BAY STATE,	Patented	8 years	since.
BANNER STOVE,	"	5 "	"
LILLY DALE,	"	4 "	"
SWEET HOME,	"	2 "	"

These Stoves have been used in Portsmouth for years, and we can refer to thousands who are now using them.

We have also for sale a variety of cheap Cook Stoves, and second hand Stoves—all of which will be sold cheap for cash. Please call at No. 46 MARKET STREET and examine the Stock.

Oct. 29. E. A. STEVENS.

The Rubicon.

THIS is the name of a new and beautiful
OPEN PARLOR STOVE,
with sliding front,—easily changed to a close stove, adapted to the burning of Bituminous or Anthracite Coal—and is pronounced by Ladies and Gentlemen of taste, to be just the thing for the Parlor or Sitting Room.

Three sizes in store and for sale by the subscriber. G. N. CARLETON,
o27 15 Daniel street.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF
Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGVALE, MAINE, Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a bellows Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friends."

Asthma or Phthisic, and Bronchitis.

WEST MARLBOROUGH, PA., Feb. 4, 1856.
SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MERCER CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to these the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which neither we could procure any her much relief. She was steadily failing, until Dr. Strong, of this city, where we have gone for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELDY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow dismper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Piles arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns, and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Ironware comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Volunteer testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Dodt, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	130

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complicated in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to berform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.,

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,
Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc.

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect called an Home Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of fleneroud enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.
TO MARRIED LADIES
it is peculiarly invited. It will, in a short time, bring on the monthly period with regularity.
Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.
CAUTION.
These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY.**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R'H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Boston, Jan 11 1856 d7eodjy

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas. Spices, &c.

5 lb. Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Boston, Aug. 16, 1856. oo6m

A. J. INGERSOLL. }

HOWARD BENEVOLENT SOCIETY.
Instituted in 1829—Incorporated in 1854.

The following officers were elected at the annual meeting held Nov. 17, 1856:

Ichabod Goodwin, *President.*
Charles W. Brewster, *Secretary.*
William Day, *Treasurer.*

Horton D. Walker, John Bennett, John W. Fernald, Joseph D. Pillow, Benjamin Cheever, Alfred M. Hoyt, William Tuckerman, William Bodge, Benjamin Carter, Jr., N. Medbury, George M. Marsh, John Stavers, *Directors.*

Stephen H. Simes, Joseph H. Foster, *Auditors.*

The arrangements of the visiting committees for the season are as follows:

December—Goodwin, Day and Medbury.
January—Bodge, Bennett and Cheever.
February—Walker, Stavers and Carter.
March—Fernald, Hoyt and Marsh.
April to December—Pillow, Tuckerman and Brewster.

The funds of this society are derived from the annual contribution of $1 from members, and by private donations. Its object is to assist the unfortunate poor, chiefly in the winter season.

DOVER MUNICIPAL ELECTION.—The voters of Dover will be called upon next Tuesday to elect their city officers for the ensuing year, an act having been passed at the last session of the Legislature changing the time of the election from the second Tuesday of March to the fourth Tuesday in November. The officers elected are to assume their trusts on the first Wednesday in January. This arrangement will divert the management of the municipal business from so strong a political bias as it is prone to receive when connected with the State election. For municipal affairs the best men should be selected, without regard to politics. There must, however, be a *mutual* feeling of all parties in this respect, to carry out the right principle. The adherence of one party to partisan candidates, drives all others to the same resort.

SOUTH BERWICK ACADEMY.—We understand that ALFRED M. HOYT, Esq. of this city, who for more than twenty years has been a successful teacher of youth, has been invited to take with Prof. I. GOODWIN of South-Berwick, the charge of the South Berwick Academy. The mathematical department to devolve on Mr. H. and the classical on Mr. G. While we in common with many fellow citizens regret the loss to our community of so sterling a man, we regard the institution as fortunate in securing the services of one who is regarded *the* mathematician of Portsmouth. The Academy we learn is in a very thriving condition, having had an hundred pupils the past year.

THANKSGIVING.—In New-Hampshire, Massachusetts, Rhode Island and Vermont, on Thursday next, Nov. 27th. In 23 States and Territories the 20th of Nov. was observed as a day of Thanksgiving.

FATAL ACCIDENT AT DOVER.—On Wednesday evening last, while firing a salute to celebrate the Buchanan victory, at the second discharge of the canon, which was made prematurely, John Foss and George S. Clark were killed, and Charles Philbrick wounded.

The Dover Gazette of to-day says, that after the first discharge, and while the gun (a 24-pounder,) was being charged for the second time, it went off prematurely, the powder having caught from sparks of the old charge left in the gun, throwing both to the distance of several rods, mutilating in a horrid manner and causing instant death to Mr. Foss, and tearing off both of Mr. Clark's hands above the wrists, and crushing the stump of his left hand to a jelly. Mr. Clark was taken up and carried to his residence, where he expired about 10 o'clock the same evening. Mr. Charles Philbrick, who was thumbing the vent, had his thumb badly wounded, and was otherways so burnt and injured as probably to cause the loss of one eye.

Mr. Clark was 26 years of age, and leaves a wife to mourn his sudden and violent end. Mr. Foss, (formerly of Strafford,) was 23 years of age, and also leaves a young wife to lament his loss.

REJECTION BY REPUBLICANS IN CONGRESS OF RELIEF TO KANSAS.

One of the strongest arguments brought by the Administration orators previous to the election against the Republican Representatives in Congress, and through them against the party generally, was that when they had an opportunity to pacify the troubles in Kansas they refused to do it, choosing rather to continue the excitement than to allay it before the Presidential election.

The true history of that matter, as exhibited by Senator Hale, in a public speech at Dover the other evening, shows that our Senators and Representatives could not do justice to the free State men in Kansas by voting for the bill of Mr. Toombs.

Mr. Hale said, when the bill was introduced, he did get up and say that in many of its provisions it was a fair bill, much fairer than he had reason to expect from that side of the Senate—but that it needed amendments, important amendments, before he could vote for it; and in order to see whether its friends were actuated by the desire which they profess to settle the question in a satisfactory manner, he would propose such amendments as he thought would render it acceptable to the whole country. Mr. Hale then proceeded to specify some of these amendments. The bill provided, among other things, that those laws of the Kansas Legislature, which were in conflict with the Constitution of the United States should be repealed. This, Mr. Hale said, was seemingly fair, but it was a gross deception. Everybody knew that the Legislature of Kansas had no right to enact laws which were in conflict with the Constitution, and that such laws were consequently null and void.—But the difficulty was that the Republicans had no confidence in the President who was to execute these laws, or his Territorial Judges, who were to pass upon their validity. We therefore proposed, said Mr. Hale, to repeal all those laws which were objectionable—that for instance pronouncing it a State prison offence to speak, print, or write anything against slavery; that requiring the people to take an oath to support these infamous laws before they could vote, &c. All these amendments, said Mr. Hale, were immediately voted down by Toombs and his friends, who refused to have the bill altered in any respect, and the Republican Senators, though approving of many of its provisions, were compelled to vote against it.

Morning Chronicle.

SATURDAY, NOVEMBER 22, 1856.

SALEM WITCHCRAFT.

No. 2.

Speaking of Rev. Mr. Parris and his people, as fully believing that the Devil was in their midst, moving his agents the witches to all manner of mischief against the saints, Mr. Fowler says:—

It was in this point of view, that we discover the courage of the people of Salem Village, who were engaged in opposing what they considered the machinations of the Devil—they supposing that he was the cause, operating through the agency of Witches, of all the torture and misery they beheld, and that, by their opposition, they were liable also to suffer from his malignancy. They believed, also, that the Devil was about to establish an agency or kingdom in New England: and had actually commenced operations in Salem Village.—This, Cotton Mather, Parris, and others, were determined should not be done, at least if they could help it. There was some very singular evidence given at the Courts on this point. Ann Foster, of Andover, a confessing Witch, testified at her examination, July 21, 1692, "that she was at a Witch meeting, at the Village, where there was a large number of Witches present, and that the principal discourse at this gathering, was in regard to the setting up of the Devil's kingdom at the Village, and making it their rendezvous!" And another confessing Witch testified, at a subsequent meeting, that they had, by an unanimous vote, concluded to set up the Devil's kingdom at Salem Village—it being thought all things considered, the most suitable place to begin the enterprise, and, by so doing, they were in hopes in would spread over New England. This was solemnly and religiously believed by many, and it required courage and pluck to stand up and resist the designs of a powerful malicious being, capable, as they supposed, of tormenting them in various ways, destroying their cattle, &c.

Parris appears to have been very desirous of preventing his daughter, Elizabeth, from participating in the excitement at the Village. She was sent by her father, at the commencement of the Delusion, to reside at Salem with Capt. Stephen Sewall.—While there, the Captain and his wife were much discouraged in effecting a cure, as she continued to have sore fits. Elizabeth said that the great *black man* came to her, and told her if she would be ruled by him, she should have whatsoever she desired, and go to a *Golden City*. She related this to Mrs. Sewall, who immediately told the child it was the Devil, and he was a liar, and bid her tell him so if he came to her again; which she did accordingly the next time the black man came to her. The Devil, it would seem, unaccustomed, in those days, to experience such resistance, and utterly astonished at the cool impudence of Betsey Parris, never troubled her afterwards; and, —although this girl was one of the first originators of the Witchcraft Delusion, in connection with her cousin, Abigail Williams,—she appears to have had, afterwards, but little to do with Witchcraft.—This arose in consequence of following the sage advice of Mrs. Sowall, in getting rid of the Devil; or, what was more probable, in her father taking her from the weekly circle of accusing and bewitching girls, and placing her in a very respectable family in Salem.

It has been said that Parris had a rival in Rev. George Burroughs, who had friends in Salem Village, desirous of his settlement; and that was a sufficient reason why Parris should appear at the Courts against him. Mr. Fowler had never seen any proof of this rivalship between these clergymen.—It is difficult now to ascertain the cause of the arrest of Burroughs, who was preaching at Wells at the time, in his pulpit.—The girl who accused him of bewitching her, was Mercy Lewis, who was then living with Thomas Putnam. She formerly lived with Burroughs, when he preached at the Village; and, upon one or more occasions, he whipped her severely. This, the speaker suspected, was the true cause of her crying out against Mr. Burroughs.

It had been said that Rebecca Nurse was an object of special hatred to Parris: but this he had failed to discover. He could not imagine the cause of the alleged complaint of Witchcraft against Rebecca Nurse. She appears to have been an amiable and exemplary woman, and well educated for the times in which she lived. He suspected, from an examination of the charges brought against her at the Courts, that she had several times severely rebuked the accusing girls for their folly and wickedness, when meeting in their circles. In this way, she probably incurred the displeasure of Ann Putnam and her mother—her principal accusers. Mr. Parris has often been accused of being over officious, and a swift witness against the accused at the Courts. Parris could not be said to have been a chief witness in the prosecutions, although he may be said to have been a frequent corroborating witness his neighbors. The chief witnesses were the accusing girls, as they were called. At the preliminary examinations before the magistrates, Parris and others were required to be present, when the depositions were taken down as related by the girls, and afterwards made use of at the trials before the Courts.

DESTRUCTION OF NASHUA BRIDGE.—The Manchester Mirror reports that the bridge belonging to the Concord Railroad over the Nashua River, took fire, probably from sparks, last Tuesday night, and was consumed. Is adds: "The railroad company keep lumber ready for such emergencies, and will probably have on a new bridge in the course of a week. In the mean time, there will be a foot-bridge, cars coming to each side, so that trains will not be interrupted. We believe the bridge was about 200 feet long, and if so, the loss would be about $3500." It is reported that the bridge was insured.

SLEIGHING.—Snow has fallen to a considerable depth north of Lake Simcoe, Canada. At Barrie and Orilla they had sleighing for two or three days in the beginning of last week. At London, C. W., also, there was a heavy fall of snow.

LYNCH LAW IN KANSAS.—A gentleman from the southern part of Kansas informs us, that one of those acts not unusual in all new territories of the West, recently occurred on Pottawomie Creek in Kansas Territory. Various robberies had been committed in that region—the people turned out and apprehended two persons, who were believed to be concerned in robbing a a peaceful person named Brisco Davis of all his property, and the widow Cornett of $110 in cash, a horse, and all her property. After due examination they were hung with the ropes they had taken from the animals stolen by them. One of the men thus hanged by virtue of the Lynch law is supposed to have borne the name of Partridge, and has been quite a conspicuous character in the territory. The name of the other was not known. These men, it is said, were hanged for robbery and other crimes committed by them, and not from any political consideration.—*St. Louis Republican. Nov. 14.*

The St. Louis Republican is a border ruffian sheet.

☞ Rev. David Knowlton will preach at the Hanover street Chapel to-morrow.

HOPEDALE.—Essential changes have been made in the manner in which property is holden by members of the Hopedale Community, so that nearly all the property, instead of being owned as joint stock, is owned by individuals, as elsewhere. The combined industrial arrangement is also nearly abandoned, and any who are friendly to the principles upheld by the community, are at liberty to go there and settle without becoming members, and maintain their own individual interests, as is common in other places. It is now called a "Rural," instead of a "Joint Stock" Community.—*Milford Journal.*

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

Lower Horton, N. S., Aug., 1848.

DR. WM. R. HAYDEN: My dear Sir,—I have sold all the boxes of your pills, and have had many calls since. Please send me ten or twelve dozen boxes the first opportunity.

Your obedient servant,
JUDAH BORDEN.

WM. R PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

WOOD'S HAIR RESTORATIVE.

Of all the restoratives for the hair, that have been invented, Wood's pre-eminently claims the first place. It will certainly restore the natural color of the hair, if the directions are followed for a sufficient length of time. It also has produced astonishing effects in bringing out a growth of hair, where the head has been previously bald. Wood does not pretend that it will do this in all cases, and we think his candor is a good recommendation of the virtues which his restorative readily possesses. If the roots of the hair are destroyed, no human power can make them grow again, but where there is any vitality left in the root, the restorative will soon renew the hair in all its pristine vigor. It has done this repeatedly where all other remedies failed. It is therefore worth while in all cases to make the experiment. For clearing the head of dandruff, and thickening and strengthening the hair it has no rival—Western Patriot.

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding Co.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It had been more liberally patronized then any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuT&h3 6m

MURDERED BY A SLAVE.—The Madison (Ga.) Messenger has the following account of a terrible murder near there:—On Tuesday night, the 30th ult., Mr. William Pearce, residing about five miles from this place, while he was eating supper, told one of his negro men, who had been guilty of some misdemeanor, that so soon as he was through he would give him a flogging.—Accordingly, when he got up from the table, he went out into the backyard and called the fellow out of the kitchen, and, told him to come to him. Manifesting a great deal of submission, he obeyed, but so soon as he got in striking distance, drew an axe which had been concealed, and split in twain the head of his master, scattering the brains in every direction. The negro instantly fled, and has not been captured.

RELIGION IN AMERICA.—It is estimated by Dr. Baird that, "including the Roman Catholic priests and the Unitarian, Universalist and other heterodox preachers, there is in the United States one preacher for every 810 souls." The average salary of these preachers is $500 per year. More than 1000 new church edifices are erected every year. Dr. Baird also estimates that 18,000,000 of the 25,000,000 people in the United States in 1855 were under the instruction and influence of the "Evangelical" churches; and 4,000,000 or 5,000,000 under the influence of the "non-evangelical" bodies, of which the Roman Catholic is by far the most numerous. The total cost of public worship in the United States annually, is set down at $25,000,000.

ST. LOUIS, 21st.—The block warehouses on the Levee, known as the City Buildings, consisting of 13 stores, were burnt last night. There were on the premises about 40 tenants, including some of our heaviest firms. Loss half a million dollars.

MARRIED,

LOCAL.

BOARD OF ALDERMEN, Nov. 20.—Alderman Rowell in the Chair.

High School Committee petitioned for settees for the Boy's High School room.—Referred to Committee on School Houses.

Robert Shillaber and others apply for the use of the upper room in the State Street School House for the purpose of a Debating Club. Referred to Committee on School Houses.

A Resolution was passed, authorizing the Collector to issue notices to those whose taxes remain unpaid on the first day of December.

The Street Commissioner was authorized to repair the Culvert near Mr. Jarvis's, Creek Bridge.

Adjourned to two weeks from this evening.

☞ It will be seen, by an advertisement in another column, that Mr. Johnson has taken a shop in Daniel street, where he will continue to renovate the ladies' scissors, and put the keenest edge on the gentlemen's razors.

ANOTHER INCENDIARY FIRE.—On Friday afternoon, just before 3 o'clock, fire was discovered issuing from the barn of Mr. Asa Ham, situated between the two railroads, about a quarter of a mile above the Creek Bridge. The barn contained about 15 tons of hay, and other articles. The whole were consumed.

There was insurance upon the barn, stock and utensils to the amount of $400, at the Portsmouth Agency of the Howard Insurance Co. of New York, J. P. Bartlett agent.

It is evident we have incendiaries among us, who are determined to do all the mischief in their power—and who ought, by all means, to be ferreted out and taken care of.

A gentleman informs us that he found a company of little boys, who were yesterday amusing themselves by making a fire close to the basement door of a large brick store: he made them put out their fire, and took away a pocket full of matches from the little ringleader.

Between 5 and 6 o'clock the Old South Bell was struck, and in a minute our streets presented a representation of a half-way place between Babel and Pandemonium; bells rang, boys "hollered," women screamed, engines ran in every direction, and every one tried to jostle as many of his neighbors from the sidewalk as was possible. The nerves of our citizens are so wrought up, by the recent rascally doings, that at the least symptoms of a fire the alarm is spread with marvellous rapidity, considering that when there really is a fire the building is not generally much more than half consumed ere it is given.

The occasion of this alarm was the lighting up of the embers of the afternoon's fire.

☞ The Lecture before the Mercantile Lyceum, on Friday evening, was by Prof. Whittaker, on Architecture. It was an able performance, interesting to a considerable class of hearers,—but of course not to those whose chief object is to be excited or amused. The illustrations were numerous and apt,—and the lecture instructive to young persons who have a taste for such studies.

City Clerk's Office,
Portsmouth, November 21, 1856.

500 Dollars Reward.

THE above reward will be paid to any person or persons who will give such information as will bring to conviction any person or persons who have set fire to the Barns and Buildings in this City within the last twenty days, or 100 Dollars for the conviction of any person or persons who have set fire to any one of said buildings,—or 100 Dollars to any person or persons who shall hereafter discover and bring to conviction any person or persons setting fire to any building in this City.

By order of the Board of Aldermen,
JOHN BENNETT, *City Clerk.*

CONVICTION OF WORKING MEN.—From an official return, it appears that 1541 workmen were summarily convicted and committted to prison in England, in 1855, for breach of contract with their employers, 109 convicted in Wales, and 695 in Ireland; showing a total of 2346 convictions. Compared with 1854, this shows a decrease, of 870.

GREAT ARRIVAL OF POULTRY.—7000 live turkeys and 3000 chickens from Upper Canada were brought down on Wednesday by railroad, and turned out at Somerville, near Boston.

DIALOGUE BETWEEN TWO DISTINGUISHED GENTLEMEN. — *Southerner.* — We of the South give the North Sttesmen; you give us wooden nutmegs.

Northerner.—Well the exchange is not so far from even: the statesmen are of about the same quality as the nutmegs.

PHILADELPHIA, Nov. 19.—*Official Election Returns.*—The Evening Bulletin gives a complete official canvass of the vote for Electors in Pennsylvania:

Buchanan Ticket,	232,154
Union Ticket,	203,184
Straight Fillmore,	26,326
Straight Fremont,	64
Buchanan over all,	580
Over the Union Ticket,	26,970

All the Straight Fremont votes were not returned, there being 100 in two of the Wards of this city alone, which were not returned to the Prothonatary's office, nor sent to Harrisburg. The Gerritt Smith votes are not included in the above. If these had been returned Mr. Buchanan's majority would have been slightly reduced.

The Richmond Inquirer publishes official and estimated majorities from every county in Virginia. The footings up give Mr. Buchanan a majority of 28,048 in the State. Gov. Wise's majority in 1855 was 10,048.

Of the 48 parishes in Louisana, we have returns from all but twelve. These foot up a majorty for Mr. Buchanan of 185.—The remaining parishes gave a Democratic majority of 1702 at the last Gubernatorial election. Buchanan has evidently carried the State by a majority ranging from 3000 to 3500.

ONE OF THE LETTERS.

A few days ago we sent out a lot of bills in a circular form, as is our custom, to many subscribers for the Chronicle & Phenix. By the very next day's mail, answers and payments began to come back. With them also have come back, as usual, a few answers that are not payments. Among them we find the following:

LANCASTER N H Nov 17

Dr Sir Yours of the Nov 1856 is before me I have only to say in answer that I never subscribed for Your Paper to My Knowledge it came to this office for a short time directed to me and it was a mistry to us who sent it, supposed it was some good Temperance friend who wished to reform me from Drinking Rum as I always have been in the habbit off and I made good use of it by letting any one that wanted it from the office have it, and notified the P. M. that I would not pay or take it.

Yours Truly GEORGE BELLOWS.

if there is any mistake that I ever subscribed for Your Paper and answering my Signature pleas send me by letter that it is so and I will pay otherwise shall not.

Rept Yours GEORGE BELLOWS.

The above letter writer seems to suppose, as probably some others may, that a man must sign his own name in order to be a *subscriber* in any legal sense. This is not so. Probably not one subscriber in ten over *subscribes* in this manner to any paper. But if a man *receive* a paper, he is liable. We have not received from the P. M. at Lancaster any hint of Mr. Bellows's refusal. We do not believe that P. M. neglects his duty—for we have had evidence of his attention.

If, therefore, Mr. Bellows tells the truth, which we do not undertake to doubt—then he must have refused the paper under some of our illustrious predecessors—for his account seems to date back into Rev. Mr. Lancaster's administration.

But *n'importe*—his letter, above copied, is worth something as a literary waif, a gem of the ocean—and so we let it slide, and the bill with it.

SUSPENSION OF THE WORKS AT THE LOUVRE, PARIS.—We believe that we may now safely state, that the works of the Louvre are to be suspended. The exterior walls will be completed, but the interior, with the marvellous richness of its proposed direction, will be left to be carried out under more favorable auspices. This cessation from the wild investment in stone and cement, which has been going on in every part of France during the last three or four years, is a healthy symptom. To spend tens of thousands upon statues of clerical nobodies, raised by the vicious system of lotteries; to authorise hundreds of town halls, and prefectures, and *sous-prefectures*, to be re-built, or re-furnished, or re-decorated; to gratify the municipal pride of the provinces, by allowing every town from Calais to Marseilles, to borrow heavy sums of money for the elaboration of more or less desirable improvements—was to bring about much of the financial difficulty under which France is now laboring. At the present moment, Paris, it must be confessed, is terrible evidence of the grave consequences to which over-speculation and the daring application of questionable theories may reduce a great and remarkable city.

☞ The Boston Journal says that Col, J. W. White of Kansas, who has been raising men and money at the South for the southern cause in Kansas, has decamped with the funds, and left his men destitute and penniless, somewhere in the state of Georgia.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

The Mustang Liniment cures Rheumatism;
The Mustang Liniment cures Stiff Joints;
The Mustang Liniment cures Burns & Wounds;
The Mustang Liniment cures Sores & Ulcers;
The Mustang Liniment cures Caked Breasts & Sore Nipples;
The Mustang Liniment cures Neuraleia;
The Mustang Liniment cures Corns & Warts;
The Mustang Liniment is worth

1,000,000 DOLLARS PER ANNUM

To the United States, as the preserver and restorer of valuable Horses and Cattle. It cures all Sprains, Galls, Wounds, Stiff Joints, &c.

Will you answer this question? Did you ever hear of any ordinary Sore, Swelling, Sprain or Stiffness, either on man or beast, which the Mustang Liniment would not cure? Did you ever visit any respectable druggist in any part of the world—in Europe, Asia, or America—who did not say "it was the greatest discovery of the age." Sold everywhere. Every family should have it; 8 sizes.

Cooking Stoves.

IT is important in buying a Stove to get a good one, and there are so many new fangled ones urged upon the public, that it is no easy matter for a person who is not acquainted with the Stove business to select the best.

The subscriber would respectfully invite the attention of the public to the following Stoves, from the foundry of A. C. Barstow, Providence, R. I.—all of which he can *warrant to give satisfaction in every respect*—with wood or coal:

BAY STATE, Patented 8 years since.
BANNER STOVE, " 5 " "
LILLY DALE, " 4 " "
SWEET HOME, " 2 " "

These Stoves have been used in Portsmouth for years, and we can refer to thousands who are now using them.

We have also for sale a variety of cheap Cook Stoves, and second hand Stoves—all of which will be sold cheap for cash. Please call at No. 46 MARKET STREET and examine the Stock.

Oct. 29. E. A. STEVENS.

The Rubicon.

THIS is the name of a new and beautiful
OPEN PARLOR STOVE,

with sliding front,—easily changed to a close stove, adapted to the burning of Bituminous or Anthracite Coal—and is pronounced by Ladies and Gentlemen of taste, to be just the thing for the Parlor or Sitting Room.

Three sizes in store and for sale by the subscriber. G. N. CARLETON,
o27 15 Daniel street.

near Liberty Bridge.
Portsmouth, August, 1856. au5d3m

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRINFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGHILL, MISS., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid she could procure gave her much relief. She was steadily falling, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass
PRICE 25 CTS. PER BOX. FIVE BOXES FOR $1.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years.—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *price*.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge*.

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Dodt, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very res'lly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, C to F.....60
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....120

IN PIANO CASE:

Five octave Melodeon, from F to F.....$100
Six octave Melodeon, " F to F.....130
Five octave, double reed, " F to F.....150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds.....850

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,
cor. Niagara & Maryland sts., Buffalo,
and 57 Fulton street, New York.

Agents, for the sale of our Melodeons, for Portsmouth and vicinity,

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE CORRECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to berform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,
Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc.

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Lentze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of fervent enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Extra Winter Blea. Lard Oil.

A fresh supply just received from New Bedford.

IT is very white, burns equal to Sperm, and is very much cheaper, and will stand limpid in the coldest of weather. Sold at wholesale by S. CLEAVES & SON.

THE NEXT BEST ARTICLE IS THE
Extra Winter Bleached Polar Oil,

CAUGHT only in the Polar Seas by New Bedford Whalers. It is received every week fresh and newly manufactured from New Bedford.

Sold at wholesale by S. CLEAVES & SON, opposite the Depot. Persons wishing good lights—by being particular in purchasing either of the above Oils, of the persons named, can rely upon pure oils and will not be disappointed in their light.

S. CLEAVES & SON have been agents and sold New Bedford Oils for the past six years, during which time the Oils sold by them have given the best satisfaction.

Fresh and newly manufactured Oils only, will insure a clear and brilliant light. Jan 29

MORNING CHRONICLE.

$4 PER YEAR, IN ADV. — INDEPENDENT ALWAYS. — NEUTRAL NEVER. — SINGLE COPY 2 CENTS.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11 1856 d7eodtr

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoas. Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO,
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,
SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."
To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	.90
5 lb. Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.
☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"
☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.
☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.
Boston, Aug. 19, 1856. oo6m

MONDAY, NOVEMBER 24, 1856.

SALEM WITCHCRAFT.

NO. III.

Of Rev. Mr. Parris's agency in the trials for Witchcraft, Mr. Fowler speaks as follows:—

These being given in and related by children and young persons, the Court required an endorsement from some older persons, who witnessed their supposed afflictions, and could attest to their depositions. It is in this way Mr. Parris's name, as well as his neighbors, frequently appear in the Court documents. Parris appears to have been frequently at the examinations of those accused of Witchcraft, and put questions to those on trial. He also acted as a recorder to the magistrates more frequently than others. The reason for his being often employed by the Courts was simply because he was requested to do so, and was discovered to be well qualified for that purpose. Mr. Fowler had seen the records of several persons thus employed, and should say Parris's was the best. It was his practice to take down the examinations in short hand,—he being a good stenographer,—and then write them out in full, in a plain, legible hand.

After the Delusion had subsided, Parris was brought by his people, before Councils, Courts and Referees, to answer to charges made against him. It was during his greatest difficulties with his people, that he lost his wife, by death. This occurred on the 14th of July, 1696. She was buried in the Wadsworth burial ground, in Danvers, where can be seen a grey slate stone,—a fine specimen of the lapidary art,—with its lines as sharp as on the day when they were first cut, erected over her grave, on which is the following inscription, with the initials of Samuel Parris at the bottom:—

"Sleep precious Dust, no stranger now to Rest,
Thou last thy longed wish, within Abraham's Breast—
Farewell Best Wife, Choice Mother, Neighbour, Friend,
We'll wail the loss, for hopes of the in the end.
S. P."

Parris sued his people for arrears due him for his salary, and the people at the Village sued Parris to recover their parsonage. The matter was at last taken from the Courts and given to Wait Winthrop, Elisha Cook and Samuel Sewall, Esqs., to settle by arbitration; and they decided "that Mr. Parris should have some of his arrears paid him, also a sum of money for his repairs of the ministerial house, and be dismissed from Salem Village."

When Mr. Fowler had concluded, Hon. Chas. W. Upham arose and stated that for one, although he was unprepared, as yet, to exculpate Mr. Parris entirely from fault in the Witchcraft delusion, he was still glad to find so plausible a view presented in his favor, by a gentleman who was now in possession of the church records, and whose researches into this subject were very extensive, and upon whose conclusions in regard to the matter could be placed great reliance. Mr. Upham moved that the thanks of the Institute be presented to Mr. Fowler for his very interesting and instructive sketch, and they were at once unanimously voted.

A brief discussion then ensued in relation to the subject of Witchcraft, in which some expressed a vague belief that the delusion owed its origin to something like the spiritual phenomena of the present day—alluding to the statement of Mr. Fowler relative to "the meeting of *a circle* of eight girls" for the purpose of practising necromancy, as "the germ, or the first origin of Salem Witchcraft," as corroborative of their view. As several alluded to the fact that most of these early demonstrations proceeded from very young persons, just as many of the young, to-day, are among the best "spiritual mediums," so called, Mr. Upham said he had but little doubt, in his own mind, that, in the early development of the mysterious proceedings which had formed the subject of the evening's entertainment,—*dreams*, and especially that form known as *night mare*, had entered largely, as the chief basis on which much of the remarkable testimony of the witches rested; such, for instance, as the statement of riding to a witch meeting on a broom-stick, etc. If his deductions were correct, in this particular, it would readily account for the conspicuous part borne in the matter by little children.

Ex Governor Slade of Vermont has recently arrived West with another bevy of female teachers, ticketed for Illinois, Indiana, Missouri and Iowa. This makes 450 that have come out under the Governor's care.

☞ Samuel Swartwout, the well known politician, and Collector of New York during the administration of Gen. Jackson, died in that city on Friday, aged 73.

PLANS AND PLOTS.—The New York Courier states that during the canvass, when it was seen that Fremont was likely to carry the North, a caucus of Democratic leaders was held, at which it was resolved that Mr. Buchanan should be held up to the the free States, as in favor of making Kansas a free State. Whether Mr. Buchanan was a party to this scheme we are not informed. It is certain, however, that precisely such a plan was acted upon throughout the North, while it was carefully concealed from the knowledge of the South.—Democratic orators in all the free States, especially in Pennsylvania and the West, gave the most positive assurances that Mr. Buchanan was opposed to the extension of slavery into Kansas. And it is also certain that the great body of the Democracy of the North expect that he will act in conformity with these declarations made in his behalf.

If the proofs of such an understanding should come before the public,—or if the course of events should indicate that it was agreed upon,—we may expect a storm from the South.

It would be superfluous to say, that if Mr. Buchanan should administer the government upon the principles of the Cincinnati platform, no earthly power can preserve Kansas from becoming a slave State, or avert from this country a war with the great maritime powers of Europe in defence of our seizure of Cuba and portions of Central America.

Gov. Wise, of Virginina, is reported, by telegraph, to have gone to see Mr. Buchanan, to set matters straight.

So far, the Courier and other papers, go on speculation.—We would only add that Mr. Buchanan's policy, yet undeveloped, like that of all incoming Presidents, may be viewed from several points.

1. Personal. Here Mr. Buchanan's caution would lead him to slow movements and moderate measures. But

2. Platforms and promises are to be considered. Here, the Ostend manifesto gives the filibusters great hopes; his letter to California pledges him to the Pacific Railroad. The Cincinnati Platform satisfies Brooks and Douglas: and at the same time enables the Democratic party at the North to keep a jubilee at their triumph over "tyrranny and fanaticism."

3. The leading men who have pushed and effected his election, must be supposed in a great measure to shape the policy of of the new administration. What they *will* do, must be inferred mostly from what they *have* done, or *tried* to do. They must *agree* on something.

And lastly, all these views may be modified by the amount and character of the opposition, whether it is weak or strong, wise or foolish.

President Pierce did not in the least disappoint our expectations; and Mr. Buchanan cannot, as we apprehend, fall far below the platform erected for him. Should he, most happily, rise above it to a higher plane, we will hail the event with more real gladness than ever thundered in the detonation of a hundred guns.

PARDON.—The President has pardoned J. W. Morgan, who was convicted in 1852 on two indictments for forgery in Washington, and was sentenced to six years' imprisonment in the district penitentiary. He has been incarcerated since February, 1852. He obtained nothing by his forgery, and his conduct as a convict was exemplary.

The largest mirror plate ever imported into the United States, has just been put up in the bar-room of the St. Nicholas Hotel. The plate is seven feet wide, eleven feet high, and half an inch thick. The original cost and the cost of importation was $1200; the frame and putting up $200; making altogether $1400.

The St. Nicholas Hotel is the place where several shootings and other murders have taken place, perpetrated by crazy drunken men.

LOWELL PAUPER STATISTICS.—During the past year 915 poor people of Lowell received aid from the public treasury. This was exclusive of those in the almshouse.—Of these 135 were American or native born, and 780 foreign born, mostly Irish.

It might probably be added with truth, that nine-tenths of this pauperism was caused by strong drink.

FIRE IN BOSTON.—A fire on Friday evening, about nine o'clock, broke out in a two story wooden building, 341 Federal street, Boston, occupied on the lower floor by Silas D. Bryant, harness maker, and on the upper by Irish families. An Irish woman was seriously burnt in her lower extremities. She was conveyed to the Hospital on a litter. Her name was Mary Noan, and the fire was caused by her getting drunk and falling over the stove. She cannot survive.

A ROBBER ARRESTED IN CHURCH.—About six weeks ago an accomplished rogue named Samuel A. Ford, who has been twice in the Massachusetts State Prison, broke jail at Lenox, Mass., where he was confined for breaking into a store and stealing $300 worth of goods. He came out with scarcely any clothing upon him, and (as appears from his present statement) traveled by night and on foot, seeing no human being on his route—and of course subsisting by plunder on the road—until he arrived in Bangor, when he appeared well clothed and largely supplied with money and jewelry.

In Bangor, he took obscure lodgings and passed by the name of Henry Frothingham, Jr., (and sometimes as Charles Williams, M. D.) He speedily made himself acquainted among shop girls and other females—having apparently a decided liking for the sex—and by industrious inquiry and observation was making himself familiar with the city and its principal stores, undoubtedly in preparation for some brilliant stroke of business in his peculiar line.

Things were thus going on very swimmingly with the gentleman. He was enjoying himself highly with his female acquaintances—riding and dining with them occasionally at the hotels—and making a very genteel appearance. Unfortunately for him, however, he made one mistake. He wrote to his brother at Lenox, and thus gave information as to his location. The brother knew that wherever he was he would soon be preying upon the community—for although able to earn his twenty dollars a week either as a carver or jeweller, he had always eschewed work and lived by plunder. His brother gave information to the officers, where Samuel might be found; and the police of Bangor were notified, and a description given of his person.

It was some time before they could get the track of him; but on Sunday evening, 15th, Deputy Marshals Adams and Emerson received information that he was attending church on Union street, with two female acquaintances; and knowing his desperate character, decided to make sure of their man and arrest him at the church. One of the officers walked into the pew where he was sitting and holding a hymn book with one of the ladies, and politely informed him that a gentleman at the door wished a moment's conversation. He excused himself to the lady and went, with no suspicion whatever of the business for which he was wanted; but at the door, was rather disagreeably astonished by having a pair of handcuffs clapped upon him at once.

He was delivered to officer Hall of Lenox, who was in attendance, and taken away in the steamer on Monday morning.

They do not trifle with defaulters in England. Robson, the secretary of the Crystal Palace Company, has been tried, found guilty, and sentenced to twenty years' imprisonment. Within half an hour of sentence having been pronounced, he was stripped of his ordinary habiliment, and clothed in a convict's dress, became the associate of half a dozen other transports.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

Lower Horton, N. S., Aug., 1848.

DR. WM. R. HAYDEN: My dear Sir,—I have sold all the boxes of your pills, and have had many calls since. Please send me ten or twelve dozen boxes the first opportunity.

Your obedient servant,
JUDAH BORDEN.

WM. R. PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

WOOD'S HAIR RESTORATIVE.

Of all the restoratives for the hair, that have been invented, Wood's pre-eminently claims the first place. It will certainly restore the natural color of the hair, if the directions are followed for a sufficient length of time. It also has produced astonishing effects in bringing out a growth of hair, where the head has been previously bald. Wood does not pretend that it will do this in all cases, and we think his candor is a good recommendation of the virtues which his restorative readily possesses. If the roots of the hair are destroyed, no human power can make them grow again, but where there is any vitality left in the root, the restorative will soon renew the hair in all its pristine vigor. It has done this repeatedly where all other remedies failed. It is therefore worth while in all cases to make the experiment. For clearing the head of dandruff, and thickening and strengthening the hair it has no rival—Western Patriot.

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding Co.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au25m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture and now have it carefully prepared strictly according to the original recipe. *There is no cough it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuT&h8 6m

---

THE AGED.—It was a common taunt, before the late election, that the supporters of Fremont were chiefly ministers, retired scholars, women, and young men. It is true that these classes gave their support to the cause, to a great extent. But the records, since the election, prove that another class, also, should have been added to the catalogue. The aged have given the seal of their dispassionate approval to the cause of freedom, and voted for Fremont, as their way to carry out their views into practice. It would be false to deny that some venerable and venerated men gave their support to other tickets, yet it is not too much to say, that wherever, in a New England village, was to be found a hoary head in the way of righteousness, there was ordinarily an old voter who went, as a matter of conscience, for the ticket above suggested.

BAD SPECULATION.—The down train on the Chicago and St. Louis Railroad was thrown off the track on Thursday morning the 13th inst., by a rail placed across the track. The locomotive only was slightly damaged. The miscreant who did the work was caught and caged. He was seen by persons on the train, scudding through the woods just as the train struck the obstruction. Chase was promply made after him and he was overtaken. He had been put off the train the day before for refusing to pay his fare. He will have an opportunity of philosophizing in the state prison.

LIQUOR CONVICTIONS.—At the Court of Common Pleas for Worcester County, Ms., the present week, the following convictions for violation of the liquor law have been obtained: John Crow and wife of Westboro, Elmer Cowdry of Lunenburg, Daniel Foley of Worcester, (on seven complaints) and Wm. H. Foley of Worcester.

NEW POST OFFICE BUILDING.

Messrs. Editors:—In the Portsmouth Journal of Saturday is an article signed ✱, who says it is the intention of our city officers to at once bring the subject of locating the new Post Office, Custom House and U. S. Court Room, before the respective Boards, and endeavor to reduce the price asked for Jefferson Hall, so as to induce the government to locate their new building on the Market lot.

Great pains has already been taken to ascertain whether the Market lot and the land adjoining could be obtained at a fair price, for the proposed building. After much indulgence on the part of the government, by extending the time several weeks, for receiving proposals, our city officers modestly offer the Market lot for $17,000. This sum, added to what it would cost to purchase the other needful parcels of land, would amount to about $25,000.

The lot rumor said was fixed upon,—viz. the Rockingham Bank, Mr. Cotton's store, and the Piscataqua House lot, —was handed in to the commission, in the time specified, and at a fair price, amounting to $19,000. If our city officers suppose they can trifle with the U. S. officers, they may find themselves as far out of the way, as they have in valuing the Market lot at $17,000, when at this time no man can be found who would be willing to pay one quarter part of that sum for it.

Had the Market lot been offered at the time it was wanted, for this purpose, I have no doubt we should have obtained from $10,000 to $14,000 for the lot. So much for referring business of importance to small committees.

As to the location, there can be but little difference as to public travel, between the Bank or the Market lot. As to public view, the Bank lot is far preferable to that of the Market. The remark of ✱, relating to taxes, belongs to the city, and not to the U. S. government. Government officers are quite as responsible to the Federal Government, as City officers are to the city, for all their doings. N.

Remarks.—While we don't deem the price asked for the city property, exorbitant; we so much prefer the Market location to all others, that we should be glad to have all obstacles in the way of its selection, removed. Take it all in all, there is no spot to be compared with it, for the location of the new building; and from the first moment it was pointed out to us, we have supposed the good sense of those concerned in the matter wouldn't allow them to put it elsewhere—and we don't give it up yet.—The price is a trifle, either way, when compared with eligibility. The other lot named is a good one; so are half a dozen others that have been named.

For the Chronicle.

UP AND AT THEM.—It is thought by many of our citizens, that it is more than probable that the several recent fires which have burned several buildings in this neighborhood, were set on fire designedly, with intent to plunder while the occupants of many houses, were gone out to assist at the said fires.

The villain who sets fire to any person's building, is not worthy to live with civilized people; and the sooner an incendiary or burglar is gotten rid of, the better it will be for the community.

Therefore, it is recommended, that every person have a gun loaded with shot, and if a burglar or incendiary unlawfully enters your house, fire at him; the chance of hitting him with shot is better than with a bullet. PUBLIC GOOD.

HON. T. H. BENTON'S LECTURE.

NOTICE.

If a few more applications are early made for tickets, by persons on the line of the P. & C. Railroad, an extra train will return after the lecture on that evening, for their accommodation.

The Newburyport Herald of Saturday says, "The call for tickets for Col. B.'s lecture has been so great that it is feared the church will not be large enough to accommodate the mulitude."

Correspondence of the Chronicle.

CONCERT OF THE MASS.

EXETER, November 22d, '56. — *Messrs. Editors*: — The concert of the "Mass," on Tuesday evening last, was before a full and most respectable audience, and exceeded the high expectations which had been raised. The entire management shows the ability of the Conductor, who, by his presence of a few days, and untiring industry, with the confidence the class had in his ability, removed and overcame obstacles which, for a time, threatened the success of the concert; and carried it successfully through. So soon as the hall was well filled, and the hour of concert arrived, the orchestra and chorus took their seats, followed by the Conductor, who announced an omission in the programme, took his baton, turned to the class, signalled, their rising, and after a number of silent beats, a burst of harmony poured forth simultaneously upon the delighted audience, who listened with intense interest to the close; and the "Mass" was concluded, followed by the plaudits of the gratified hearers.

A repetition is very desirable, and would receive a crowded house. The pianos were alike, by Chickering; and played so exactly, with that precision, that it was impossible to detect a fault. The instrumental and vocal parts were full and effective, and reflect great credit upon all who took a part. You must have it in your good city, from which it received valuable assistance. SWAMSCOT.

☞ Our correspondent at Exeter informs us that "the Democracy of Exeter and vicinity celebrated the election of Buchanan and Breckinridge on Thursday, evening last. At seven o'clock a torch-light procession was formed, which marched through the principal streets, in which a number of dwellings were illuminated. During the march of the procession, a salute of one hundred guns was fired. The Buchanan Guards of Rye, with the Boston Brass Band, formed the escort. Speeches were made at the Town Hall."

SOUTHERN AID SOCIETY.

This is a missionary society, whose field is the South, and is supported mainly by the North. It seems to belong to the presbyterians. It lately held its third anniversary in the Mercer street church, New York. From the proceedings, as sketched in the Congregational Journal, we make some brief extracts.

The disbursements are made to the South and Southwestern States, which is the field of labor. The South are twice as destitute as the North, and their church has but one-third as much property; while the North has twice the missionary ability. It was only on account of this grand diversity in the missionary condition of those opposite sections of our country, that this society was organized, and still seeks assistance to carry on its operations. Christian patriotism should induce the North of her abundance to labor for the spiritual good of her neighbors. Contributions for spreading the gospel in the South, are strong arguments with them of the kindness of the North.

Rev. Dr. Boyd of Virginia, made an address of considerable length, expressing his approval of the objects of the society—"Much interest," he said, "was felt at the South. He believed the white people there as susceptible of religious impression as any people, though he admitted they had not that high religious sentiment we would desire. It was a misconception on the part of many here, that there were portions of practical duty to instructions on which, from the gospel minister, they were not accustomed to listen. They are disposed to listen to the whole truth; he and his brethren were accustomed to preach not only on the duties of husband and wife, parent and child, but likewise on that of master and servant; they consider it their duty to preach the gospel and its practical duties as our Saviour and his apostles did, and they feel they could not have a better example; hence they do not preach politics.

As to the colored population, *they are very accessible to the gospel*. Notwithstanding his own extensive acquaintance, he has never met with the man, slaveholder or otherwise, who objects to having the gospel preached to his slaves or the colored population.

The society is laboring not only for the colored population of this country, *but also for that of Africa*, who can receive the gospel almost alone from those who go thither from our country.

But why is foreign aid necessary? Practical religious sentiment which is developed chiefly by habit, does not exist to such an extent in the South, as in the North. Consider also, the sparseness of the population, and that the people are divided into various denominations as in the North, except that many forms of infidelity, as the Universalist, Unitarian, &c., are not found.

The reader will please to scan the extracts carefully, and make his own comments.

POLITICAL RHETORIC.—A foreign wag hits off something of our political rhetoric and morality as follows:

A New York journal contains an electioneering speech, in which occurs the following paragraph:

My honorable colleague who has done me the honor to contend with me in this election, is, as a private man, very amiable, but as a politician he is an evil-minded, graceless, cowardly renegade. I allow, he is wise and upright in his private business, but for an office he would sell his father or make over his soul to the devil. He is a man of honor and honesty, but as a legislator, he would betray any trust that might be reposed in him, for in political matters he is an out and out knave. In all the private relations of life he is a sincere friend, but in public affairs as treacherous as a Kentucky alligator!

LARGE PORKERS.—Mr. David Ash of Lisbon, N. H., slaughtered two hogs on the 19th of November, 1856, that were one year old on the 23d day of last May. One was a sow which raised seven pigs this season. Her dead weight was six hundred and fifteen pounds. The other was a barrow, weighing seven hundred and forty-five pounds.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

Lumber! Lumber!

THE subscriber having leased
UNION WHARF,
for the purpose of carrying on the Lumber business, would respectfully inform his friends and the public, that he has

The largest and best selected stock

of LUMBER ever offered for sale in this city; and will sell as low as at any other establishment in the city, at Retail or by Cargo.

The following Lumber has just been received from St. John, New Brunswick, by schooners Mary Groton, Sea Bee, Comet, Eagle, and Gypsy:

400,000 feet Pine Boards, clear and merchantable.
100,000 " Dimension stuff, 1½, 2, 2½, 3, 4 inch.
600,000 Pine Shingles.
400,000 Pine Laths, first quality.
75,000 Clapboards, extra clear, No. 1 and 2.
20,000 Pine Pickets.
5,000 Blind Slats.

Also received from Bangor by schooners Michael, Banner, Wave, Crown and Niagara,

700,000 Cedar Shingles, sawed and reft, of the various qualities.
250,000 feet Spruce Lumber, of all dimensions.
100,000 Spruce Laths.

Fencing Stuff.

50,000 feet Spruce Rails, different dimensions
20,000 Spruce and Pine Pickets.
500 Cedar Posts.

House or Barn Frames can be had from the Wharf, or the subscriber will contract to furnish Frames of any dimensions.

White Pine Lumber of the best quality, of any dimension. Shingles, Clapboards, Pickets and Laths, from St. John, N. B., by the cargo.

The Lumber bought at this establishment will be delivered to packets, gondolas, or at the depots. The patronage of the public is respectfully solicited.

GEORGE W. JENNESS,
Union Wharf, Water Street,
near Liberty Bridge.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BERKSHIRE, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your Pectoral, myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scorn pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MOORFIELD, IA., writes, 24 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid she could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance of price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Heretofore, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a more charming instrument it is. It has been played on by Wallace, Dodt, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very respfly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....130

IN PIANO CASE:

Five octave Melodeon, from F to F.....$100
Six octave Melodeon, " F to F.....130
Five octave, double reed, " F to F.....150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds.....350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time,

BY J. A. SPENCER, D. D.,
Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc.

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of fleneroul enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Mwenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the first three months of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Sole Agents for the United States and Canada,
I. C. BALDWIN & CO., Rochester, N.Y.
TUTTLE & MOSES, Auburn, N. Y., General Agents.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that HERE IS MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11 1856. 3feodly

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoas, Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, & Prepared Dandelion Root, &c., &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."
To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	.90
5 lb. Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.
☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"
☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.
☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.
Boston, Aug. 19, 1856. eod6m

Morning Chronicle.

TUESDAY, NOVEMBER 25, 1856.

WHAT THE SLAVE POWER DEMANDS.—The ultraists of the South are beginning to be rampant in their demands. They claim Mr. Buchanan as their President, and declare boldly what they expect of him. They say, in so many words, the New Orleans Delta being their mouth-piece: "He owes his election to the vote of the South, and to the defiant attitude of resistance which she was beginning to assume. He should bear that fact well in mind. He will be a traitor, and insensible to every manly feeling of gratitude, if he forget it, and disregard the obligations it implies. Then let him live up to the letter and spirit of the Ostend letter; let him look to our interests in Cuba, which, by right of geography and political necessity, should be ours;—let him fortify Walker in Nicaragua, and forestall Spanish and French designs upon Mexico; let him place the great Tehuantepec route beyond the hazard of being lost to us, by securing the grant of a strip of territory across that Isthmus: let him do these things, and we can laugh to scorn the subtle policy of Seward, the rhetorical raving of Sumner, and the blatant menaces of their followers."

A correspondent of the same paper, in the same spirit, declares that "the South now wants security for the future, and she must have it. There is no excuse—we are now in power. Extension of Slavery is the testing crucible. The South demands an equality in the Federal Senate; hence, the first step is to admit Kansas as a Slave State, an offset to California—this equilibrium never, hereafter, to be disturbed; for every Free State, one Slave State; the principles of the Nebraska Kansas bill, so far as they touch Slavery or non-Slavery, never to be repealed."

Such is the programme marked out, whether Mr. Buchanan yields or resists.—Agitation, so far from being quieted, bids fair to be more rife than ever.

VOTES IN NEW HAMPSHIRE.

The Concord Reporter quotes from official returns, and makes up the following table from official returns of the town clerks last spring, which gave the whole number of legal voters and ratable polls in the State in March last. These returns may be found in the office of the Secretary of State.

	Voters.	Ratable Polls.
Rockingham,	12,135	12,460
Strafford,	6,980	7,273
Belknap,	4,855	4,920
Carroll,	5,290	5,369
Merrimack,	10,400	10,723
Hillsborough,	13,461	14,336
Cheshire,	6,700	6,874
Sullivan,	4,875	5,045
Grafton,	10,504	10,718
Coos,	2,915	3,236
	78,115	80,954

So it appears that there were 78,115 legal voters in the State in March last. The vote for President, at the November election, was about 71,500. This leaves about 6,600 who did not vote.

HON. JAMES PIKE.—The Boston Post tells a pretty good story of Hon. James Pike. During the last campaign he preached on Sunday at Sandwich, being a regular and influential Methodist minister. His sermon was tinctured pretty strongly with politics, and at the close the minister of the parish arose and said: "I would give notice that Brother Pike will lecture at this place to-morrow evening. Subject *anticipated*." Upon this a Buchanan man in the singing seats jumped up and called out: "I would give notice that Charles Doe, Esq., of Dover, will lecture at this place on Tuesday evening. Subject, *Buchanan and Breckinridge*."

The vote of Sandwich told whether Mr. Pike's or Mr. Doe's address was the most convincing to the good people of that town. The Fremonters gained ninety-four votes in Sandwich.

☞ A correspondent of the Dover Enquirer, writing from Rochester, N. H., says "The Norway Plains Co.'s Mills, which were very badly damaged by fire in September, are being rapidly put in readiness for further operations. The Lower Mill has had its walls repaired, been new roofed, and put in operation two weeks since. The Upper Mill has been rebuilt from the the second story, and will be put in running order by the middle of December."

ACQUITTAL OF CONDUCTOR HOPPEL.—A. F. Hoppel, Conductor of the Excursion Train of the North Pennsylvania Railroad, who was tried on a charge of manslaughter, in causing the death by negligence of about seventy persons by a collision of trains, has been acquitted.

SAMUEL SWARTWOUT, a gentleman who was known to most people out of New York for having added a new word to the English language—personalizing defaulter—died in New York on Friday, at the age of 73. In youth he was attached to the Navy, but he left the service and was afterwards connected with Aaron Burr in his schemes as correspondent and agent. Burr placed implicit trust in him, and Swartwout was tried as Burr's accomplice in treason at Richmond in 1807, and was acquitted. He was a great friend of General Jackson, was intimate with him before he was thought of for the Presidency, sustained his nomination with great ardor, was appointed Collector of New York, went into the early Texas movement, squandered the government funds in speculations, and retired to France and Switzerland; but finding that the feelings of the people were not vindictive toward him, while his case was not of such a character as to apprehend a successful prosecution on the part of the government, and his securities could be aided in raising means from his assets to meet the obligations they had assumed on his behalf, he returned to New York, where he has ever since resided.

LOSSES ON THE LAKES.—The disasters on the Western Lakes this season far exceeds those of former years in number and fatality. The Chicago Tribune gives an imperfect list of the lost vessels, making an aggregate of six steamers, nine propellers, two tugs, five brigs, and twenty-eight schooners. At a low calculation, two hundred lives have been lost. Several of the vessels have disappeared, and never been heard from.

☞ As Rev. H. W. Beecher was about to lecture in Cincinnati, on the evening of the 16th inst., the floor of the entrance to the room gave way while a large crowd was pressing in. It was supposed for a time that a number of gentlemen and ladies were injured, but fortunately no one was hurt.

☞ The Worcester Spy says that John B. Gough, the temperance lecturer, ruralizes during the summer at his residence in Boylston, leads the choir of the village church, superintends the Sabbath school, and extemporizes in the pulpit in the absence of a regular pastor.

☞ George W. Curtis uses the following beautiful and appropriate simile:

What have we achieved in this contest? We have lost a battle but we have won a victory. The receding steps of the men who retired from Bunker Hill echo through history like the advancing tread of the great army of freedom. Such is our position at this day.

☞ The City Council of Concord have raised the salary of the Mayor of that city from $200 to $500. The salary of the Mayor of Portsmouth is $250, having been reduced $50 during the present year.—In Portland, the Mayor has $1200—in Newburyport, no pay, we believe.

☞ An unknown man, 50 or 60 years of age, was knocked down and run over on Monday afternoon, by a train of cars on the Boston & Maine Railroad, between Kingston and Exeter. He was alive when taken up, but is badly, if not fatally injured.

QUERIES.—Allow me to ask, Mr. Editor, If our cousins *German* are "foreign relations?"

Are the men who dig trenches for the Gas Co., necessarily *sagacious* (sagacious) men?

If a man and his wife are "one," is it to be inferred that that one is a *quadruped*?

X. A. C. T.

☞ Harper's Magazine for December has been received at Williams & Co.'s, Boston, and by J. F. Shores, jr., Portsmouth. It is a good number, and the work is well sustained and even improves.

☞ As the train from Westfield, Mass., on the Canal Railroad, was starting from Simsbury, Friday morning, a man named Moses Larry fell between two of the cars and was instantly killed.

☞ The Charleston (S. C.) Times, Standard, New Orleans Delta, and other Southern papers, are out in favor of re-opening the African slave trade. Coming events cast their shadows before.

☞ Mr. Joshua Miller, of Bangor, as he was riding in a carriage last Saturday, in company with two ladies, had both his legs broken by the horse kicking into the carriage. The ladies were not injured.

☞ The Baltic, from New York for Liverpool, carried out 500 barrels of apples as a portion of her freight.

BOSTON THANKSGIVING ITEM.—Poultry is now abundant and the warm weather places prices within reason—14 to 16 cents per pound. Fruits are extremely high and scarce at that. Good apples command 4 to 5 dollars a barrel and raisins are sold at $4 50 per box. On Saturday, however, housekeepers were refreshed with the news that two more cargoes had arrived and that fruits had reached their highest point.

As Boston prices regulate ours, in these things, we rejoice also, that the people are not likely to go hungry on Thursday.

☞ At the Court of Common Pleas for Worcester County, Mass., Thursday, Daniel T. Howard of Franklin, was arraigned upon an indictment charged with burning his Cotton Mill in Sutton, five years ago, for the purpose of obtaining the insurance.

POLITICAL GOSSIP.—The Philadelphia Pennsylvanian states that neither Mr. Slidell nor Mr. Douglas has visited Mr. Buchanan since his election.

☞ A. B. Ely has retired from the Boston Evening Ledger.—Its new proprietors intend to make it an independent newspaper.

☞ Mr. Charles Foss of Plaistow, N. H., committed suicide on Wednesday morning, by hanging himself in his barn.

MR. CUNNINGHAM'S MURDERERS.—The Friend of China says:—The United States ship Levant was at Shanghae, with his Excellency Dr. Parker, on the 14th ultimo. The Levant's arrival at Foochowfoo appears to have been opportune and to have induced, what could not before be obtained, the arrest and the promised trial of the murderers of the lamented Mr. Cunningham. Dr. Parker lost no time in demanding an interview with the Viceroy, and is said to have been well received.

FROM CHINA.—A correspondent of the New York Times writes from Hong Kong, Sept. 11:—A most melancholy suicide by shooting occurred here on the day preceding the arrival of the Portsmouth. The victim was Captain Avery, of the ship Golden City. Captain A. was until recently a lieutenant in the navy, but was dropped by the action of the Navy Board. Since then he has commanded the fine clipper ship Golden City.

SHOOTING.—"I say, friend, is there anything to shoot about here?" asked a Kentucky sportsman of a little boy. "Wal, nothing just about here: but the schoolmaster is down the hill yonder; you can pop him over."

In Shenandoah county, in Virginia, there were five men who voted for Fremont, and the Democratic "Sentinel," of that county, has a cut of each one of them, after the manner of runaway negroes, illustrated in their advertising columns.

In Manchester, on Friday afternoon, Dr D. B. Lewis and Mrs. Nancy Lewis were arrested on the charge of having caused the death of Mrs. Clarissa Ann Demary of that city, by attempting to perform an illegal operation upon her person.

BALTIMORE, Nov. 23.—*Louisiana Election.*—New Orleans papers of Monday last are received. They contain returns of the election in Louisiana, mostly official, which show a majority of 1518 for Buchanan.

ATTEMPT TO BREAK JAIL.—Four desperate characters confined in the prison at Doylestown, Pa., recently relieved themselves of the shackles which bound their ancles, and arming themselves with iron-mounted wooden bludgeons, threatened to kill the sheriff or any of his officers who should dare to lay hands on them, or attempt to refasten their irons. The sheriff, however, manifested a resolute spirit, drew a revolver, and declared that he would shoot the first man who refused to deliver himself up; and the whole four were thus secured.

National Monument
TO THE PILGRIM FATHERS,
TO BE ERECTED
AT PLYMOUTH, MASS.

THE Pilgrim Society, of Plymouth, having decided to erect a Monument at Plymouth, to commemorate the virtues of our "Forefathers," desire to announce to the American people, that they have accepted a design presented by the undersigned, and respectfully request all who cherish the memory of those who laid the foundations of the Civil and Religious Liberties of our Country, to aid by contribution in the erection of said Monument.

JOHN CHRISTIE, Esq., of Portsmouth, is duly authorized to collect subscriptions for this object, in New Hampshire.

HAMMAT BILLINGS, Architect,
n25 8½ Tremont Row, Boston.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 61 Hanover St., Boston. au8*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuT&hS 6m.

MARRIED.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed*. It eradicates and cleanses away whatever clogs and thickens the blood.

ARNOLD'S VITAL FLUID
Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID
Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *ameliorates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID
Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases
Resulting from Poisons in the Blood,
that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID*
are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

LOCAL.

MUSICAL CONVENTION.—The third annual Convention of the Rockingham County Musical Association, will be held in Portsmouth, commencing on Tuesday Jan. 8th, and to continue through three or four days, as circumstances may render desirable.—Prof. Baker will conduct the exercises, as heretofore—and this will undoubtedly be the largest musical gathering ever held in this vicinity.

SPENCER'S UNITED STATES.—The distributing agent is now in this city, for the purpose of furnishing his large list of subscribers in this vicinity, with No. 18 of the great History of the United States, which we have before noticed. This number contains, as frontespicce, a very fine steel portrait of John C. Fremont, which alone will be worth the 25 cts. asked for the book, to many.

NIGHT EATING,

THE GREAT ERROR OF THE AGE.—The Phrenological Journal, for November, has an article under the above title, which is richly worth a year's subscription. We extract:

We know of nothing more destructive to health, if we except the free use of alcoholic beverages and tobacco, than the habit of eating late at night.

In New York, and all other large cities, there may be seen a throng at all the saloons, from the gorgeous palace to the low, dirty, oyster and whiskey cellar. These are visited by all grades, from the top to the bottom of society.

We notice droves of ladies and gentlemen rushing from the opera, the concert, and the theatre, to the soda-fountains, the ice-cream and other refreshment saloons, at 10, 11, and 12 o'clock at night. Here they gorge themselves with the richest of viands; and in this condition retire to rest.

Steaks, oysters, and ice-creams, with other rich articles, are not easy of digestion, and no person can long continue such indulgence, without inducing dyspepsia and other diseases. This eating at night is akin to, and often accompanied by drinking; and, even when it exists separately, it is only a more respectable way of evincing intemperance.

If the grog shops and luxurious eating-saloons of the cities were not patronized at night, after the proper time for taking nourishment, eight-tenths of them would be obliged to close.

This is a generation of gluttons and winebibbers. We have no doubt that liquors, tobacco, and the costly, deleterious articles, and those which are only bad when taken at improper times, cost the city of New York, and all other cities, more than all the food which nature demands.

The taking of food after the proper time at night, is most deleterious; no matter if the food taken be, in itself, healthful and proper. The stomach needs rest as well as the brain, the nerves and the muscles; and during the hours allotted to sleep, this organ should be allowed to rest also. If the food be taken on retiring, a certain amount of nervous energy must be devoted to digestion, and the blood must flow freely to the stomach, or there will be very imperfect digestion. If the nervous system be thus taxed to carry on this process, it is evident that sleep must be imperfect, and consequently the entire system will not only be unrefreshed, but a feverish condition or diseased state will be induced. If, however, as is more commonly the case, the disposition of nature to sleep, and not to work all night at digesting a mass of almost indigestible matter shall prevail, then the entire digestive apparatus becomes diseased, and the consequence is dyspepsia with all its untold evils. The whole system, not being nourished through healthy digestion, runs down rapidly, or becomes generally diseased.

We appeal to parents, and to sensible young people, to discountenance this habit of late eating and drinking, as they value all that is related to health and happiness.

EFFECTS.—A matter is fairly judged by its *effects*, amd upon this basis Arnold's Chemical Medecines are valuable additions to all previous means of curing many obstinate complaints and diseases, and cases of "*invalidism*" arising from causes that have hitherto baffled every attempt to remove them. These causes are often *humors* and the seeds of humors. The Globules and Vital Fluid *neutralize* the humor poisons and remove the humors already existing in the blood, by a chemical and united action. They also *supply* to the blood, which is weakened by these humors and seeds of humor, the elements needed to make it again the vigorous and vital source of health and strength which Nature meant it to be.—*Boston Herald.*

TRIESTE.—A correspondent of the New York Commercial Advertiser, thus speaks of this place:

Trieste is, as you know, a modern commercial town, where people of all nations have gathered for purpose of trade. Mohammedans and Christians, Jews, Pagans and Infidels, Turks and Greeks, Albanians, Montenegrins, Persians, Egyptians, Hindoos, Hebrews from Syria, Wallachs, Moldavians, Germans, Hungarians, Dalmatians, Croats, Sclaves, English, French, Spaniards, Italians—who wear the costumes, preserve the habits and manners, and speak the thousand and one dialects, of their respective nationalities. You can imagine what a Babel high 'Change must be, when this "confusion worse confounded" is fairly in motion. But there is not much society; and sugar, coffee, cotton and rags form the staple in conversation.

The place, however, has its advantages, and I dare say some persons find it a very agreeable residence.

AN UNFORTUNATE AFFAIR.—A very unfortunate affair lately transpired in Taunton, the particulars of which, we learn, are as follows: On Saturday evening, Oct. 25, Mr. Henry Field, an elderly gentleman, who resides in Bow street, not far from the Universalist church, was passing along the street near his house, when he met an Irish man and a lad leading a drunken man between them. As Mr. Field passed, one of the men made some insulting remark, and he turned round and asked if that was meant for him. One of the men, who proved to be Simeon Halleran, replied "yes," and immediately rushed upon Mr. Field, thew him down, and upon his rising knocked him down again. While down, Field managed to get out his pocket knife, and when he got upon feet again flourished it to and fro to keep off his assailant.

During the melee, Halleran was stabbed in the side, and his person and clothing were cut in a number of places. He soon after applied to a physician to dress his wounds, but he was so much intoxicated that nothing was done for him at the time. Subsequently it was ascertained that the wound in his side was a serious one, and Field was arrested. The examination, however, was postponed on account of Halleran being unable to be present. The wounded man lingered until Saturday evening, 8th inst., when he died from the effects of his injuries, as alleged by his physicians. His dying testimony was taken, in which, as we understand, he attached no blame to Mr. Field, and during his illness told several of his friends that Mr. Field acted wholly in his own defence. The case will be legally inquired into, and probably will come before the Grand Jury at its next session.—*N. B. Standard.*

THE PRESIDENT'S MESSAGE.—[Correspondence of the Courier and Enquirer.]—*Washington, Friday Night.*—The President's Message is said to be nearly completed.—I understand that the President claims Mr. Buchanan's election as an endorsement of his administration.

WASHINGTON, Nov. 21st—[Herald Correspondence.]—The President, I am informed to-day, will adopt the same plan with reference to the disposition of his message, that he has on previous occasions, that is, send it to various cities, to be delivered to the newspapers the momeut its reading is commenced.

HORSE STEALING.—The horse of Charles T. Parker, with a harness, was stolen from his stable in Rochester, on Thursday night last, and on the same night the wagon of Joseph Otis, living 3-4 of a mile distant, was stolen. The property was found the next morning (Friday) in a pasture in Exeter, where the horse had been unharnessed and turned out.—*Dover Enquirer.*

THE LATE REV. DAVID H. WHEELER.—It will be remembered that among the slain at Granada, during the late attack by the troops under Gen. Walker, was the Rev. D. H. Wheeler, the agent of the American Bible Society. Among his papers was found the copy of a letter that Mr. Wheeler had recently sent to the Rev. Dr. Brigham, the senior Secretary of the American Bible Society. It is as follows:

Granada, Oct. 3, 1846.

To-day I took my books and went around and sold only one Testament. Many said they had no money, and others said they would purchase after the "combat" was over. We are looking for the enemy every day, full 3000 strong, with some good officers, and some very good soldiers. To this force Gen. Walker can oppose 1000 fighting men, together with what he may receive from California and New York, which may be 300 men. At present the enemy are strongly tortified at Massaya, twelve miles distant. Gen. Walker is preparing to receive them, and there will be some hard fighting but the Americans feel very confident of success. Perhaps prudence would have dictated that I should have left here on the eve of a battle, such as is expected every hour; but I came when there was no enemy near, and none expected, and my work is here, and there will be many wounded and dying to care for, and I can do some good certainly. True, I may be among the slain, for these men have threatened a war of extermination against all Americans, and if they should be victorious they will do as they have said. If I should perish, do the best you can for my family, as they are poor, and will need all that can be afforded them. Should the enemy come and sack the city, I shall leave my books posted, and money and effects in the hands of Col. John H. Wheeler, the American Minister. For reasons I need not name, the American flag will afford very little protection to American citizens here.

Yours truly, DAVID H. WHEELER.

J. C. Brigham, Corresponding Secretary American Bible Society.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

HAVE YOU SUBSCRIBED IN THE

Cosmopolitan Art Association
FOR THE THIRD YEAR?

SEE THE RARE INDUCEMENTS!—The management have the pleasure of announcing that the collection of Works of Art designed for distribution among the subscribers, whose names are received previous to the 28th of January, '57, is much larger and more costly than on any previous year—Among the leading works in Sculpture—executed in the finest Marble—is the new and beautiful Statue of the

"Wood Nymph,"

the Busts of the three great American Statesmen,
CLAY, WEBSTER AND CALHOUN,
Also the exquisite Ideal Bust,
"Spring."
APOLLO AND DIANA.
IN MARBLE, LIFE SIZE.

Together with the following Groups and Statues in Carrara Marble—of the
Struggle for the Heart; Psyche;
Venus and Apple; Magdalen;
Child of the Sea; Innocence;
Captive Bird; and Little Truant.
With numerous works in Bronze, and a collection of several hundred
FINE OIL PAINTINGS,
by leading Artists.

The whole of which are to be distributed or allotted among the subscribers whose names are received previous to the **Twenty-eighth of January, '57,** when the distribution will take place.

TERMS OF SUBSCRIPTION.

Every subscriber of *three dollars* is entitled to a copy of the splendid Steel Engraving, "Saturday night," or of
any of the following $3 Magazines one year; also a copy of the Art Journal one year, and a ticket in the Annual Distribution of Works of Art.
Thus, for every $3 paid, a person not only gets a beautiful Engraving or Magazine one year, but also receives the Art Journal one year, and a ticket in the Annual Distribution, making four dollars worth of reading matter besides the ticket, by which a valuable painting or piece of statuary may be received in addition
Those who prefer magazines to the engraving, can have either Harper's, United States, Knickerbocker, Graham's or Blackwood's Magazine, Godey's Lady's Book or the Southern Literary Messenger one year
No person is restricted to a single share. Those taking five memberships, remitting $15, are entitled to six engravings, and to six tickets in the distribution, or any five of the Magazines a year, and six tickets.
Persons, in remitting funds for membership, will please register the letter at the Post Office, to prevent loss; on receipt of which, a certificate of Membership, together with the Engraving or Magazine desired, will be forwarded to any part of the country.
For further particulars, see the November Art Journal, sent free on application.
For membership, address
C. L. DERBY, Actuary C. A. A.,
348 Broadway, New York, or Western Office, 163 Water street, Sandusky, Ohio.

Rich Furniture,
AND NEW STYLES.

OWING to the liberal encouragement and constantly increasing patronage, the subscriber announces to his friends and the public that he has enlarged his Stock of ELEGANT FURNITURE, and has added to his Ware Rooms, the Chambers recently occupied by Messrs. Barton & Cobb, next store west of his old rooms.
Being determined to satisfy all those who may please to call on him, he has employed one of the best CARVERS from Boston, to enable him to manufacture the best styles of FRENCH FURNITURE, of Rosewood, Black Walnut and Mahogany, (that cannot be easily outdone,) for less than Boston prices.
Those who call at his place of business will find Rosewood, Black Walnut, and Mahogany Marble top CENTRE TABLES, from $16 to $40.
Also a great variety of all other articles, such as SOFAS, Large EASY CHAIRS, Ladies' Sewing do., &c.
10 elegant CHAMBER SETS, new style; Mahogany and Black Walnut WHATNOTS; CARD TABLES, &c.
Eight dozen Mahogany, Black Walnut and Rosewood Stuffed CHAIRS, from $2.50 to $8, covered with Plush, Damask and Hair Cloth.
All kinds of common Furniture, such as Cottage Bedsteads, Tables, Cane Seat and Back Chairs, with and without rockers; Gilt, Rosewood, Mahogany and Black Walnut frame LOOKING GLASSES, and a great variety of all common and useful articles.
SAMUEL M. DOCKUM,
Oct. 21. 18½ Daniel Street.

Job and Card Printing.

HAVING recently much increased our facilities for the execution of Job and Card Printing in all its varieties, promptly, and in good style, and being ready to furnish our office still further with the new styles of type and the improvements in this branch of the business, as occasion may render desirable—we would respectfully solicit orders in this line, from our friends and the public, in the city or elsewhere.
In order to devote more attention to this branch of our business, we have engaged the services of Mr. WM. H. FOSTER, the well-known, experienced and tasteful Job Printer, who will have charge of the Job and Card Department; and will run
FOSTER'S CARD PRESS
in a manner that cannot fail to suit gentlemen or ladies who may favor us with their patronage.
Orders by mail or express, promptly answered. Prices to suit the times.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of Utica, N.Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should willingly pay twenty-five dollars for a bottle than do without it, if I could not get any other remedy."

Croup, Whooping Cough, Influenza.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTREAT, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem your skill, for she has suffered much that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well."

Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best living chemists in the world, and its cures all around us speak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they are unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Mortal Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Liverous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with something else. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best and there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass
PRICE 25 CTS. PER BOX — FIVE BOXES FOR $1.

Applications for Insurance received by
JACOB WENDELL.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance of Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average yearly assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than ¼ of 1 per cent. annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1 10 of 1 per cent. on the amount insured. In the 3d, or Union Class from Oct. 1848 to Jan 1856, the yearly average of assessments has been less than 1-3 of 1 per cent. on the amount insured.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 13,000 AND 10,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Sub Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Heretofore, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co could realise a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINE EEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

New York, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an Instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN ROSEWOOD CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	90
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	130

IN WALNUT CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,

Chickering's Piano Fortes.

Boston, Oct 1856.

WE have appointed JOHN S. HARVEY & SON *sole Agents* for the sale of our Piano Fortes for Portsmouth and vicinity, and have made arrangements with them to supply our Instruments on the same terms as can be purchased at our Sales Rooms.

CHICKERING & SONS.

WE have now on hand and are constantly receiving the above Instruments, and shall take great pleasure in exhibiting them to all who favor us with a call. The world-wide renown and celebrity of these Piano Fortes and the acknowledged superiority of the makers over all competitors are too well known to need comment.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ Any machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc.

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains nor expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of generous enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Sole Agents for the United States and Canada, I. C. BALLWIN & CO., Rochester, N.Y.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throu h him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Boston, Jan 11 1856 d1eodtf

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoans. Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Boston, Aug. 19, 1856. eo6m

Shipping and Commission

MERCHANTS,

MOBILE, Alabama.

H. O. BREWER. A. J. NEREDHOLL } o.1... om

Morning Chronicle.

WEDNESDAY, NOVEMBER 26, 1856.

☞ The Manchester Mirror states that "Gilman Marston of Exeter, is talked of as candidate for Representative to Congress, in place of Elder Pike, in the third District. He is eminently fit for the place and deserves the position." We hear nothing of any such talk; we know nothing of any disposition to change the nominee, this way; and have no doubt Mr. Pike is much stronger and more popular with his constituents than ever before.—It has not been the fashion in the State of New Hampshire to change a successful candidate at the end of his first term:—we see nothing in Mr. Pike's case or that of the First District, which calls for any change at present; and presume none will be made.

☞ The Unitarian Society in Cincinnati have unanimously invited the Rev. Mr. Conway, late of Washington, D. C., to become their pastor. This gentleman was ousted from his pulpit in Washington, because, though a Virginian, he preached in favor of freedom. He is now offered a far better place.

Mr. Tyng, the Episcopal minister in New York, who is to be served in the same way, and "served right," will probably be ousted out of that place into a better one, for the same crime. Well, justice will at last overtake the wicked freedom shrickers.

MUNICIPAL ELECTION IN DOVER.—The charter of Dover was amended at the last session of the Legislature, so that the election of City Officers takes place in the fall. In accordance with this new law, the election was held on Tuesday, the 25th inst.—The vote for Mayor was declared as follows:

	Wards, 1st	*2d*	*3d*	*4th*	*Tot.*
T. E. Sawyer, rep.	90	196	218	90	594
T. Stackpole, dem.	71	221	209	89	590
Scattering,	1	57	43	5	106

The Republican ticket for members of City Council and Ward Officers, prevailed in Wards 1, 3, and 4. In Ward 2 a portion of the Republican ticket was defeated. A second ballot will be held to day, to fill vacancies.

☞ The friends of Mr. Buchanan in West Concord, undertook to make manifest their joy by the foolish way of firing cannon, last Friday evening. About half past 8 o'clock, the gun burst, and so wounded Mr. Arthur Kimball, that he died next morning. He was about 28 years of age, a native of Weare; a quiet and industrious man. He leaves a wife and two children.

☞ The democracy of Milford, celebrated the election of Buchanan and Breckinridge, last Saturday, by the firing of a national salute of 100 guns, the ringing of bells, and speaking under the flag.—The hudredth gun was heavily charged, which caused it to burst, but fortunately no one was injured.

A BLAZE OF GLORY.—The Saco Democrat states that during the march of the Democratic procession in Biddeford, on Monday evening of last week, the wagon which contained the fireworks intended to be let off at intervals on the route, took fire, and was destroyed, together with its contents.

☞ At the Rhode Island Institute of Instruction, in session during the past week, at Providence, R. I., more three hundred teachers were present, listening to the lectures and taking part in the exercises.

A lecture was delivered by the Rev. R. S. Rust, now of Great Falls. His subject was, A Glance at the Intellect. The Providence Post says it was well written and well delivered.

☞ An exchange has discovered that Schottische is a corruption of the words "Scotch itch," and that the famous dance owes its name to the resemblance of its motions to those of a person afflicted with the Scotch plague aforesaid.

IMPORTANT DISCOVERY.—Before the Municipal Court of Boston, on Wednesday, in the case of Albert J. Tirrell, convicted some months since of obtaining money by the game of three card monte, evidence was introduced to show that he had reformed his habits; and the same deposition was made in the case of Watson, alias "Gov. Dorr," the indictment to be laid on file, and called up on future conviction.—*Trans.*

These two scoundrels thus go unwhipt of *justice* for the present—and their release is positive *injustice* to the public.

The judge should have had a second sober thought.

MONUMENT TO THE PILGRIMS.

The following description of the proposed Monument to the Pilgrims, to be erected at Plymouth, Mass., was prepared for the Pilgrim Memorial, by Hammatt Billings, Esq., designer and architect. Measures are now in operation to execute the work; and in this part of New Hampshire, John Christie, Esq., is the agent for procuring and collecting memberships and subscriptions.

The National Monument to the Forefathers, which is just about to be commenced under the auspices of the Pilgrim Society, is intended to be the grandest work of the kind in the world. Raised in commemoration of the great starting-point in our history, it is the idea to make it, as far as possible, worthy of the great event which it will record.

In size it will be the greatest of modern works, and only equalled by those vast monuments of Egyptian power and grandeur which remain to us, the most wonderful triumphs of mere mechanical power.—It is to be built of massive blocks of granite, and will be eighty feet at the base, and a little over one hundred and fifty feet high. The plan of the principal pedestal is an octagon, with four small and four large faces; from the small faces project four buttresses or wing pedestals. On the main pedestal stands a figure of Faith. One foot rests upon the Forefather's Rock; in her left hand she holds an open Bible;—with the right uplifted she points to heaven. Looking downward, as to those she is addressing, she seems to call them to trust in a higher power. This figure is to be of granite, and will be seventy feet high.

On each of the four smaller or wing pedestals is a seated figure; they are emblematic of the principles upon which the Pilgrims proposed to found their Commonwealth. The first of these is Morality.—She holds the Decalogue in her left, and the scroll of Revelation in her right hand; her look is upwards towards the impersonation of the Spirit of Religion above. In a niche, on one side of her throne, is a Prophet, and in the other one of the Evangelists. The second of these figures is Law. On one side of his seat is Justice; on the other Mercy. The third is Education. In the niche, on one side of her seat, is Wisdom, ripe with years; on the other Youth led by Experience. The fourth figure is Freedom. On one side Peace rests under his protection; on the other Tyranny is overthrown by his prowess. Upon the faces of these projecting pedestals are alto-reliefs representing scenes from the history of the Pilgrims. The first is the departure from Delfthaven; the second the signing of the social compact; the third, the landing at Plymouth; the fourth, the first treaty with the Indians. These reliefs are to be in marble, as susceptible of greater delicacy of treatment. The four figures on these pedestals are to be of granite, each thirty-four feet high. The figures in the panels eight feet.

On each of the four large faces of the main pedestal is to be a panel for records. That in front will contain the names of all who came over in the Mayflower; behind, the events of the voyage. On one side, the events previous to the sailing from Delfthaven; on the other, early events of the colony. Below these are to be smaller panels, to contain the dedication of the monument, names of officers of the Pilgrim Society, etc., and such other records as may be considered of sufficient importance.

Within the monument will be a chamber of twenty six feet in diameter, with a stone stair leading up to the platform, upon which stands the principal figure.—From this platform, which will be over eighty feet above the entrance at the ground, all the principal localities in the early history of the colony of Plymouth may be seen almost at a glance. The anchorage-ground of the Mayflower, the location of the Rock where the first Pilgrims landed, Captain's Hill, at Duxbury, etc., etc.

Around the monument, a space of nine acres, making a fine square, is to be kept open forever.

Every person contributing 25 cents to the Monument Fund, will receive a view of the Monument.

Every contributor of $1 will receive a steel plate certificate.

Every contributor of $5 and over will receive an elegant steel plate Engraving of the Monument, and become a life member of the Pilgrim Society.

Every contributor of $50 will receive in addition to the print, a beautiful Bronze Medal.

Every contributor of $100 will receive a Bronze Statuette 20 inches high, being an exact model of the Monument in miniature.

Every contributor of $500 will receive a Statuette 30 inches high, in Bronze and Silver.

Every contributor of $1000 will receive a splendid Statuette 36 inches high.

COLLECTOR PEASLEE.—The Lowell Courier gives a rumor that Mr. Peaslee, of the Boston Custom House, will retire as soon as Mr, Buchanan comes in. So will various other office-holders, we guess.

Mr. W. V. Tuxbury of Amesbury, discovered, a few nights since, under his bed, a man holding in his hand a large knife and by his side a basin of water. He succeeded in making his escape; but not, however, till he was recognized. His name is Geo. W. Christian. A reward has been offered.

7 DAYS LATER FROM EUROPE.

ARRIVAL OF THE PERSIA.

SANDY HOOK, Nov. 25.—The steamship Persia is now going up the Bay. She left Liverpool on the morning of the 15th inst., at 7 o'clock.

There was a severe gale at Liverpool on the 12th inst., doing much damage to the shipping. Ships Silas Wright and Samuel Fox, of New York, and the Louisiana, for New Orleans, while being towed to sea, were driven ashore on the Middle Banks.

The English Money Market was decidedly more stringent, and the rates of the Bank of England had been advanced to 7 per cent. The bullion in the Bank had decreased £66,000, and that in the Bank of France had decreased full 3,000,000 francs during the month.

Leopold Redpath, registrar of shares in the Great Northern Railroad, England, has proved a defaulter in the sum of £150,000. He has absconded.

Liverpool Breadstuffs Market, Nov. 4.—Breadstuffs are inactive, and slightly cheaper. The weather is favorable for the crops.

TEMPERANCE MEETINGS IN BALLARDVALE, ANDOVER, MASS.—Two temperance meetings have been held at Ballardvale, one on Saturday evening, and the other on Sunday evening last. Mr. Thompson spoke at both meetings. A vote was taken on Sunday evening, the whole congregation rising, that a new temperance society be organized at once. One hundred fifteen signed the pledge. A committee was appointed to report an organization for the new society. Three or four prosecutions have been commenced against the three or four rum shops in the place.

On Wednesday evening last, Mr. Thompson spoke at the Methodist Church, Graves End, Lynn, and eighty-five signed the pledge.—*Telegraph.*

CHICAGO, Nov. 24.—*Destructive Gales, &c.*,—A heavy gale of wind swept over this city last evening, doing great damage. The steeple of the new Universalist church was demolished. Three new five-story brick buildings were thrown down, and several yards damaged. Loss $30,000.

The upper Mississipi, above Lake Pepin, is closed by ice.

NEW YORK, Nov. 24.—*Marine Disaster.* The schooner Susan, Capt. Bragg, came up this morning from the bark Genesee (of Brunswick) from Antwerp, ashore on Little Egg Harbor. She brought up 200 passengers, with their baggage, all in good health. Capt. Bragg reports the vessel as lying head to northward on the bar, and has 8 feet of water in her hold.

It was reported that Patrick Burke was killed on the railroad at Tarrytown. His wife recognized the body, had it handsomely coffined and waked, and was following it to Calvary Cemetery, New York city, when the live Patrick himself met the funeral—and the corpse was sent to the dead house for recognition.

Another abortive negro insurrection has been discovered in Levacca county, Texas, and it is said to have extended to the slaves of Victoria and DeWitt counties. The negroes had killed off all the dogs, and were preparing for a general attack.

The records of loss of life by wrecks on the lakes the present year already count up 267 victims, accompanied with very great losses of property. In 1854 and 1855 the losses on the lakes were nearly five millions of dollars.

CINCINNATI, Nov. 24.—*Vote of Ohio*—The following is the official vote for President:—Fremont 187,497: Buchanan 170,874; Fillmore 28,125; Gerrit Smith 156.

NEWBURG, Nov. 24.—*Trial of Lewis Baker.*—The new trial of Lewis Baker, for the murder of Wm. Poole, commenced to-day, Judge Peabody presiding.

National Monument
TO THE PILGRIM FATHERS,
TO BE ERECTED
AT PLYMOUTH, MASS.

THE Pilgrim Society, of Plymouth, having decided to erect a Monument at Plymouth, to commemorate the virtues of our "Forefathers," desire to announce to the American people, that they have accepted a design presented by the undersigned, and respectfully request all who cherish the memory of those who laid the foundations of the Civil and Religious Liberties of our Country, to aid by contribution in the erection of said Monument.

JOHN CHRISTIE, Esq., of Portsmouth, is duly authorized to collect subscriptions for this object, in New Hampshire.

HAMMATT BILLINGS, Architect,
n25 84 Tremont Row, Boston.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au5 6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine.*" and is for sale by all apothecaries. n27 TuTh&S 6m.

Arnold's Vital Fluid

PURIFIES and trengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away wha ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood,

that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

LOCAL.

For the Chronicle.

THE NEW CUSTOM HOUSE, &c.

Messrs. Editors:—It is understood that the location of the United States Building, has been decided upon, by selecting the site occupied by the Rockingham Bank, and others. This decision on the part of the Secretary of the Treasury, has been marked by great judgment and much deliberation. —Not only was all the time asked for, granted; but Mr. Young, from Washington, (a gentleman every way qualified to come to a judicious decision,) came here, purposely, and viewed the different lots offered, before the question was acted on.

The lot selected will meet with the general approbation of our citizens, though there always some few persons ever ready to find fault with any undertaking, and a few other interested parties who of course would not be satisfied unless their own particular lots were taken.

I think the proposed lot has some advantages over the Market lot. The building certainly will be seen to much better advantage on the corner, than if jammed in between high buildings, besides being better lighted; and having a street on every side, will furnish facilities for receiving and delivering the mails, together with affording different avenues of convenient approach on all sides, which the Market lot could not be made to give.

The fallacious reasoning of the star (*) writer in the Journal, that the city would lose the tax on much valuable property, if the proposed lot was taken, needs but a single remark; as it must be evident that the imagined loss of tax on the property needed in connection with the market lot, together with the lot the City would require for a new City Hall, would amount to as much as the lot selected is taxed for. But there probably will not be any loss to the city in this particular, as the additional value given to property in the neighborhood of the new building, will compensate for any lots taken by Government.

As to the price fixed for the Market lot, does the writer referred to above, think the members of our City Government are mere children? that after having selected a committee of five competent men, who gave the subject due deliberation, they should at his suggestion alter their decision? It would seem too trifling to be seriously entertained. There are many of our citizens who would not be willing to part with the Market lot for a less price than has already been fixed for it. There are also matters connected with the title of this lot, which to say the least, it would be very difficult to overcome, unless the U. S. Government is less particular about contingencies than any individual would be. R.

OUR NEW POST OFFICE BUILDING.—At last, there seems reason to believe that the U. S. Secretary of the Treasury, at Washington, has decided to locate the new United States building on the square now occupied by the Rockingham Bank, Mr. Cotton's store, and the Piscataqua House. At any rate, a letter from Mr. Guthrie to the gentleman in this city who tendered this lot, would seem to indicate this too plainly to admit of a doubt.

Well, since we cannot have our first choice in the matter—which all our readers know was the old Jefferson Market lot—and in desiring which most of them joined with us—let us see how this lot selected is going to suit us all. The buildings to be removed are too good to be taken down—and we should prefer to have some of the old wrecks about town removed instead. But the new building will certainly show to good advantage here, and will be conveniently accessible to all.

It is rumored that Mr. Leonard Cotton has bought the fine lot on the south-westerly corner of State and Pleasant streets—and will erect a store in the place of the wretched old firetraps of buildings there, which, it seems to us, our Firewards or Board of Engineers ought to have complained of long ago.

A shrewd and competent business man, who thinks the City Government did right not to offer the Market lot cheaper than $17,000; is in favor of the City's buying the adjoining property which has been talked of to go with the Market lot for the Custom House grounds—and have it in reserve for a location for a new City Building, including Hall, &c. We deem this a good idea. The old Market site is *the* one for a City Building, (as we deemed it for the Post Office,) and our City fathers were right in asking a good price for it.

☞ The Exeter News-Letter states that Mr. Joseph S. Robinson, the well known carriage builder of Exeter, was much injured by being thrown from his wagon, in Portsmouth, a few days since. The accident was caused by the breaking of an iron bolt.

ROCKINGHAM CO. MUSICAL ASSOC.

THIRD ANNUAL CONVENTION.

The third annual Convention of the Rockingham County Musical Association, is to be held in Portsmouth, under direction of Prof. B. F. Baker, of Boston; commencing on Tuesday morning, Jan. 6th, 1857; to continue through three or four days and evenings, as may then be deemed advisable—and to close with at least one public concert.

The two gatherings of the sort which have been held here, have proved occasions of much interest and enjoyment, as well as improvement in musical matters; and of course all who have an interest in music, will avail themselves of these advantages.—The Convention last year numbered two hundred members; and probably the one now announced will be much larger.

Below we publish the Constitution of the Association, with the list of Officers for the ensuing year.

CONSTITUTION.

Article 1. This Association shall be called the Rockingham County Musical Association, whose object shall be the cultivation of Sacred and Secular Music, both instrumental and vocal.

Article 2. Any Gentleman may be a member of this Association by paying annually the sum of *one dollar*; and any Lady may be a member by paying annually *fifty cents*. The Association may also admit, by major vote, any person as an *honorary* member. And all clergymen in Rockingham County, shall be honorary members.

Article 3. The officers of this Association shall be, a President, Vice President, Secretary, Treasurer, and an Executive Committee, who together shall constitute a Board of Directors. The Executive Committee shall at present consist of ten, but may be hereafter increased or diminished by a vote of this Association at any annual meeting.

Article 4. It shall be the duty of the President to preside at all business meetings of the Association or Board of Directors; he shall direct all musical performances, either in person or by substitution; and in case of absence the Vice President shall act in his stead.

Article 5. The Secretary shall keep a record of all the transactions of the Association and Board of Directors.

Article 6.—The Treasurer shall receive all moneys and pay them out under the direction and by the order of the President, and his accounts as well as the records of the Secretary shall always be open to the inspection of the President and Executive Committee.

Article 7.—It shall be the duty of each member of the Executive Committee to use his influence for the promotion of the objects and interests of the Association.

Article 8.—The Association shall meet annually in the month of January, for the choice of officers, and for practice in music, (and at other times when in the opinion of the Directors it may be advisable,) at such place as the Directors may determine.

Article 9.—This constitution may be altered or amended at any annual meeting, provided however that notice of any proposed amendment or alteration be published in the call of said meeting.

President.—John Christie, Portsmouth.
Vice President.—Amos Pearson, Portsmouth.
Secretary and Treasurer.—Frank W. Miller, Ports.

Executive Committee.

John P. Payson, Edmund M. Brown, Wingate N. Illsley, } *Portsmouth*,
John T. Gordon, J. Henry Folsom, J. S. Robinson, } *Exeter*,
Eben'r Joy, *New Market*,
A. K. Poor, *Raymond*,
Joshua P. Drake, *North Hampton*,
T. B. Bartlett, *Nottingham*,
Albion Parsons, *Rye*.

ANOTHER FIRE. — Soon after midnight on Tuesday, an alarm of fire was sounded in our streets; which was caused by the burning of the one-story wooden dwelling, No. 20 Dennett Street, on Christian Shore, formerly known as the "Old Glue House;" which was almost entirely consumed, together with the barn attached to and in the rear of the house—and most the contents of both. The premises were occupied by Mr. Wm. Pettigrew, a tanner;—who, with Mr. Mark Dennett of Kittery, owned the property. The loss is probably $400 or $500, on which there is said to be no insurance.

The fire was discovered by a neighbor living opposite, in season to save some of the furniture, &c. It was undoubtedly the work of an incendiary, who set fire to the easterly end of the barn, farthest from the house.

An unrecognized man, apparently about forty years old, with dark complexion and hair, and of small stature; said to have been found lying under a fence near, watching the fire when it first broke out, was arrested on suspicion of being an incendiary, by three or four young men living near, and taken to the lock-up.

☞ Three young men, strangers here, and said to belong in Dover, were arrested in this city on Tuesday evening, charged with stealing boots, etc. from J. C. Carr's store, and clothing from other stores.

☞ A full attendance of the members of the Young Men's Christian Association is earnestly requested at the meeting of the Association this evening, at Washington Hall, at 7 1-2 o'clock.

LAUNCH.—Another splendid ship, of about 1200 tons, will be launched from the yard of Mr. John Yeaton, at the Island on the eastern side of the river, this (Wednesday) forenoon, at 11 o'clock. She is not yet named, and we understand is for sale.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

The Mustang Liniment cures Rheumatism;
The Mustang Liniment cures Stiff Joints;
The Mustang Liniment cures Burns & Wounds;
The Mustang Liniment cures Sores & Ulcers;
The Mustang Liniment cures Caked Breasts & Sore Nipples;
The Mustang Liniment cures Neuralgia;
The Mustang Liniment cures Corns & Warts;
The Mustang Liniment is worth

1,000,000 DOLLARS PER ANNUM

To the United States, as the preserver and restorer of valuable Horses and Cattle. It cures all Sprains, Galls, Wounds, Stiff Joints, &c.

Will you answer this question? Did you ever hear of any ordinary Sore, Swelling, Sprain or Stiffness, either on man or beast, which the Mustang Liniment would not cure? Did you ever visit any respectable druggist in any part of the world—in Europe, Asia, or America—who did not say "it was the greatest discovery of the age." Sold everywhere. Every family should have it; 3 sizes.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BENNFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of those complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTREAT, IL., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me indoors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MACHESTER, PA., Feb. 8, 1856.
SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the past forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Scarce no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has improved from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of BELLEVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness to the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills,

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they will unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel diseases. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

Having received the Agency of this strong and reliable Company—one of the best in the United States, we are prepared to insure against loss or damage by Fire, on Buildings, Stores, Shops, Churches, Houses, Furniture, Goods and Merchandise, at equitable rates. Policies issued by
J. S. HARVEY & SON, *Agents.*
7 Exchange Buildings, Portsmouth.

Hartford Fire Insurance Co.

HARTFORD, CONN.
INCORPORATED IN 1810.
Capital $300,000—all paid in and invested.

THIS long established and well known Institution, has transacted a most extensive insurance business for more than forty years, throughout the United States and the British North American Provinces. It has aimed to secure public confidence, by an honorable and faithful fulfilment of its contracts; and payment of property are assured that all fair claims for loss under its policies will be liberally adjusted and promptly paid. Public Buildings, Manufactories, Mills, Machinery, Dwelling Houses, Stores, Merchandise, Household Furniture, Vessels on the Stocks or while in port, &c., will be insured as low as the risk will admit. The following gentlemen constitute the

Board of Directors.

H. Huntington, Charles Boswell, Job Allyn,
Albert Day, Henry Kenney, John P. Brace,
James Goodwin, Calvin Day, Chas. J. Russ.
C. B. Bowers, *Sec.* H. Huntington, *Pres.*
JOHN SISE, Agent.

Howard Fire Insurance Co.

OF LOWELL, MASS.
CAPITAL, $106,100.
J. W. DANIELS, Sec'y. NATHAN ALLEN, Pres.

INSURES against loss or damage by Fire on Stocks of Goods, Stores, Dwelling Houses, Furniture and other property upon as favorable terms as other sound companies, not exceeding five thousand dollars on one risk.

Marine Insurance.

THE subscriber is authorized to receive applications for Marine Insurance in one of the first Boston Offices, on Vessels, Cargoes, and Freights, by special or open policies not exceeding $15,000 in any one risk.
JOHN SISE, Insurance Agent.
5 Market Square, Portsmouth, N.H.

City Fire Insurance Co.

With a Capital of
$150,000.
All paid in and invested,

INSURE against hazards by Fire, on Buildings, Merchandize, Household Furniture, and other property, not exceeding fifteen thousand dollars on one risk.

DIRECTORS.

S. P. Heywood, Abraham T. Lowe,
James Cheever, David Kimball,

Office, No. 55 State street, Boston.
Applications for Insurance received by
JACOB WENDELL.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance of Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average yearly assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than ¾ of 1 per cent. annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1 10 of 1 per cent. on the amount insured. In the 3d, or Union Class, from Oct. 1846 to Jan 1856, the yearly average of assessments has been less than 1-3 of 1 per cent. on the amount insured.
H. F. WENDELL, Agent,
Office No. 70 State street.

Improved Windlass Lever.

PATENT APPLIED FOR.

A NEW improvement on the Windlass Lever, for use in ships or smaller craft, has just been erected by CHRISTOPHER AMAZEEN, of New Castle, and may be seen at Drake's Iron Foundry, Mechanic street, Portsmouth, N. H.—This Lever has been thoroughly tested and works well; and all interested are invited to examine as above. Orders directed to
CHRISTOPHER AMAZEEN,
New Castle, N. H.
will receive prompt attention.

STOVES! STOVES!

Frank Jones' Improved

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

The Stanley Coal Burner!

NOTWITHSTANDING this Stove has been in the market more than eight years, and that hundreds of new patterns have since its introduction been brought before the public, still (this, as a coal burner) stands pre-eminent. The subscriber has sold them for the past seven years, and the sales are annually increasing, and now has in Store the various sizes, which he offers at the usual price. G. N. CARLETON,
c28 15 Daniel street.

SOUSED TRIPE for Sale by
n23 LAFAYETTE LAIGHTON.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished, and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Doet. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	90
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	130

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,
cor. Niagara & Maryland sts., Buffalo,
and 87 Fulton street, New York.

Agents, for the sale of our Melodeons, for Portsmouth and vicinity,

n27 7 Exchange Buildings.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines are caught to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

The latest machine of the best improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle his patriotism at its spirit stirring narrative; and polish to exhibition of genius and skill, with those feelings of flenerous enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' numbers respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Sole Agents for the United States and Canada, I. C. BALDWIN & CO., Rochester, N.Y.
TUTTLE & MOORE, Auburn, N. Y., General Agents.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 70 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throu h him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Boston, Jan 11 1856 4teodly

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas. Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Alispice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	.90
5 lb. Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Boston, Aug. 19, 1856. oo6m

THURSDAY, NOVEMBER 27, 1856.

THANKSGIVING.

This day is the Annual Thanksgiving in New Hampshire and Massachusetts; appointed, according to the primitive usage in New England, on the last Thursday of November.

Governors of New England always take care to say, in their proclamations, that they appoint said day, not only because it is fit and proper for dependent beings to give thanks for the bounties and blessings of the year, but because it is a custom which originated with our revered forefathers, the first settlers of our country. This allusion to our ancestors is repeated from year to year, and their practice appears to be regarded as sufficient authority in the case. It would be well for us of the present day, if some other practices of these venerable men were remembered and followed by their descendants. Our fathers manifested their gratitude on the day of thanksgiving by a punctual attendance at their several places of public worship. On no occasion of the whole year, were there larger assemblages, both of young and old. It is not so now. Although our Governors, every year, recommend to the people the assembling of themselves for the purpose of expressing their religious joy and thankfulness, yet it has become, of late years, a subject of general remark that the places of worship are thinly attended

It is true we may be thankful at home or in the fields as well as in the church;—but, remarks the Exeter News Letter, when our hands are full and our hearts are glad, we are too apt to forget the divine source whence all our blessings flow, and thus those accumulated favors, which should inculcate love and obedience, impart rebellious ideas of independence.

When we meet to thank God for the abundance and blessings of the year, we cannot forget that disaster and death have come upon many a home. It is the duty of all who are blessed with means, to communicate for the relief of the distressed. Not that the indolent should eat out of the substance of the industrious. But charity and beneficence to the afflicted and unfortunate constitute one of the noblest blessings of Providence. There are offices in the power of all, of more importance than the communication of property. It is not *what* we give, but the disposition with which we give it, that determines the value of the act.

In consideration of the blessings conferred upon us, it becomes us to be hopeful and joyful and to partake of them with cheerfulness. A cheerful enjoyment of the gifts of heaven is itself a kind of thanksgiving for them. But in avoiding one extreme, we are to beware of falling into another. The excessive and improper indulgence of sensual appetites is inconsistent with the spirit of thankfulness.

As these annual periods of rejoicing are passing away, we are reminded of the lapse of time, of the mutation in our households, of the vacant chairs round the hearthstone, of the faces missing from the family group. One will not be here to-day: he is too far off, on the ocean, or in a distant country; and another and another have gone to

"That undiscovered country
From whose bourne no traveller returns."

Memory runs back from to-day to some thanksgiving day when the elder head of the family was a child, entertained and petted by parents and grand parents now gone the way of all the earth,—and then the mind reaches forward to the time when the youngest child now present shall be the old man or woman of the future party, looking back to this day, as we now look back over half a century.

And between these periods, like a cloud seen in the midst of the landscape, lies the prospect, yea the certainty, that not a few of us must pass away in the mean time from such scenes and from all scenes earthly and visible, to the state unseen, the residence invisible to the eye of sense. Not to another world, thank God; but to another province of the same kingdom, over which rules the King of Kings and Lord of Lords, in righteousness and goodness alike boundless and endless. In thankfulness, then, for earthly good things, let us keep the day—and in especial thankfulness for the life and immortality brought to light in the Gospel.

CHICAGO, NOV. 24.—We have Kansas dates to Wednesday last. The great land sale at Leavenworth was passing off quietly. About 2000 purchasers were in attendance, and bids were active, and ranging high. Leavenworth city property was changing hands in considerable quantity, and squatters generally were securing lots. Marshal Donalson had refused to re-arrest Haynes, the murderer of Buffum. Gov. Geary had suspended the Lecompton trials, which were to proceed before Judge Cato.

THE BURLINGAME BANQUET.

The Banquet to Hon. Anson Burlingame held on Monday evening, in Faneuil Hall, Boston, was very brilliant and successful. The hall, which was very handsomely and appropriately decorated, was well filled. Among the decorations was "Fremont, 1860,"—on the gallery fronting the chair. On the bills of fare were finely engraved portraits of Hon. Anson Burlingame.

After proper attention to the edibles, the President, Mr. Joseph Story, made a speech which he concluded with a toast to Hon. Anson Burlingame.

The toast was received with rapturous applause, which was reiterated again and again, The band playing "Hail to the Chief." Mr. Burlingame was pale and seemed very feeble, and considerably moved with feeling. He rose and spoke at some length, and was rapturously applauded.

Speeches were made by Hon. Henry Wilson, Hon. Robert B. Hall, Hon. C. A. Phelps, Hon. C. F. Adams, R. H. Dana, jr., Esq., Gov. Hoppin of Rhode Island, Gov. Morrill of Maine, and others. A toast for

New Hampshire.—The only State in our Union that can boast agreeable Hale storms, was responded to by Hon. Ichabod Goodwin of this city.

Col. Blodgett of Rhode Island greatly entertained the company with a song illustrating the bravery of "Bully Brooks." It was warmly applauded.

Letters were read from Hon. Chas. Sumner, Hon. Josiah Quincy, Hon. N. P. Banks, and Dr. O. W. Holmes.

The festivities of the occasion closed at 11 1-2 o'clock, with three cheers for Hon. Anson Burlingame.

A gentleman from this city, who was present, informs us that it was the most animated, enthusiastic and successful gathering he ever attended. So much for a demonstration in favor of free speech.

RAILROADS UNITED.—The Manchester papers complain that "a trap has been sprung" on the Manchester people, and the Manchester & Lawrence and Concord Railroads united "by a trick." By the terms proposed, "the Concord is to lease the the Manchester & Lawrence Road for five years from Dec. 1st, the profits to be divided between the two roads in the ratio of 3 to 2—that is the Concord receiving 3-5 and the Manchester & Lawrence 2-5 of the proceeds.

"Here," says the American, "is a trap sprung upon the Manchester people at last. After Manchester has opposed the union, always and without cessation, and after the final defeat of the matter as was supposed, last June, and the acquiescense in that defeat, by this trick the thing is accomplished and the roads united. This lease is the same as that made once before which failed to work and was given up. We understand that the matter has been kept secret until everything was ready for the accomplishment of the thing. No parties have been consulted, but the whole is of a piece with all the schemes to unite these roads. All we have to say about it is that some people will find a storm about their ears."

The Boston Courier says "this arrangement, although it may suit the Concord road and its stockholders, will not please the people at Manchester and Lawrence. But railroad men must look to receipts and value of income, and not to opinions of outsiders." Right.

The Manchester papers published the contract between the roads, "to be saved for future reference; for if the scheme contemplated shall be carried into effect, it will prove the basis of party politics in this State for several years to come. It was signed, on Monday, in Boston, by all the Directors of each road, with the exception of J. T. P. Hunt of Manchester, who refused to let his pecuniary interest in the road run away with his sense of justice to the public. The Mirror says, "we have looked the document in the face, and see in it the damnation of all the railroads in the State, and the people rising in indignation to throw off the Camden and Amboy power. There will be a breeze in due time."

☞ The Coroner's Jury at Manchester have returned a verdict of murder on the second degree, against Mrs. Lewis,—for causing abortion by an instrument, in a Mrs. Demary, who died in that city Nov. 21st. The woman was subject to fits, and did not wish to have children,—and the evidence shows she went to Mrs. Lewis with the consent of her husband, and was accompanied by an older sister. The deceased was 22 years old, and was married in Londonderry, her native place, in 1854. Mr. and Mrs. Lewis, it was shown, have practised much in this line for twenty years; but as the wife performed this fatal operation alone, Mr. L. was not held.

☞ The Dover Gazette states that on Friday evening, 7th inst., two wagons came in collision on the Central St. Bridge, in Dover, which is undergoing repairs. In one wagon was Mr. Charles Smith of Dover and Miss Corson of Great Falls, whom he was conveying to the railroad depot; in the other was Mrs. Rebecca Wiggin, wife of Mr. Nathaniel Wiggin of the N. H. Hotel. One or both horses were going rapidly; and as the wagons met, all parties were thrown to the ground, the horses cleared from the carriages and ran, disabling one of them, a valuable animal belonging to Mr. Wm. H. Smith, so as to render him useless, and injuring both ladies very badly.

Miss Corson, was, however, able to ride to the depot, and to reach her home in the cars. Mrs. Wiggin had her wrist badly broken, the ligaments and muscles being much strained and torn, and her head and face very badly bruised, besides receiving other injuries. This occurred in consequence of the condition of things resulting from the repairing of the bridge; and complaint has been lodged against the city for damages, by one or both parties. Mrs. Wiggin is recovering from her injuries;—but Miss Corson has since been thrown from a carriage in Great Falls, and much more severely injured than by the accident at Dover.

THANKSGIVING IN KANSAS.—*Friday* last was appointed by Gov. Geary as a day of thanksgiving. In his proclamation the Governor congratulates the people "on the restoration of peace to this distracted people."

Fancy Goods &c.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

LAKE VILLAGE, N. H.

Dr. Wm. R. Hayden: Dear Sir,—Please send me, by return of cars, some of your pills; I think they will take very well I have been waiting for the people to try them in this vicinity, and within a few days a number have called for them, who have tried them, and say they like them the best of any they have ever tried, in their operation, &c. WM. EAMES.

WM. R. PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by druggists everywhere, and at my office, No. 51 Hanover St., Boston. an8*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cow'ds but it will, not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuT&hS 6m.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause,* by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood,

that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

LOCAL.

POLICE COURT,—Nov. 26.

Before Justice Odell.—The three persons charged with stealing from a shoe store were arraigned. but had their examination postponed to Friday.

The old loafer who was picked up under a fence near the fire at Christian Shore on Tuesday night, was sent to the town house. He was too drunk to burn anything but himself. His name is Patch;—he belongs to Kittery, and plead guilty of the drunkenness.

A moulder named Joseph Rousoe, arrested on suspicion of burning a building, was held in $1000 bonds to be examined on Friday.

After Patrick's plea of guilty, as the Court was about to send him to the town farm for a season,—it was suggested that if he would disclose where he got his liquor, he might be discharged. Whereupon he stated that he bought the liquor of Mrs. Chase;—and he was held as a witness of such sale, in $100 bonds, which were given, with a good surety,—and he went home.

A GOOD JOB FOR THANKSGIVING.—In the house of Mr. Pettigrew, which was burned on Tuesday night, there were two families; one the family of Mr. Pettigrew himself, and the other the family of a Mr. Marsh, who is said to be a working man, and now absent at work. This family lived in the eastern end of the house, next to the barn, and by the suddenness and great heat of the fire, the women and children sleeping in that part of the dwelling, were driven from their beds and from the house to save their lives, without time to save their clothes, their bedding, or anything else of consequence.

Here, now, to-day, is a chance for the comfortable and charitable to give both these families a Thanksgiving Dinner big enough to last a week—and to give the Marsh family some good clothing, bedding, or furniture.

Both families are easily to be found among the neighbors, on Dennett street—and we hope some charitable ones will find them this morning, before the bell rings for meeting.

☞The churches ought to be well filled to-day, if ever. The ministers usually improve the occasion to treat of some specially interesting subject, and the choirs put forth extra efforts to furnish something acceptable in their line. Going to meeting in the forenoon, is as much a part of the Thanksgiving institution, as the turkey or plum pudding; and should be as punctually honored in the observance.

There will be services in all our churches at the usual time of morning worship—except at the Middle Street Church, where the services will commence at a quarter before 10 o'clock.

HINTS TO BE OBSERVED AT FIRES.—*Messrs. Editors*:—Permit me to give our watchmen, and citizens generally, a friendly hint of the importance, in giving an alarm of fire, of stating the location, as near as possible. I have been induced to throw out this suggestion, from witnessing the great difficulty among the Fire Department and citizens, in determining which way to start, at several of our recent fires, and at any other times when an alarm has been given. When you cry fire, tell us where it is, that no time may be lost. This is from a member of the Fire Department, who has served twenty-five years. H.

We would also urge upon all citizens, the importance of placing lights at their windows, when fire is cried on a dark night. This will greatly facilitate the progress of pedestrians and engines, in getting to the scene of action. The street lamps should be forthwith lighted, in such cases.

☞The second ship built at the yard of John Yeaton, was launched in the usual good style of doing such things on the Piscataqua, on Wednesday, about 11 o'clock. She is a splendid craft, of 1200 tons,—launch and trim,—and is not yet named, nor is for sale.

James Lane was taken to the watch-house at Portsmouth, N. H., Tuesday afternoon, and died in a fit some time during the night.—*Manchester American.*

This is the first we have heard of such an occurrence,—it must be a mistake.

☞ As all hands keep Thanksgiving to-day, we shall issue no daily Chronicle on Friday morning.

SAILING OF MISSIONARIES.—Ship South Carolina, which cleared on Saturday for Mauritius, takes as passengers, Rev. Wm. B. Allen and wife, Mrs. Hunt, Mary Stimpson (servant,) Wm. A. Pierce, of Portsmouth.—*Boston Ledger.*

The above are all passengers; but not all are all missionaries.

COL. BENTON'S LECTURE.

The lecture before the Mechanic's Lyceum, to-morrow (Friday) evening, will be "on the state of the Union, its condition and danger; with a view to avert the danger by showing its reality, and invoking attention to the remedy before it is too late."

This title makes known the subject of the lecture, and also gives some general idea of the way it will be treated. It is known from his recent speeches and writings that Col. B. considers the Union in danger, and that the most favorable issue to the Presidential election (in his view) would only be the postponement of a crisis which must come in a year or two, and which will require all the good feeling as well as the good judgment of the friends of the Union to carry it safely through.

An exchange says of Mr. Benton, that "he is the West personified. In himself he combines the scope, vastness, fertility, vigor, and roughness of the new country. What he shall say, may not be wiser or better, than what a hundred others, less noted, would utter; but it will be from 'Bullion' himself; you will hear it from his lips—see it flash from his eyes, and feel it in the presence of the man. It is the first chance and the last chance that we shall have to see him here, and he is the only 'thirty years' Senator that the republic will ever know; to him alone will belong the title of '*the* American Senator.'"

Mr. Benton lectured at Boston on Thursday evening last. The Atlas, in speaking of the lecture, says:

Tremont Temple was crowded in every part by one of the most intelligent audiences ever gathered within the walls of that spacious building. Upon the platform were many of the distinguished men of the city and its vicinity. It was, in one word, the most brilliant gathering of the season. The Lecture was exceedingly interesting, and was listened to with profound attention. Mr. Benton is hale and hearty, while his erect and noble bearing seemingly is unimpaired by the long years of hard labor and devotion to public life to which all his energies have been directed.

The Courier says:

There was an immense audience at the Tremont Temple, last evening, to hear a discourse on the value of American Nationality, from the veteran Senator and distinguished citizen, Col. Thos. H. Benton. The performance was more than equal to expectation, and the address was delivered with all the expression of earnestness and the vigor of youth.

☞ Young's Patent Slate, advertised by J. H. Foster, is of an oval form, or rather an oblong, with rounded corners, with the frame all in one piece, like a harp;—and is very light and handy.

HOME INSURANCE COMPANY, NEW YORK. We take the following notice from the United States Insurance Gazette, for November, a sound and practical publication devoted to Insurance matters. The Company below mentioned have an Agency in this city, Messrs. John S. Harvey & Son. Those best acquainted with the operations of this Company can vouch for the justice of the remarks.

We have presented our readers with a brief statement of the assets and liabilities of the Home Insurance Company. The operations of this Company are too well and too favorably known, not merely in this State, but throughout the Union, to require any encomiums on our part. Facts and figures speak eloquently for themselves, and to them we refer our readers. There is, however, one thing, which we cannot pass over without remarking it in our present notice of the Company, and that is, the enterprising spirit and liberality with which its affairs are conducted. Its losses are promptly paid. Its agents, as well as the public, are highly pleased with the board of management and especially with the conduct of its executive officers, and the business-like manner in which their correspondence is conducted.

What has been the result of this? It is, that few Companies, in this or any other State, can boast of so safe or extensive an amount of business, or possessing a better, more intelligent of active class of agents as the Home Insurance Company of New York.

With due deference and respect to the in-door management of the institution, we believe that much of the prosperity of the Home, may be attributable to the efficiency of its out-door agents. Chas. J. Martin, Esq., the President, has been connected with the business of Insurance, from his boyhood—he is a keen, active, practical and judicious underwriter. The Vice President, A. F. Wilmarth, Esq., was formerly its Secretary, and is well posted in Insurance matters. The Secretary, J. Milton Smith, Esq., was late Secretary of the Jefferson Ins. Co., and is now Secretary of the Board of Fire Underwriters of New York.

ILLNESS OF THE PRESIDENT.—*Washington, Nov. 25.*—The President has been unwell since Saturday, in consequence of too close application to business, but is now convalescent, and to-day attended a Cabinet meeting, which was postponed from yesterday.

The Court of Claims resumed its sessions at the Capitol this morning.

THE RESULT IN NEW YORK.—We have the official vote of all the counties in the state, excepting New York, which is semi-official, and the figures foot thus:—Fremont 275,602; Buchanan, 195,456; Fillmore, 124,737. Total, 595,795. Fremont over Buchanan, 80,146; Fremont over Fillmore 150,865.

In 1852 the vote for Presidential Electors was thus divided:—Pierce, 262,083; Scott 234,882; Hale, 25,329. Total 522,294; increased vote in 1856, 73,501; loss of the Democraic vote, 66,827.

MASSACHUSETTS ELECTORAL VOTE.—The following is the official vote for President in Massahusetts, on the 4th inst., taking the highest on each electoral ticket:

Julius Rockwell (Fremont)	108,190
Whiting Griswold (Buchanan)	39,240
John Baylies (Fillmore)	19,726

Whole number, 167,156.
Fremont over Buchanan, 68,950.
Fremont over Fillmore, 88,464.
Fremont's majority over both, 49,224.
Majority against Buchanan, 88,676.
Majority against Fillmore, 127,704.

The official vote of Illinois at the late election for President, was:—For Buchanan, 105,344; Fremont 96,180; Fillmore 37,451. Buchanan's majority over Fremont, 9164; united opposition over Buchanan, 28,326. Col. Bissell is elected Governor, over both the Know Nothing and Buchanan candidates.

☞ Henrico De Costa escaped from the U. S. Deputy Marshal in New York, on Tuesday afternoon, by pretending he wished to stop at the St. Nicholas hotel to change his clothing. He was under indictment for fitting out the brig Braman as a slaver, and had been surrendered by his bail. ☞

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

AYER'S Cathartic Pills,

(SUGAR COATED,)
ARE MADE TO
CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.
FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURGH, PA., May 1, 1855.
DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.
Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.
SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.
Fraternally yours, ALONZO TALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.
DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.
GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.
DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.
DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.
JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.
DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long given up by allopathic doctors to die of scrofula. Her face was covered with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.
PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1855.
HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.
SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.
DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SIGELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as **a Dinner Pill**, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN A INCIPIENT CONSUMPTION,
and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous disease of the pulmonary organs, it is also the pleasantest and best remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, for you feel them until no human skill can make the incipient canker that fastened on the vitals, cut your life away. All know the dreadful fatality of lung disorders, and as they know to the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, nor will we spare skill to make it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

PREPARED BY DR. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass
AND SOLD BY
W. R. Preston and B. Hutchings, Portsmouth; D. Lothrop, Dover; C. Morrill, Exeter; and by all Druggists and Dealers in Medicine every where. July 9 eod&wly

Applications for Insurance received by
JACOB WENDELL.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance of Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than 1 of 1 per cent. annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1 10 of 1 per cent. on the amount insured. In the 3d, or Union Class, from Oct. 1846 to Jan 1856, the yearly average of assessments has been less than 1-5 of 1 per cent. on the amount insured.

STOVES! STOVES!

Frank Jones' Improved

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF
Parlor Stoves
comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

The Stanley Coal Burner!

NOTWITHSTANDING this Stove has been in the market more than eight years, and that hundreds of new patterns have since its introduction been brought before the public, still (this, as a coal burner) stands pre-eminent. The subscriber has sold them for the past seven years, and the sales are annually increasing, and now has in Store the various sizes, which he offers at the usual price. G. N. CARLETON,
o23 15 Daniel street.

SOUSED TRIPE for Sale by
n22 LAFAYETTE LAIGHTON.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Heretofore, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs Prince & Co could secure a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very truly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$85
Four and a half octave, " C to F	90
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	150

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,

a27 7 Exchange Buildings.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged or liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,
Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render the work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative and poetic tales—his admiration of genius and skill, with those feelings of generous enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

Clark's Female Pills.

The Great English Remedy.
Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Sole Agents for the United States and Canada, A. C. HALLWIN & CO., Rochester, N.Y.
TUTTLE & MOORE, AUBURN, N. Y., General Agents.
N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.
For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by one Druggist in every town in the United States.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed, and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11 1856 d7eodly

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoons. Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,
SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."
To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	90
5 lb. Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ anh ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.
☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"
☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.
☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.
Boston, Aug. 19, 1856. ood6m

FOOLISH MODE OF DEMONSTRATING JOY.

We last week gave an account of the loss of the lives of two men, and the maiming of another by the premature discharge of a cannon at Dover the Wednesday evening previous. Only two evenings after, another valuable life was lost at West Concord in this state, by the bursting of a cannon.—The latter was Mr. Arthur Kimball, section hand on the M. & C. Railroad. The sufferer lingered until about ten o'clock the next morning, when he died. He was about 28 years of age, a native of Weare, and a quiet and industrious man. He leaves a wife and two children.

On both of the above occasions the guns were discharged to commemorate a political victory.—The business was entered upon as it always is, with a nervous excitement,—a determination that a great noise shall be made, and without the usual precautionary guards with which men enter upon regular business. The guns were fired by night, when there is a double liability to accident—and they were fired, too, without any expression of truly patriotic feelings by any body. We know that such modes of demonstration are confined to no party—for both leading parties sustain them. Because the old crower, who has become successful in battle, although nearly killed himself, crows over his victory, it is not therefore necessary that human beings, in a warfare of principle, who are seeking, or should be seeking, such results at the ballot box as will be for the general good, should sacrifice the lives of a portion of their party in such heathenish orgies. To all parties we say, let there be reform in this matter.—*Journal.*

THE COMING SESSION OF CONGRESS.—The Tribune gives a digest of the changes in Congress since the last session. It appears that the Republicans, if true and firm, will still control the House. The session will be important, and will undoubtedly be signalized by some action upon the Kansas affairs. It is the session, also, in which Mr. Pierce's administration will expire, and without doubt the dying Executive will make some strike for his own benefit, and for the restoration of his reputation.

NEXT WEEK.—Congress meets at Washington on Monday next, December 1. The United States Supreme Court also meets on the same day. The Electoral Colleges meet at the capitals of the several states on Wednesday the 3d.

KANSAS.—The Lawrence Herald of Freedom of Nov. 15, says:

"Our streets have been thronged with teams for the last few days, and Lawrence has appeared like a busy commercial mart. The ferry, of which there are two at this place across the Kansas, calls persons from all parts of the country to this point, as it is probably the best and safest place for crossing the river for many miles in any direction.—Trade has revived with the interior, and confidence, to a great extent, is restored."

LAWRENCE, K. T.—One of the wonders of the age is Lawrence. A person at a distance would suppose that the inhabitants of this city would flee and leave it to decay and ruin. The threatenings, and sieges, and burnings which it has passed through has frightened no one, hurt but few, and fixed all in determination to stay and maintain their rights. Property has never depreciated, but on the contrary has gone on, regularly increasing in value till lots on Massachusetts street are selling readily from $500 to $1000 a piece, others would command a much higher price, and substantial stone stores are being erected on them.—Out-lots are selling in proportion to distance from the business centre, from $25 to $300 per lot. A large number of good stone dwellings have been erected the past season, some of them costing thousands of dollars. Rents are very high, almost producing a hundred per cent. in the investment. Two large substantial stone churches, with basements for schools, are in process of completion. Labor is high and in great demand. Whatever else may be said of Lawrence, it may be truthfully asserted she has *back-bone.—Herald of Freedom, Nov.* 1.

MECHANIC ASSOCIATION.—The officers elected at the annual meeting, for the ensuing year, were as follows:

Thomas Norton, *President.*
William Tucker, *Vice President.*
Alfred T. Joy, *Treasurer.*
Joshua Stackpole, Benjamin M. Parke *Trustees.*
Samuel W. Moses, *Secretary.*
John Knowlton, 2d. *Deputy Secretary.*
Andrew J. Beck, *Marshal.*
John T. Dame, *Deputy Marshal.*
Isaac Dow, *Standard Bearer.*
C. W. Brewster, H. S. Rand, E. M. Brown, *Auditors.*

THE NEW CUSTOM HOUSE.—No decision has yet been made of the location. The last letter from Washington on the subject was an application for a copy of the deed to Portsmouth of the Jefferson Hall Market lot.

JUVENILE SINGING CLASS.—Mr. H. P. Crane commences the second term of his Singing School for children this afternoon, (Saturday,) at 3 o'clock, in the vestry of the Universalist church. See his advertisement in another column.

Next Thursday evening a valuable lecture on Elecricity, with interesting experiments, will be given at the Mercantile Association Lyceum.

A California pamphlet alleges, upon pretty good evidence, that 5000 murders have been committed in that country in six years.

PORTSMOUTH FREMONT CLUB.—A meeting of the Club will be held at the Head-Quarters on *Wednesday* evening next, Dec. 3, at 7½ o'clock.

Per order of the President.
JOHN CHRISTIE, Secretary.

BANNER TOWN.—This, in New-Hampshire, must certainly be Gosport (Isles of Shoals). Last March it gave Wells 15 votes, Metcalf and Goodwin *none.* At the late election it gave Fremont 11, Buchanan 13—showing a net gain of *eleven!*

BROUGHT HOME IN IRONS.—The ship Peter Marcy, Capt. Hickey, from Calcutta 19th June, arrived at Boston on Monday, having on board a seaman named John Frank, charged with assaulting the mate, Bernard Thompson, with a knife.—Frank had been in irons thirty-one days, and was delivered to the U. S. Marshal.

Morning Chronicle.

SATURDAY, NOVEMBER 29, 1856.

TEMPERANCE REVIVAL.

The Newburyport Herald hails with joy the revival of the Temperance Movement, in its moral and social aspects. The Herald says:

We see at this time, that the waters are beginning to stir, both in Massachusetts and New York, and the presence of Gough in the country, whom everybody wishes to hear, is favorable to action. The convention in Boston, to be held on the 10th of December, will be the opening of the winter's compaign in New England; and immediately following that, Mr. Gough will speak in Newburyport and elsewhere.

If the temperance movement is judiciously managed—not attempting to drive, but to convince: not too much force by law, or reprove violently, but to lead by persuasion and reason;—it may be rendered very useful.

At the opening of a cold winter, hundreds there are in our midst—the guilty drunkards and the innocent families, who will be convinced by their physical necessities, that drinking is destructive to them and is also destructive to the peace and happiness of all about them. In their failing health and aching heads—in their empty pockets and desolate abodes, they will realize as none can speak or write it, the awful bitterness of being a drunkard, or of being connected with and dependent upon one who is the slave of passions and appetites.

Added to this class, who are middle aged or old, is an almost uncounted number of the young; for seldom has there been so much drinking as in the last three or four years. No kind of associations could meet or parties be had, where spirituous liquors were not called for. Many parents are not without misgivings for their children—many young wives are full of anxiety for their husbands, and many sisters are weeping for their brothers. Those very relations, however, must be the means of guiding uncertain steps, and confirming in virtuous action. Legislatures can perform no such duties; laws can not be so formed as to protect persons against their own injury: the hope of staying a moral evil must be in the intelligence and moral power of society; and never shall we have safety, till we educate ourselves from childhood to resist evil and flee from it, rather than rely upon its banishment that no tempation shall be presented.

INTEMPERANCE IN BOSTON.—Under the head of "Increase of Intemperance," the Boston Bee says:

It must be apparent to every one who frequents our public streets, that intemperance is sadly on the increase in this city. The increase is by no means confined to the low and vicious, but it is to be seen among the educated, intelligent and wealthy class of society. Men are getting indifferent to their vices,—our citizens cease to regard the staggering—in a beastly state of intoxication—of a respectable business man at noonday, as anything very uncommon or alarming. Such incidents have perhaps never been rare in the precints of North or Broad streets,—localities where men are poisoned by the damnable fluids retailed as *spirituous* liquors, and whose associations and occupations offer many excuses in palliation of such indulgences.

We pity, aye, we sympathize with an honest sailor, who, upon his return from a long and arduous voyage, is obliged to find a *home* in what we fear too often proves a den of infamy and vice. Surrounded by such associations, scorning the good opinion of those who would lead them into better channels, and innocent and above the petty deceptions of those who are ever ready to take advantage of their trusting generosity, they fall an easy prey. Such men need compassion for the indulgence of a debasing vice.

But when we witness the daily drunkenness of men high in social position, surrounded by wealth, refinement and all the nobler influences of life,—men whose intellects and accomplishments fit them for the highest and most noble positions in our land, it is time to pause and reflect.

We do not know how these things can be remedied; we propose no method of reformation. It is for others to do this.—Our object is to awaken the public to a sense of danger that seems to us to be fast creeping over our community like a fatal pestilence: it pervades all classes,—and we regret to say both sexes. Some remedy might be applied, if judiciously carried out; men *might* be aroused to a sense of shame, their manhood might be appealed to, the sufferings of innocent families might be relieved, and the mortified feelings of friends spared.

The Sabbath at least should be free from the scenes we have alluded to. The city authorities are to blame for this much of the offense. How much more restriction they could enforce on other days we do not now propose to argue. It is evident that something ought to be done to stay the increase of intemperance in Boston. Can it be done?

Yes: Let all the sober men in Boston cease to oppose the law now on the statute book. Let moral measures be applied diligently?

As it stands now, Boston is the centre of the liquor trade for New England; the nucleus of intemperance; the Sevastopol of drunkenness.

SINGULAR FATALITY.—On Wednesday in Boston, Michael Donovan, an Irishman, having lost a child by death, went out to buy a coffin, but got drunk on the way and was run over by the Old Colony cars and killed.—*Lowell News.*

ENTERPRISE IN SACO.—The Democrat states that Messrs. D. E. Somes, Esq., and other gentlemen have brought into market a large tract of land near the railroad in Saco, and convenient to the people of both towns for house lots, and quite a village has grown up in that region. Some one to two hundred house lots have been sold, and many good houses erected there. And the improvements in this quarter will now be very much increased by the new manufactories built there by the enterprising proprietor, Mr. Somes.

These factories are now four in number, and a steam engine of 20 horse power is placed in a building adjoining them, for the purpose of furnishing power to aid in the manufacturing processes. In one of these buildings Mr. Somes carries on the business of making Loom Harnesses, Reeds, Twine, &c. In another he has commenced the manufacture of Shoes, and has already quite a number of men at work, with room for still more. The other buildings are calculated for extensive Shoe manufactories, and will soon be in operation. There are now some two hundred persons employed in these factories, and when they are in full operation some 400 hands will be required. Another company is also about to commence the manufacture of shoes in the same neighborhood.

"BREAD, gentlemen, bread is the staff of life." We had a good loaf given to us the other day, made and baked by the following recipe.

RECIPE FOR MAKING YEAST BREAD.—Three gills of water, the temperature about 90 degrees, but must be varied according to the weather or heat of the room in which the dough is risen. One half-pint of yeast, two pounds of flour; mix, and let it rise four or five hours; then add an ounce of butter, knead it well, put it in the baking pan; let it again rise another hour before baking. Time of baking about an hour.

ROBBERY UNDER DIFFICULTIES.—At Quebec on Sunday the branch of the Montreal bank was robbed of some $4300, though several thousand pounds of specie were overlooked by the rogues; the robbers had to remove eight feet of solid masonry; as the vault was of iron on every side, they had to dig through the foundation and thus get between the two doors; the inner door was fastened in the old fashioned way, *with a padlock*, which didn't hold out long against the rascals.

☞ A new semi-monthly paper, about the size of the Daily Chronicle, hails from Salmon Falls, this State. Its title is "The Salmon Falls Journal." Its appearance is good. Published by G. H. & S. E. Twombly, at $1 per annum.

☞ Mr. H. T. Day, Agent for A. Bond, Baker, Wilmington, Mass., in stepping from the freight train at Manchester, while in motion, had both bones of the right leg, below the knee, broken, on Monday.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 61 Hanover St., Boston. aug*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. n27 1yTuThS 6m.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

LAKE VILLAGE, N. H.

Dr. Wm. R. Hayden: Dear Sir,—Please send me, by return of cars, some of your pills; I think they will take very well. I have been waiting for the people to try them in this vicinity, and within a few days a number have called for them, who have tried them, and say they like them the best of any they have ever tried, in their operation, &c. WM. EAMES.

WM. R. PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

MUSICAL.—We learn that a new Church Organ is now being put up in the Universalist Meeting-house at Epping, for the Methodist Society who worship in that house. Its size is 13 feet high, 7 feet front, 4 1-2 deep; made by John Hayes, Portland.

A HOUSE LOT near Boiling Rock. Enquire at the Chronicle Office. n26

LOCAL.

POLICE COURT—Friday, Nov. 28. Before Justice Odell.—Samuel Davis of Dover Falls was accused of stealing three pigs from the store of Daniel Knight & Co. of Portsmouth. Found guilty, sentenced to 60 days, to pay treble the value of the property stolen, and costs $7,02. Timothy Horogan of Berwick, was convicted of stealing a pair of Congress boots of J. C. Carr, of this city,—and sentenced to 60 days in jail, pay triple value of the goods stolen, and costs 7,02. George Nason of Dover, for assisting in the above thefts, was sentenced to 30 days on each, i. e. 60 days in jail and costs $13,27. Joseph Rousoe, accused of setting fire to the barn of Wm. Pottigrew, was bound over to the S. J. Court, in $1000. Geo. Adams, for stealing a turkey from J. S. Hadley, was sentenced to jail 15 days, pay treble the value of the turkey, and costs of prosecution.

☞ Mrs. Chase, of No. 1 Deer street, defies us to say that she did not sell any liquor to Patch, of Kittery, who was accused of drunkenness, in our Police Court on Wednesday last; and who escaped sentence by pleading that he purchased the liquor of her.

☞ Hon. Thos. H. Benton delivered his lecture on the Union, its dangers, and the remedy,—before the Mechanics' Lyceum, on Thursday evening. The house was the fullest of the season, thus far; the orator is a fine-looking old gentleman,—self-possessed, earnest, and full of his mission: his object, to save the Union—his *modus operandi*, to keep the States in the Union by taking away their desire to go out;—and the dangers to be averted, were those of which we have often heard, viz., unfriendly border States, loss of trade, &c., &c.

The next lecture is to be by Rev. T. W. Higginson, of Worcester,—next Thursday evening.

For the Chronicle.

WHY NOT?—*Messrs. Editors*;—Permit me to ask a question, through your columns. My object in asking it in this public manner, is that it may meet the eye of every citizen. I hope some one may be able to answer it satisfactorily to all our citizens who have an interest in the place. It is this: Where were our Watchmen, at the time of the breaking out of the fire on Christian Shore, on the night of the 25th instant, that they did not see it and give the alarm, sooner than persons who reside as far down town as the Universalist Meeting-House—and who saw the light through their windows some ten minutes before an alarm was given by any one? Is it not fair to presume that our Watchmen are always at their posts, (on the street?) and if so, how was it that they did not give the alarm sooner? I wait for an answer. H.

SHORT HAND.—Mr. James Brown, the teacher of Phonography, of whom we spoke a short time since, has been teaching classes in Portland, Lewiston, &c., with good success; and now proposes to get us a class or two in Portsmouth. The science of Phonography is well worthy the study of all—and will repay every one who is at all interested in literature, whether they prosecute their studies to a thorough acquaintance, or not. It gives a better insight into the English language, than any other study—and to a scholar, is very pleasing withal. We are confident Mr. Brown is well qualified to impart instruction in this science, which is so simple, and yet so simplifying of difficulties in language.

THE FATAL CANNON EXPLOSION AT DOVER. The Dover Enquirer understands that "the gun which caused the death of the two men in Dover, at the Democratic salute last week, was procured at Portsmouth.—It was an old one, taken from some British vessel during the war of 1812, and has not probably been fired between that time and Wednesday night. We have been told that the purchasers were cautioned at Portsmouth against using it, as it was considered dangerous, and the hazardous experiment of firing was a common remark about town on Wednesday; so that when the calamity occurred, few perhaps were much surprised at it. To call it an 'accident,' therefore, is a misuse of words, which may salve the consciences of those whose recklessness was the cause of it, but it can neither bring the dead to life nor afford consolation to their bereaved families."

We don't know what gun it was, but presume it was one of those which have been used in firing a salute in this city at least once this year. This firing salutes, at least to celebrate any civil or political matters, is bad enough, at the best, without shooting anybody.

TO NEW SUBSCRIBERS—We will furnish the Daily Chronicle from this date to Jan. 1, 1858, for $4. Or the Weekly Chronicle & Phenix for $1.

☞ The lady who lost a branch of flowers from her hat, on Thursday afternoon, can obtain it at the Chronicle Office.

☞ Any one having a ton or more of good Carrots for sale, can hear of a customer at the Chronicle Office.

COLUMBIA, S. C, Nov. 20.—*Meeting of the South Carolina Legislature.*—The South Carolina Legislature met on Monday. The Governor, in his message, regards the recent election, as merely establishing a truce between the North and South. He advocates the revival of the slave trade, and thinks that every branch of labor should be in the hands of slaves. He refuses to lay before the legislature the resolutions of the New Hampshire legislature, transmitted through the Governor of that State. The rest of the message is devoted to State affairs.

RETURNING HOME.—The steamer Wm. Campbell, which arrived here from the Missouri River yesterday, brought down a company of one hundred and thirty *quasi* Kansas emigrants, who were chiefly from the Southern States, and having become sickened with the peace prospects in the territory, are returning to their old homes. We commend them to the charitable care of the St. Louis Kansas relief company.—*St. Louis Democrat, 24th.*

CHICAGO, Nov. 27.—We have Leavenworth dates to Friday last.

The great land sales were progressing without disturbance.

Judge Lecompte had issued a process against Gov. Geary, for contempt of Court.

WASHINGTON, Nov. 27.—The new Nicaraguan Minister, Ferrar, has not yet taken the course usually pursued by such officials preliminary to their reception by our government.

Not more than a dozen members of Congress have arrived.

SEDUCTION CASES—WITH A MORAL.—Appearances in Boston indicate that unless the villians implicated in the school seduction cases, are brought to justice by the police, they will be by the "Vigilance Committee." There are six school girls, and three men, of whom the stories are told. The Newburyport Herald says:

The girls were receiving money, which they had no means of honestly acquiring; and returning with trinkets and presents: why had not the mothers terrible anguish then! Then was the time, not now. But how common is this case. A boy goes into a store, at a small salary; he expends more for riding and dressing, and making presents, here and there, than four times the pay he receives, and at last he is before the courts as an embezzler and a robber. His parents have terrible anguish then, and his employers are surprised! Why was not there anguish and surprise, when the most common observation would have told them, there was wrong somewhere? If we will bring up our sons and daughters to the follies and extravagances of the times; if boys must have fine linen and scarlet and gold watches, and girls trinkets and gewgaws and silks; and both must spend ten times what we can give them and they can earn, it is time for mothers to have the terrible anguish and for fathers to weep at their birth; and not when they are covered with crime and shame, which are unavoidable from the very habits we teach them. If we want virtuous children and a virtuous community, there must be more economy and less show. * * * What supports all this show that flounces about the streets? Who does it? Let parents ask themselves the honest question, and see what answer will come back to them * * * Six girls ruined in Boston!—terrible; so it is; but what are the six thousand doing? * * * What mean all these gilded saloons, where drinking, gambling and licentiousness combine under one head?—not in Boston alone, but in all the other towns, great and small.

SINGULAR THEFT.—A man who had a fat ox in a pasture near Newburyport, on going to look for him a few days since, found his hide, horns, &c., in a neighboring field. A lot of fellows who are accused of butchering him, have been arrested.

The farmers and other residents of Ipswich, have of late been much troubled with hen and turkey thieves. Some individuals have had hen-roosts cleared in a night, and their turkies made as scarce as though they never had raised any.

☞ Mr. Williams, a track repairer on the Eastern Railroad, while digging a post hole, a few days since, in Newburyport, dug into a copper mine, valued at $1 92, that being the number of coppers found one foot from the surface. How the coppers came there, remains a mystery.

☞ Rev. Ephraim Peabody, D. D., aged 49 years, died in Boston, on Friday morning. He was minister of King's Chapel, an eloquent man, and greatly beloved. He was a native of Wilton, N. H.; and was well known in this city as a clergyman and lecturer.

POLLOCK FISHING.—The Newburyport Herald says, the Pollock fishery, as pursued by fishermen there for a few weeks past, has been very successful. He understands that six vessels are now engaged in the business, and the crews of these vessels have received the very handsome sum of $25 to $40 per week, per man; which gross sum will add materially to the sound circulating medium of the south part of that city.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed*. It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

AYER'S Cathartic Pills,

(SUGAR COATED,)
ARE MADE TO
CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.
FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PEBBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 10, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of S. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. A. S. MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PLANTERS' HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness, and Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,
and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not within their bounds some living trophy of its victory over the terrible and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious one my that steals upon them unprepared. We have at undoubted grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, not neglect them until no human skill can restore the incurable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this area only, we need not dwelling upon them to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

PREPARED BY DR. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass
AND SOLD BY
W. R. Preston and J. Hatch, Portsmouth
D. Lothrop, Dover; C. Morrill, Exeter; and by all Druggists and Dealers in Medicine everywhere. July 9 eod&wly

Applications for Insurance received by
JACOB WENDELL.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance of Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average assessment in the Farm Class from April 1836 (the time of the Classification) to Jan. 1856, has been less than ¼ of 1 per cent. annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1 10 of 1 per cent. on the amount insured. In the 3d, or Union Class, from Oct. 1836 to Jan 1856, the yearly average of assessments has been less than 1-5 of 1 per cent. on the amount insured.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with us for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *price*.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stoves. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

The Stanley Coal Burner!

NOTWITHSTANDING this Stove has been in the market more than eight years, and that hundreds of new patterns have since its introduction been brought before the public, still (this, as a coal burner) stands pre-eminent. The subscriber has sold them for the past seven years, and the sales are annually increasing, and now has in Store the various sizes, which he offers at the usual price. G. N. CARLETON,
15 Daniel street.

SOUSED TRIPE for Relish by
n22 LAFAYETTE LAIGHTON.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resp'lly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....130

IN PIANO CASE:

Five octave Melodeon, from F to F.....$100
Six octave Melodeon, " F to F.....130
Five octave, double reed, " F to F.....150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds.....350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,

Chickering's Piano Fortes.

BOSTON, Oct 1856.

WE have appointed JOHN S. HARVEY & SON *sole Agents* for the sale of our Piano Fortes for Portsmouth and vicinity, and have made arrangements with them to supply our Instruments on the same terms as can be purchased at our Sales Rooms.

CHICKERING & SONS.

WE have now on hand and are constantly receiving the above Instruments, and shall take great pleasure in exhibiting them to all who favor us with a call. The world-wide renown and celebrity of these Piano Fortes and the acknowledged superiority of the makers over all competitors are too well known to need comment.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended for sale by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machine has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,
Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative: and point to its exhibition of genius and skill, with those feelings of fervent enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

JOB AND CARD PRINTING promptly executed.

W. GILMORE SIMMS.—Mr. Simms has not been very successful in New York as a lecturer. In vindicating the revolutionary services of his native State, South Carolina, it would seem from the reports that he has deemed it necessary to undervalue those of New England, and as a consequence expressions of dissatisfaction have been uttered, and his lectures have been very thinly attended. He had engaged to lecture in New Haven, but before the lecture commenced on Friday evening, the President of the Institute announced that Mr. Simms had just written to decline, on the ground that prejudice had preceded him, and he would not lecture to unruly audiences or to empty benches.

In New York, at the first lecture in Rev. Dr. Chapin's church, he had a fashionable though not crowded audience. The subject of the second lecture was announced to be "The Apalachians: a Southern Idyll, descriptive of Southern Life, Manners, Scenery, &c. Only seventeen persons—thirteen ladies and four gentlemen, were in attendance, and the lecturer would not proceed, and the gas was turned off. Mr. Simms evidently was not familiar with the business of lecturing, except in the Caudle sense of the term.

The Boston Transcript says: "His failure is attributed to a want of practical wisdom; in a word, to his want of common sense." If so, then New England has not lost much by the collapse of Mr. Simms.

GAITS AND SPEED OF HORSES.—Porter's Spirit states that "a splendid Pacing Match in harness, has just been accomplished in San Francisco, in the splendid time of 2:23 1-2, 2:23 3-4, and 2:27 1-2—the course is seventeen feet more than a mile. In comparing the above time with that of Flora Temple, we wish those of our readers who are not acquainted with racing matters, to understand that pacers go faster than trotters, and that running horses go faster than all. The trot, however, is the most valuable gait—as it is clean, neat, even, serviceable, and will last all day; while the action of the pacer, being from side to side, soon wears him out.

"The fastest time ever made by a running horse, was made by Henry Perrit, in 1 minute 42 1-2 seconds; the fastest mile ever made by a pacer, was done by Pocahontas, in 2 min. 17 1-2 sec.; and the fastest time ever made in trotting, was by Flora Temple, who did her mile, in harness, in 2 min. 24 1-2 sec."

ASYLUM FOR INEBRIATES.—A movement is being generally made throughout the State of Masschusetts, to secure by petition to the next General Court, an appropriation which shall ensure the successful establishment of "an asylum for inebriates, wherein they may receive such treatment as shall restore them to soundness of health and sanity of mind, and also, to afford such facilities as shall render the asylum a self-supporting institution for the now miserable victims of intemperance."

☞ Philip Creasy, aged about 9 years, was run over, by a railroad coach, Tuesday evening, while crossing a street in Newburyport carrying some water. One of his arms was broken, and his head badly bruised.

MARGARET TERRENCE OUT OF PRISON.—Margaret Terrence, the "hay and grain girl", who escaped from Amherst jail two years ago, stole a horse and wagon and went to Manchester, and put it up at Hill & Cheney's stable; escaped from the N. H. State Prison on Monday night of last week. She was in the basement of the center part where she had gone to get a drink of water, and ran out of the door into the yard, and then into the street. It was not more than two minutes before her escape was found out and the watchmen scattered in all directions, but she was nowhere to be found. She had on when she left, nothing but a light calico dress and skirt; no bonnet and no shoes. It is concluded from some circumstances that she received aid from some one soon after leaving the Prison. She is an ugly troublesome bird at the Prison, causing more annoyance than a dozen men.—*Manchester American.*

☞ A few days since about thirty colored persons arrived in Washington. They were emancipated by Charles B. Howard, Esq., of Orange county, Virginia, each provided with $125 in money, and placed under the care of a gentleman who accompanied them to secure for them a permanent home in the far West.

Morning Chronicle.

MONDAY, DECEMBER 1, 1856.

LIBERTY.

Capt. Timothy Stannard is the man who was driven from Norfolk, Virginia, for desiring to throw a Fremont & Dayton vote in that model city. He publishes his statement in the New Haven Palladium, of Nov. 13,—in which he says he was neither an abolitionist nor a politician, but had voted at Norfolk in the spring of 1855.

On the day of the late Presidential election, he says,

I wrote a vote for Fremont & Dayton, and went to the place of voting. My right to vote was again examined, and on a statement of my case, it was *admitted*; and I then, as their rules require, wrote my name on the back of my vote, and handed it to the inspector—who, as is customary, read aloud, first my name, and then the names of my candidates.

As soon as he had declared that I voted for Fremont, a large number of voices from the crowd shouted, "Hang him!" "hang him!" and the inspector handed me my vote, and said, "There is no such vote here—we *cannot receive* this!" I only replied, "Very well," and took my vote again.

Some threats, which in the confusion that took place, I did not distinctly understand, were made by those standing near; and the presiding officer exclaimed, "Don't touch this man!" and then said to two persons who were, I presume, policemen, "Take him away from the polls."

Capt. Stannard then proceeds to show what danger he was in of being mobbed, until he left the city as privately as possible.

We have some vague notion that Virginia has been claimed as a Democratic State—but there must be some grand mistake about the matter.—In a State where such a thing as this is done, there is no such thing as Republicanism—no such thing as Freedom. As complete a despotism rules the hour as can be found in Austria or Russia. Freedom there is none except as the drivers please.

And we may be told, perhaps, by some timid patriot or some time-server, who dares not say that his soul is his own, that this is all right. But the people, in this part of the country, cannot be easily persuaded that this is democratic, or republican, or right on any ground, to throw out a vote, and disfranchise a voter in this way.—The Free School Democracy of New Hampshire are not quite ready, we believe, to subscribe to this doctrine. Not quite ready to say to the Fillmore men, who voted by 1 in a town and 10 in a city—You shall not throw that vote!

No indeed:—but why not? Simply because slavery has not made tyrants and cowards of us all.

Read what Thomas Jefferson says of the effect of slavery on the holders in successive generations. He says, "Thus nursed, educated, and daily exercised in tyrranny, he cannot but be stamped by it, with odious peculiarities."

Thomas Jefferson, however, was a Republican, and perhaps at this day would in Virginia, be styled a black one. We are not certain that he would be allowed to vote in Norfolk.

We call attention to Jefferson's statement in connexion with modern ideas in Virginia and South Carolina. The latter strikes down the man who dares to exercise free speech—the former hustles out the man who dares to throw a free vote.

IMPORTANT ARREST IN A SUPPOSED SLAVE CASE.—The Salem Register states that last Saturday three men were arrested, as they had been seen at Pickering's Point under circumstances indicating that they had concealed treasure there. The men were all Spaniards or Portuguese, and were De Mena, a cigar dealer in Boston, another who was suspected of being his brother-in-law, and the third of being Henrico De Costa, who was arrested in New York for participation in the slave trade, and escaped. The first two were released, the last being delivered to Marshal Freeman. On Tuesday evening, De Mena produced the cash, $5000, to release the stranger on bail, but the next morning delivered him up again, when the latter acknowledged that he was a slaver, and had destroyed his vessel off Cape Cod. It has been ascertained, however, that the stranger is not De Costa. De Mena has been held in $20,000 for examination, and has furnished the requisite bonds. The name of the prisoner is reported to be Jacques Negret.

CANADA JOINING THE UNITED STATES.—Several of the Canadian newspapers are arguing how much could be made (if anything) by Canada's joining the United States. One of these days, Fowler thinks, *that* will be the great topic of American politics.

FRENCH REFUGEES.—The nine French refugees from the island of Cayenne, who arrived at Baltimore recently, have reached New York City, and put up at a hotel in Greenwich street, where they entertain gaping crowds with accounts of their adventures. There names are as follows:—M. M. Dime, Boguency, Serond, Bijou, Chauvin, Guerin, Chabane, Carpezat, Montfalcon. Interesting developments are expected with reference to the treatment of prisoners at the place of their late confinement. The offences of these men are said to be of a purely political character, and not such as would warrant their extradition under the treaty with France.

The Boston Courier says: "These French refugees are the victims of Louis Napoleon's policy of despotism. A large number of their compeers attempted to escape with them from the horrors of the penal settlement, but they have either lost their lives or have been retaken, to be subjected to the ignominious punishment which the French government awards to them. It is hardly possible to think that such horrible crimes could be committed in a civilized country, particularly by the French government, towards their political opponents. It would seem that every system of dastardly cowardice and cruelty which could be thought of as comprised in one man, has been concentrated in Louis Napoleon.—We have no word to say with regard to these unfortunates, as we cannot help them. But what should the British people say—the press which admits the freedom of opinion? There is no species of tyranny which has been talked of in the world, like that which has sent the French political sufferers to the penal regions. In their desire for the "amite cordiale," let them understand that."

We like the spirit of these remarks of the Boston Courier. But we *have* a word to say about these unfortunates, and against the tyrant who oppresses them. Let the American press generally say *its word* against this injustice, and let it come to the eye of Napoleon. It will trouble him as the shaking leaf startles the murderer. It may make him ashamed, as the European press sometimes shames the doefaces in America.

PRINTER'S REGISTER.—A large and handsome paper with this title, is published on the first of each month, at Philadelphia, by Crofut & Bigelow, at the low price of 50 cts. per annum. It is "devoted exclusively to the Printing interests, including the latest inventions and discoveries;" and should be read by every printer in the land, whether "jour" or publisher.

Among other good things,—interesting to all the craft who have had the conning of an exchange list, or have travelled as "comps,"—the Register gives a list of the new papers started, and the stoppages, changes in proprietorship, &c. Their list of new papers for the past month, numbers twenty; and of course they cannot have discovered all in the country.

The account we gave of the Printing Celebration in Portsmouth, is copied into their December number, to the extent of ten or eleven long columns. We commend the paper to the craft, and shall rejoice at its prosperity.

IRISH FUNERALS.—Bishop Bayley of New Jersey has addressed a letter to the Roman Catholic churches in his diocese, on the subject of the long train of carriages, which the Irish think proper to fill with their friends on the occasion of a funeral. In this letter the Bishop proclaims that no more than six carriages shall hereafter be allowed at the funeral of any deceased person in his diocese, and dwells with much severity upon the abuse and scandal the practice hitherto engendered. The letter was read in the churches at Newark, on Sunday, and some of the clergymen took the occasion to denounce unsparingly the system of Irish "wakes."

☞ A lady's saddle recently invented in New York city, enables a lady while riding, to sit with both legs hanging close together, instead of having one thrown up to an uncomfortable position, as on the common saddles. It also gives a very firm, easy and safe seat for riding at a quick speed, and provides a rest for the left leg in riding at a slow speed. It saves the horse from being injured across the loins, and on the off side of the withers, reduces the cost of manufacture, lessens the weight, gives beauty and symmetry to the saddle, and places it at a cost very little above the price of men's saddles.

Mr. Theodore Butterfield of Lowell, committed suicide Friday afternoon, by hanging himself. During the forenoon he was engaged cutting wood, and seemed to be in the enjoyment of his usual health and reason.

ONE OF THE BETS.—One of the most amusing instances of betting on the late election, which has come to light, was by a German in Chicago, who bet his house, lot, wife and baby, that Mr. Fremont would be elected. After hearing the result he took his wife and child, and made a tender of all in good faith. But his friend having a wife and five children, refused to increase his stock in that way, and therefore declined to take the poor man's family and property, but gave him a piece of advice, upon which they took a drink of beer, and parted good friends.

A DAUGHTER TO HER FATHER.—Julia Webster Appleton, the daughter of Daniel Webster, in a letter to her father sixteen years ago, thus appealed to him, on an occasion of his sickness, to return to private life:—"What is the whole country to your family, when weighed in the balance with one hour of sickness or anxiety which it causes you? I am no great patriot; I do not love Rome better than Cæsar—the advancement of party better than my own dear father."

At the recent Presidential election Mr. Samuel Currier, of South Hampton, N. H., upwards of 92 years of age, voted for Buchanan and Breckinridge. Mr. Currier voted for Washington.

Nathaniel Huntoon, of Unity, N. H., in his 93d year, went six miles and cast his vote for James Buchanan at the late election. His first vote was given for George Washington.

☞ No good farmer or gardener will ever let a weed go to seed in all his domain. Have them out! hoe them out—out with them at any cost! The barn-yard and muck-heap will be glad of them; and, when secured *green*, they are worth their weight in any kind of manure, hardly excepting guano. But when the seeds are ripe, then nothing but *fire* should be their portion.

SOLDIERS IN RED.—It is stated by Xenophon that the Spartan troops were uniformly clothed in red, by the direction of Lycurgus, in order to prevent the soldiers from perceiving their loss of blood, or the enemy from discovering their wounds. Query: is that the reason the British soldiers dress in red?

Col. Reuben Eldridge, an estimable citizen and a member of the Baptist church in South Williamstown, Mass., committed suicide a few days since, while in a state of temporary insanity produced by ill health. He leaves a wife and eight children.

☞ Potter, in his history of Manchester, says, that, two centuries ago, twice the volume of water passed in the Merrimack, during the year, that does at present.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co. c28

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized in any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus'56m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. 2w77 TuT&hS 6m.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

LAKE VILLAGE, N. H.

Dr. Wm. R. Hayden: Dear Sir,—Please send me, by return of cars, some of your pills; I think they will take very well. I have been waiting for the people to try them in this vicinity, and within a few days a number have called for them, who have tried them, and say they like them the best of any they have ever tried, in their operation, &c. WM. EAMES.

WM. R PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6d&w

Proposals for Building a Vestry.

PROPOSALS for building, by contract, a VESTRY on Court street for the South Parish, will be received until Wednesday, 24th of December next.

The Building Committee reserve the right to reject any or all of the proposals, provided they are not in accordance with their views.

Plans and specifications can be examined on application to J. F. SHORES, Jr., *Treasurer*.
Portsmouth, Nov. 29, 1856. 2w

LOST—Friday evening, between Mr. Reuben Rand's and Mr. Jefferson Norton's, on Lafayette Road—a Gentleman's SHAWL. The finder will be suitably rewarded on leaving it at the Chronicle Office. d1

NEW STYLES
Ladies' Cloths & Trimmings.

JONES & MENDUM have just received a full assortment of
Ladies Cloth, Mohair Plushes,
and Felting Cloths,
with Trimmings to match,
all of which will be offered at the lowest prices at
d1 No. 29 Market street.

MacGregor Stoves.

THE subscriber has for sale all sizes of this long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—not a dry, suffocating air, such as is often generated by coal stoves

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and examine at E. A. STEVENS,
d1 48 Market street.

J. WENTWORTH,
(Successor to A. Littlefield,)
DEALER IN
Fancy Goods, Toys, Etc.,
No. 309 WASHINGTON STREET,
BOSTON.

THE subscriber having leased the store known as "WOODFORD'S OLD STAND," and purchased the stock, consisting of Rich Fancy Goods, Toys, Games, Children's Carriages, Rocking Horses, Propellers, and all other kinds of goods appertaining to a

First Class Toy Shop;

and, with much labor and care in the selection, added greatly thereto, making it as complete and attractive a stock as possible; would respectfully invite those who hitherto patronized the establishment, as also his friends and the public generally, to an examination of the same; trusting by strict personal care and attention, to merit a continance of the support so liberally bestowed upon it during the past seventeen years.

J. WENTWORTH.

Boston, November, 1856.

Young's Patent School Slate.

A NEW article, superior to any other slate in the market. The frame is of ONE PIECE OF SOLID OAK, bent by steam, and is therefore the strongest, neatest, and most durable of any frame ever made. The slate is from the Lehigh Quarries, and the softest slate in the world.

For sale at the bookstore of
n29 JOSEPH H. FOSTER.

For Sale Dec. 15th, 1856.

A HOUSE LOT near Boiling Rock. Enquire at the Chronicle Office. n26

LOCAL.

To New Subscribers—We will furnish the Daily Chronicle from this date to Jan. 1, 1858, for $4. Or the Weekly Chronicle & Phenix for $1.

☞ We learn that a petition is in circulation among our citizens, for the purchase of the Pleasant Street Church by the City, for a Ward Room, &c. for the South Ward. We recommended this use of the building, a year or two ago; and we are confident the interests of the city — especially the South End—would be much advanced by the purchase. Ward Three has now no place to vote; and in this building, there would be ample space for a school room or anything of the sort, besides a good hall for Ward uses. We understand the lot and building can be bought for $3500—which is certainly a low price for the property. It cost about $1200, we believe; and the building is one of the most thoroughly constructed in the city.

☞ The lecture before the Mechanics' Lyceum, this week, is to be on Tuesday evening, and not on Thursday, as we announced. The lecturer is Rev. T. W Higginson—a beautiful writer and popular lecturer: his subject, Life at the Azores—which he will not fail to present in an interesting and instructive manner.

Snow.—The first snow of the season, of any account, began to fall here about noon on Saturday. We have now perhaps four inches of snow, the sleigh-bells jingled merrily on Sunday, and appearances indicate that the sleighing is to abide with us, unless the sun proves too much for it.

"Long in the Land."—There are seven sisters, with most of whom we have the pleasure and honor of an acquaintance, whose ages are worthy of note. Their ages are, respectively, (and respectfully,) 82, 68, 66, 64, 61, 57, and 51—forming an aggregate for the seven, of four hundred and fifty years. All of them have been married, though the husbands of two only are living—the oldest and the youngest but one. All of them (except herself) unite in pronouncing the oldest the handsomest—tho' as they say she is very handsome for an old lady, this leaves a chance for the rest to be passable—which they certainly are, and you wouldn't be in a hurry to pass them, either. They never had a brother, and but one sister has died. They were natives of Kittery, though most or all of them have lived elsewhere. Long may the charm of their long-unbroken circle, remain over them.

☞ The farm, stock, &c., of the late Mr. Wm. Simpson, of Greenland, is to be sold at auction on the premises, on Wednesday next at 10 o'clock. Adv. to-morrow.

New Hampshire Election.—Official returns by counties:—

	Fre.	Buch.	Fill.
Rockingham,	5914	4915	111
Strafford,	3566	2683	20
Belknap,	2062	2220	21
Carroll,	2185	2511	17
Merrimack,	4449	4730	43
Hillsborough,	7081	5326	85
Cheshire,	3910	2269	56
Sullivan,	2389	1960	19
Grafton,	4977	4551	35
Coos,	555	726	1

Fremont's plurality over Buchanan, 5700.
Over Buchanan and Fillmore, 5292.

Temperance Meeting in Taunton.—Quite a large temperance meeting was held in Taunton, Mass., on Tuesday evening last. It was stated in the meeting that there were four hundred grog shops in the place. This is probably an exaggeration. The number, however, is very large, and has been constantly increasing.

It is said that almost every Irish house is a grog shop. There seems to be considerable feeling with regard to the evil, and it is to be hoped that there will be some movement among the order loving citizens, which shall result in closing a part, at least, of the drinking houses.

It would be a capital plan to form a Cold Water Army in Taunton, and thus reach the children. We have been informed that it is no uncommon thing for the boys of the place to drink, and that too to an excess.—*Boston Tel.*

☞ Congress assembles this day, at Washington, which will be the great central point of interesting news, for the three winter months.

Albany, Nov. 28.—McCann, who has been on trial here for several days, charged with the murder of his wife, has been convicted and sentenced to be executed on the 23d of January.

Detroit, Nov. 28.—The following is the official vote of Michigan:—Fremont, 71,162; Buchanan 52,139; Fillmore, 1,561; Smith, 150.

FROM CALIFORNIA.

New York, Nov. 29.—The Illinois arrived this morning from Aspinwall, with California dates of 5th inst. She brings nearly $2,000,000 in treasure.

California has gone for Buchanan.

The Sonora left San Francisco on the 5th. The returns received up to 2 o'clock on that day foot up;

Buchanan,	14,000
Fillmore,	9,600
Fremont,	7,000

There is nothing definite concerning the Legislature.

Nearly full returns from San Francisco give Buchanan 100 over Fremont, and the latter nearly 2,700 over Fillmore.

The Republican Legislative ticket prevailed in San Francisco county, though Buchanan has about 150 majority there.

The vote in the city was less than at the State election last year. This is attributed to the *absence* of several working politicians.

The election passed off quietly.

Mrs. Lewis held—Dr. Lewis Acquitted.—The trial of the above at Manchester, for the murder of Clarissa Ann Demary, by abortion, came to a close last Wednesday evening. After a full hearing, Judge Smith decided that Mrs. Lewis should be sent to Amherst jail, to await trial at a higher court, and that Mr. Lewis should be acquitted.

From the Boston Saturday Evening Gazette.

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

Shaving Made Easy.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away whatever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

Vital Fluid 50 cents per bottle; Globules 25 cents per box.

Burr, Foster & Co., 1 Cornhill, General Agents. Weeks & Potter, 154 Washington street, and Geo. Goodwin, 99 Union street, Wholesale dealers. Mansfield & Co., 11 City wharf, Special Agents. Boston.

Sold by prominent medicine dealers generally.

For sale in Portsmouth, by Wm. R. Preston, 2 Congress Block; David Kimball, 36 Market st.; Jos. H. Thacher, corner of State and Pleasant streets. nov25

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Boston, Jan 11 1856 d1eodjy

Blankets.

A GOOD assortment at No. 15 Market street.
o1 ALBERT LAIGHTON.

Cooking Stoves.

IT is important in buying a Stove to get a good one, and there are so many new fangled ones urged upon the public, that it is no easy matter for a person who is not acquainted with the Stove business to select the best.

The subscriber would respectfully invite the attention of the public to the following Stoves, from the foundry of A. C. Barstow, Providence, R. I.—all of which he can *warrant to give satisfaction in every respect*—with wood or coal:

BAY STATE,	Patented 8 years since.	
BANNER STOVE,	" 5 "	"
LILLY DALE,	" 4 "	"
SWEET HOME,	" 2 "	"

These Stoves have been used in Portsmouth for years, and we can refer to thousands who are now using them

We have also for sale a variety of cheap Cook Stoves, and second hand Stoves—all of which will be sold cheap for cash. Please call at No. 46 Market Street and examine the Stock.

Oct. 29. E. A. STEVENS.

HAVE YOU SUBSCRIBED IN THE

Cosmopolitan Art Association
FOR THE THIRD YEAR?

SEE THE RARE INDUCEMENTS!—The management have the pleasure of announcing that the collection of Works of Art designed for distribution among the subscribers, whose names are received previous to the 28th of January, '57, is much larger and more costly than on any previous year—Among the leading works in Sculpture—executed in the finest Marble—is the new and beautiful Statue of the

"Wood Nymph,"

the Busts of the three great American Statesmen,
CLAY, WEBSTER AND CALHOUN,
Also the exquisite Ideal Bust,
"Spring."

APOLLO AND DIANA,
IN MARBLE, LIFE SIZE.

Together with the following Groups and Statues in Carrara Marble—of the
Struggle for the Heart; Psyche;
Venus and Apple; Magdalen;
Child of the Sea; Innocence;
Captive Bird; and Little Truant.

With numerous works in Bronze, and a collection of several hundred
FINE OIL PAINTINGS,
by leading Artists.

The whole of which are to be distributed or allotted among the subscribers whose names are received previous to the **Twenty-eighth of January, '57,** when the distribution will take place.

TERMS OF SUBSCRIPTION.

Every subscriber of *three dollars* is entitled to a copy of the splendid Steel Engraving, "Saturday night," or of
any of the following $3 Magazines one year; also a copy of the Art Journal one year, and a ticket in the Annual Distribution of Works of Art.

Thus, for every $3 paid, a person not only gets a beautiful Engraving or Magazine one year, but also receives the Art Journal one year, and a ticket in the Annual Distribution, making four dollars worth of reading matter besides the ticket, by which a valuable painting or piece of statuary may be received in addition.

Those who prefer magazines to the engraving, can have either Harper's, United States, Knickerbocker, Graham's or Blackwood's Magazine, Godey's Lady's Book or the Southern Literary Messenger one year.

No person is restricted to a single share. Those taking five memberships, remitting $15, are entitled to six engravings, and to six tickets in the distribution, or any five of the Magazines a year, and six tickets.

Persons, in remitting funds for membership, will please register the letter at the Post Office, to prevent loss; on receipt of which, a certificate of Membership, together with the Engraving or Magazine desired, will be forwarded to any part of the country.

For further particulars, see the November Art Journal, sent free on application.

For membership, address
C. L. DERBY, Actuary C. A. A.,
348 Broadway, New York, or Western Office, 163 Water street, Sandusky, Ohio.

EDWARD N. FULLER, Editor of N. H. Gazette, is the Agent for Portsmouth and vicinity.

AYER'S Cathartic Pills,

(SUGAR COATED.)

SEE NOTE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to cleanse from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion.*

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an invaluable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her head and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which yielded to chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtile and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and best medicine to be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not dwell more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

PREPARED BY DR. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass

Applications for Insurance received at
JACOB WEMPLE.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance on Real and Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village; 3d, or Union Class. The average assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than 1 of 1 per cent. annually on the amount insured; in the Village Class for the same time it has been at the rate of 1 per cent. annually on the amount insured. In the 3d, or Union Class, from Oct. 1846 to Jan 1856, the yearly average of assessments has been less than 1-5 of 1 per cent. on the amount insured.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft. Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices, that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *price*.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes: in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

The Stanley Coal Burner!

NOTWITHSTANDING this Stove has been in the market more than eight years, and that hundreds of new patterns have since its introduction been brought before the public, still this as a coal burner stands pre-eminent. The subscriber has sold them for the past seven years, and the sales are annually increasing, and now has in Store the various sizes, which he offers at the usual price. G. N. CARLETON,
d28 15 Daniel street.

SOUSED TRIPE for Salety
n22 LAFAYETTE LAIGHTON.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufactories."

It is now eight years since we commenced the manufacture of the new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that our means not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Dodworth, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very res'lly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	130

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,
Cor. Niagara & Maryland sts., Buffalo,
and 87 Fulton street, New York.

Agents, for the sale of our Melodeons, for Portsmouth and vicinity,

s27 7 Exchange Buildings.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for a sewing machine of our own make, or for inoperative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc.

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of fleneroun enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail, postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS Invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoas, Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."
To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ anh ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.
☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"
☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.
☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.
Boston, Aug. 19, 1856. oo16m

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty,* as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof by him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
"AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11, 1856. 3teody

Morning Chronicle.

TUESDAY, DECEMBER 2, 1856.

WASHINGTON NEWS.—The Washington dispatch to the N. Y. Herald says:

A move is on foot here to go into an election of a new Speaker on Monday, to supersede Speaker Banks. The House can, at any time change its officers, and a strong feeling exists to relieve Mr. Banks of his official position, should there be sufficient force to effect it.

It is understood now that the President will not send in his message before Tuesday.

Mr. Whitfield's case comes up in the House to-morrow, when objections will be raised immediately to his reception as a delegate from Kansas.

Gen. Whitfield *threatens* any one who charges that he has been elected by Missourians; and, should the attempt be made to reject him again, it will *combine* a sufficient force to oust Mr. Banks.

There is no doubt the result of the late Presidential and Congressional elections have greatly encouraged and emboldened the advocates of slavery in Congress. Gen. Whitfield's *threat* is in admirable keeping with that of *Douglas*, "We'll subdue you." It is also in admirable keeping with Butler, Brooks, Bludgeon & Company. It would strike us as quite appropriate, in case a majority can be mustered to oust Mr. Banks, to choose Brooks or Whitfield for Speaker.

A DEAD MAN FOUND ON THE TRACK.—Thomas Riley and two Irishmen started from Manchester, N. H., some time Tuesday night, to go north, as one said, to Suncook. They were tight as a peep, with a jug of rum by them to fill up the leaks. When they arrived as far as the House of Reformation, they took repose beside the track, as near as can be guessed. About 3 o'clock in the morning, a train came along, and it is supposed that Riley heard it and attempted to rise, and a wheel or some part of the train hit him. At any rate, the back part of his skull was broken in, and there was a bad bruise on his shoulder. One of the Irishmen came to his senses about that time, and got it through his fuddled brain somehow, that there was trouble, and so he set up a howl, and help came from a shanty near by. His knee was badly bruised, but he was so drunk that he could not tell how it happened.

The Manchester Mirror says, Riley was an Englishman, and his wife is at the County Farm, and is insane. He was brought to the Police Court Room in Manchester, Wednesday noon, and examined by Coroner Rowell and Dr. Buck, and an inquest was deemed unnecessary. He was buried in proper shape in the Cemetery the next morning. He was about 35 years old. Not a friend followed him to the grave.

GERMAN GAMING HOUSES.—Evidence of a rather corrupt social system appears in a statement made by the Journal de Francfort. The paragraph is headed "The German Gaming Houses," and gives the information that the gaming tables at Wiesbaden and Ems have passed from the hands of two individuals to a Company for the "consideration" of 1,200,000 florins; that the Company is to pay the State 250,000 florins in addition to the price of the annual lease, which is 105,000 florins, to give to the theatre of Wiesbaden each year 10,000 florins, and pay about 50,000 florins to the support of the chapel.

A DREADFUL TRAGEDY.—Mr. John B. Fairbanks, formerly one of the editors of Life Illustrated, a family journal, committed suicide Saturday morning, at the Tremont House, New York. He arose at the usual hour and took his breakfast. Soon after breakfast he went from the second floor, on which he rooms, to an unoccupied room on the fifth floor. A young lady in an adjoining apartment heard him raise a window and utter a loud groan.—She immediately looked out and saw him falling to the sidewalk. He struck upon his forehead, causing instant death. He is supposed to have been laboring under a temporary aberration of intellect.

DEATH OF A VENERABLE CLERGYMAN.—The New York Examiner announces the death of the Rev. Lewis Leonard, D. D., of Cazenovia, N. Y., at the age of 73 years. He died suddenly, while sitting in a chair. He had proposed a visit to his friends in New England the present week. His name was a household word in thousands of Christian families, who wil sincerely mourn his sudden departure from the field of his usefulness.

DEATH OF THE BLACK HAWK HORSE.—*Middebury, Vt., Dec.* 1.—The original Vermont Black Hawk horse died at Bridgeport, this morning, in David Hill's stable.

☞ Peter Parley's New Book, the Recollections of a Lifetime, in two thick volumes of over 1100 pages in all, has just issued from the press of Miller, Orton, & Mulligan, Auburn, and New York City. It is one of the most interesting books we have seen for a long time, and will undoubtedly command a great sale.

Among the interesting portions of the work, will be found nearly two hundred descriptions of distinguished persons in Europe and America, illustrated by personal anecdotes. As these are drawn from the archives of personal knowledge and observation, they are characterized by striking freshness and originality.

Although the work thus abounds in personal sketches, it is crowded with facts of a historical character. There is a vivid sketch of the state of public opinion and of public affairs in New England during the war of 1812-14; a very amusing account of a campaign made by the author as a private soldier; a statement of the origin of the "Blue Light" story; a full account of the Hartford Convention, from George Cabot, its president, down to Jemmy Lamb and the town crier, who headed a mob to serenade the members with the "Rogue's March." There is also a striking description of the French Revolution in 1848, and of the *coup d'etat* of 1852—both of which he witnessed.

PERILOUS BALLOONING.—A foreign Journal gives an account of an ascent in an air balloon, effected by M. Aubion Burnet, æronaut, in the arena of Verona. The Balloon rose with tremendous velocity to an altitude of 2200 feet, when, owing to the extreme rarefaction of the air and the bad state of the valve, which it seems could not be opened to let out the gas, the balloon burst in three distinct places. Fortunately the shreds adhered to the outer net, so as to form a kind of parachute, and the æronaut found himself descending with appalling velocity, but yet with sufficient regularity to enable him to climb up the net and arrange the flapping silk, so as to render the descent less precipitous. He then, being still at the height of about 400 feet, got again out of the car, but this time to cling to the bottom, in order to avoid the concussion, and break the violence of the landing by the elasticity of his legs. He succeeded, and landed at Santa Lucia, a place near Verona. For some minutes afterwards he was completely deaf, but this soon wore off, and he returned to Verona that same evening, with only a few slight bruises.

☞ In Boston, on Sunday noon, the funeral of a young lady, Miss Hattie Eager, took place at the residence of Mrs. D. L. Hale, in Franklin Square. The services were conducted by Rev. Mr. Winkley, and were of the usual form. In addition to these were addresses and exhortations from the spirits of departed persons, as is alleged. Among them was one from the spirit of the deceased, addressed through a medium. She frequently alluded to her own mortal remains, and in doing so pointed (by the medium) to the corpse.

SINGULAR ACCIDENT.—Between 2 and 3 o'clock on Saturday afternoon, a schooner, which had broken from her moorings in Boston harbor, drifted against the draw in Mt. Washington Avenue bridge with such force as to damage the draw to a considerable extent, knock it open, and pitch a horse and wagon into the channel. With great difficulty the horse and wagon were extricated without material injury.

INSTALLATION AT AMESBURY MILLS.—On Wednesday last, Rev. A. C. Childs, (formerly of West Falmouth) was installed as Pastor of the Congregational Church and Society in that village.

Sermon, by Rev. I. E. Dwinell, of Salem; Installing Prayer, by Dr. Withington, of Newburyport; Charge to the Pastor, by Rev. Dr. Dimnick, of Newburyport.

SECTIONAL.—Fremont's majority in New England, says the Providence Journal, will foot up about 130,000. It is easy enough to say that the whole of New England is fanatical, abolition, unpatriotic and sectional, and that South Carolina and Viginia are sound, patriotic and national; but it may not be so easy to make people accept such an explanation.

FATAL RAILROAD ACCIDENT.—A young woman named Joanna Brien, 18 years old, of Irish nativity, was killed on the Worcester Railroad, at Albion, yesterday. She attempted to step on the train while it was in motion, and lost her balance. She fell between the cars and one of them passed over her. The sad accident appears to have been the result of her own carelessness. She was standing on the platform before the train started, but waited till it moved before she attempted to get on.—*Providence Journal 27th.*

ANOTHER MURDER.—A young man, on the 11th inst., entered the office of John E. Hall, Esq., Clerk of the Circuit Court of Gallatin, Illinois, and without uttering a word, shot Mr. Hall in the back; as he turned to look at the assailant, the murderer fired another shot, laying his victim dead. The wretch was arrested, and proved to be the son of James C. Sloo, who is editor of the Shawneetown Illinoisan, a Republican Journal of the worst kind, unscrupulous in its defamations, and a common slanderer of all who do not believe in the freesoilers' creed. Mr. Hall had been the object of its brutal attacks, to which some remarks were made in a paper published in Franklin county. Young Sloo, it is supposed, imagined that these rebutters to his father's calumnies were written by Mr. Hall, and proceeded to his hellish revenge. Mr. Hall was an amiable and inoffensive man, universally esteemed in Southern Illinois. He leaves a wife and six children.—*Concord, N. H., Standard.*

The Boston Atlas says that the Shawneetown Illinoisian happens to be a Buchanan paper.

The Abbeville, S. C., Independent Press states that the negroes on the estate of the late Hon. George McDuffie, numbering about 210, have been sold to a wealthy planter for $40,000, being an average of near $700 each. It was stipulated in the sale that they should not be separated.

Suppose the wealthy planter to become poor, or to die: The creditor or the heir steps in, and seizes his share of the negroes, and then where is the stipulation?

Two vessels are about to sail for Liberia; one from Baltimore, with 200 emigrants, and the other from Boston, with the materials for the erection of a college.

Both parts of the country, unite in this work—and each contributes its appropriate offering.

☞ The Richmond Enquirer, Nov. 12, says: "Western Europe is ruined, but by a rapid increase and extension of African slavery, may revive some ten years hence. Our North is following a suicidal example. Let her beware of the consequences."

☞ Ebenezer Shillaber, Esq., of Biddeford, was found on Saturday, dead, lying on the bed. He had strangled himself by tying a handkerchief tight around his neck, and then inserted a stick into it, and compressed the neck until strangulation was produced. No reason is known for the commission of the act.

☞ Col. Benton has accepted an invitation extended to him by the Mechanic Apprentices' Library Association of Boston to repeat his Discourse on the Union on the 15th of December. The whole proceeds of the Lecture will be given to the Library of the Association.

Mrs. Sophia B. Smith, wife of Rev. William S. Smith, of Southford, Connecticut, while milking on Thanksgiving morning, fell backwards insensible, in which state she remained for two or three hours, when she expired. Her age was 54 years.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by druggists everywhere, and at my office, No. 51 Hanover St., Boston. ap8 6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuT&hS 6m.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

LAKE VILLAGE, N. H.

Dr. Wm. R. Hayden: Dear Sir,—Please send me, by return of cars, some of your pills; I think they will take very well. I have been waiting for the people to try them in this vicinity, and within a few days a number have called for them, who have tried them, and say they like them the best of any they have ever tried, in their operation, &c. WM. EAMES.

J. WENTWORTH,
(Successor to A. Littlefield,)
DEALER IN
Fancy Goods, Toys, Etc.,
No. 309 WASHINGTON STREET,
BOSTON.

THE subscriber having leased the store known as "WOODFORD'S OLD STAND," and purchased the stock, consisting of Rich Fancy Goods, Toys, Games, Children's Carriages, Rocking Horses, Propellers, and all other kinds of goods appertaining to a

First Class Toy Shop;

and, with much labor and care in the selection, added greatly thereto, making it as complete and attractive a stock as possible; would respectfully invite those who hitherto patronized the establishment, as also his friends and the public generally, to an examination of the same; trusting by strict personal care and attention, to merit a continuance of the support so liberally bestowed upon it during the past seventeen years.

J. WENTWORTH.
Boston, November, 1856.

MacGregor Stoves.

THE subscriber has for sale all sizes of this long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—no a dry, suffocating air, such as is often generated by coal stoves

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and examine at E. A. STEVENS,
d1 46 Market street.

For Sale Dec. 15th, 1856.

A HOUSE LOT near Boiling Rock. Enquire at the Chronicle Office. n26

LOCAL.

POLICE COURT.—MONDAY, DEC. 1.

Before Justice Odell.—Matthew Johnson was accused of selling one pint of spirituous liquor, on Sunday, Nov. 23, to a man who got drunk and made a disturbance. This man betrayed the seller, Johnson, who was bound over to the S. J. Court for trial.

GIRLS HIGH SCHOOL, MONDAY MORN.—*Messrs. Editors:*—Just now, passing our beautiful, almost monumental High School a friend invited me in, and introduced me to a royally fine *print*, in a delicate beautiful gilt frame, the gift to the girls' room, of Mrs. Helen E. Brown, Brooklyn, N. Y. The picture is entitled "Gloria Patri."

Ten fine figures, five male and five female figures; old men and children, a most judicious selection, both as a work of art, and a *moral study*, fill the circle. The act of prayer is more beautifully expressed than art generally can do. A note accompanied and introduced the gift, so choice and beautiful in its expression as as to divide our admiration between the exquisite picture and this its affectionately graceful setting.

A few words we must copy: "Pictures have always where a pure and good subject is represented, a refining and educating influence. So while this shall quietly speak to you from day to day, and month to month, may it teach you not only to recognize, love and aspire to the power which can thus express a lofty and pure idea, and may its subject penetrate the soul."

To one, who from the dedication of this building, has longed to see the walls adorned by some works of art, this grand beginning is most gratifying. Who will place a mate to this choice model? Who cannot spare something towayd a *study* for one hundred and ninety young minds daily gazing on it? W.

CITY MISSIONARY'S REPORT.—The Universalist Church was well filled on Sunday evening last, to hear the report of Rev. N. Medbery, our City Missionary. Rev. Dr. Peabody, Rev. S. Holman, Rev. A. J. Patterson and Rev. Mr. Medbery were in the pulpit.

After the report, which was short and interesting, short speeches were made by Drs. Peabody and Lamson, Rev. Messrs. Holman and Patterson, and Hon. H. D. Walker, Hon. I. Goodwin, and Hon. R. Jenness.

The Missionary stated that there are 4000 Protestants in this city who have no connection with any church, and advocated the moral cultivation and religious instruction of the rising generation, as a remedy for this.

EASTERN RAILROAD.—The net earnings of the Eastern Railroad for five months ending October 31, were $169,042 89, against $145,731 71 in corresponding months of 1855—a gain of $23,311 18.—The company has cash on hand to meet the income bonds due December 1, amounting to $75,000, and the interest on other bonds amounting to $20,000.

☞ The Mechanics' Lyceum Lecture this evening, at the Temple, is to be by Rev. T. W. Higginson, on The Azores. Mr. Higginson has spent some months at these islands, and will give an interesting lecture.

☞ Hon. George W. Kittredge has been nominated for Congress by the Democratic party of the First District in New Hampshire.

TO NEW SUBSCRIBERS—We will furnish the Daily Chronicle from this date to Jan. 1, 1858, for $4. Or the Weekly Chronicle & Phenix for $1.

FIRE—PROBARLY ARSON.—About midnight, on Monday, quite a lively alarm was raised, and with it some doubts as to whether or no there was any fire at all. It proved to be the new house on Islington street, fronting Cass street, owned and occupied by Mr Herman Remick. The fire was in the east end of the building, and the damage by fire and water was considerable. It is supposed to have been set, by opening the cellar window and thrusting in a mass of shavings; Mr. R. having searched the house but a few minutes previously, to quiet the fears of his wife, who fancied she heard some one attempting to enter, and seen no one. Engine No. 5 had the honor to be the first on the ground, and to quench the flames. Insured in the Home Ins. Co., of N. Y., J. S. Harvey & Son, Agents.

FATAL ACCIDENT.—Henry Lane, a brakeman on the Dedham Branch Railroad, fell from one of the inward bound freight cars at Readville on Saturday afternoon, and being run over by the train was instantly killed. The deceased was about 25 years of age. The body was taken to his late residence in Boston.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

The Mustang Liniment cures Rheumatism;
The Mustang Liniment cures Stiff Joints;
The Mustang Liniment cures Burns & Wounds;
The Mustang Liniment cures Sores & Ulcers;
The Mustang Liniment cures Caked Breasts & Sore Nipples;
The Mustang Liniment cures Neuralgia;
The Mustang Liniment cures Corns & Warts;

Book Buyers and Agents, Read This!

PETER PARLEY AGAIN IN THE FIELD.

RECOLLECTIONS OF A LIFETIME,

or Men and Things
I have seen in Europe and America.

BY S. G. GOODRICH, the real Peter Parley, author of the History of All Nations—the best Agents' book ever published—and of **170** other volumes! of which **seven millions have been sold.**

In two large 12mo. volumes, 1,105 pages, 25 original Engravings, including an accurate steel portrait of the author; Black or Scarlet Cloth. $3.

This magnificent work is the result of

THE AUTHOR'S LIFE-LONG LABOR,

and contains more valuable, instructive, original, curious, and important personal incident, anecdote, and description, than was probably ever before embodied in a single work.

MILLIONS OF READERS

have eagerly sought the author's former works, and

OTHER MILLIONS

will buy this, which is emphatically

THE BOOK OF THE AGE!

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away whatever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood,

that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

HAVE YOU SUBSCRIBED IN THE

Cosmopolitan Art Association

FOR THE THIRD YEAR?

SEE THE RARE INDUCEMENTS!—The managemen have the pleasure of announcing that the collection of Works of Art designed for distribution among the subscribers, whose names are received previous to the 28th of January, '57, is much larger and more costly than on any previous year.—Among the leading works in Sculpture—executed in the finest Marble—is the new and beautiful Statue of the

"Wood Nymph,"

the Busts of the three great American Statesmen,
CLAY, WEBSTER AND CALHOUN,
Also the exquisite Ideal Bust,
"Spring."
APOLLO AND DIANA.
IN MARBLE, LIFE SIZE.

Together with the following Groups and Statues in Carrara Marble—of the
Struggle for the Heart; Psyche;
Venus and Apple; Magdalen;
Child of the Sea; Innocence;
Captive Bird; and Little Truant.

With numerous works in Bronze, and a collection of several hundred
FINE OIL PAINTINGS,
by leading Artists.

The whole of which are to be distributed or allotted among the subscribers whose names are received previous to the **Twenty-eighth of January, '57,** when the distribution will take place.

TERMS OF SUBSCRIPTION.

Every subscriber of *three dollars* is entitled to a copy of the splendid Steel Engraving, "Saturday night," or of
any of the following $3 Magazines one year; also a copy of the Art Journal one year, and a ticket in the Annual Distribution of Works of Art.

Thus, for every $3 paid, a person not only gets a beautiful Engraving or Magazine one year, but also receives the Art Journal one year, and a ticket in the Annual Distribution, making four dollars worth of reading matter besides the ticket, by which a valuable painting or piece of statuary may be received in addition.

Those who prefer magazines to the engraving, can have either Harper's, United States, Knickerbocker, Graham's or Blackwood's Magazine, Godey's Lady's Book or the Southern Literary Messenger one year.

No person is restricted to a single share. Those taking five memberships, remitting $15, are entitled to six engravings, and to six tickets in the distribution, or any five of the Magazines a year, and six tickets.

Persons, in remitting funds for membership, will please register the letter at the Post Office, to prevent loss; on receipt of which, a certificate of Membership, together with the Engraving or Magazine desired, will be forwarded to any part of the country.

For further particulars, see the November Art Journal, sent free on application.

For membership, address
C. L. DERBY, Actuary C. A. A.,
348 Broadway, New York, or Western Office, 163 Water street, Sandusky, Ohio.

EDWARD N. FULLER, Editor of N. H. Gazette, is the Agent for Portsmouth and vicinity.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BEMIDJEE, MASS., 29th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. S. MOUTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scarcely pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HILAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, Ia., writes, 31 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your medicine, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE Co., Iowa, writes, Sept. 8, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases & this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months in the last stage of dangerous symptoms of Consumption, from which no skill We could procure gave her much relief. She was steadily sinking until Dr. Strong, of this city, whom we have come for advice, recommended a trial of your medicine. Needless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness to the merits of its virtues. — *Philadelphia Ledger.*

Ayer's Cathartic Pills,

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win renown unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their peculiar curating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent Clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Bilious and Chronic Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

STOVES! STOVES!

Frank Jones' Improved

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *price*.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of store for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

The Stanley Coal Burner!

NOTWITHSTANDING this Stove has been in the market more than eight years, and that hundreds of new patterns have since been introduced, still this, as a coal burner, stands pre eminent. The subscriber has sold them for the past seven years, and the sales are annually increasing, and now has in Store the various sizes, which he offers at the usual price.

SOUSED TRIPE for Sale by
n22 LAFAYETTE LAIGHTON.

Prince & Co.'s

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINE THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doet, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very truly, JAMES E. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....150

IN PIANO CASE:

Five octave Melodeon, from F to F.....$100
Six octave Melodeon, " F to F.....130
Five octave, double reed, " F to F.....150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds.....350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,

s27 7 Exchange Buildings.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable and complete in contrivance and workmanship. A specimen of another machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a trail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to be long substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for manufacturers, are best also for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age."

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,
Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc.

THIS National History, written by an accomplished American author, and favorably and beautifully illustrated by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Gertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Text Book for American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may convert its instructive records, and kindle hispatriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of fervent enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Sole Agents for the United States and Canada, I. C. BALDWIN & CO., Rochester, N.Y.
TUTTLE & MOSES, Auburn, N. Y., General Agents.

Pants, Vests, Bosoms, and Collars so grand, Coats, Shirts, Neck Cloths and Gloves, all fitt to hand.— All sizes and patterns you'll surely here find, With prices *so low* as to be suited to mind. When Summer's bright day and Sol's sultry heat, (More potent than wind) shall prompt thy retreat, Call then at FITTS'S, where you will find Thin Garments, all sizes, of every kind.

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoas, Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."
To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.
☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"
☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate
☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.
Boston, Aug. 19, 1856. oo6m

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof by him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11 1856 d1eodjy

WEDNESDAY, DECEMBER 3, 1856.

PRESIDENT'S MESSAGE.

Fellow-citizens of the Senate and of the House of Representatives:

The Constitution requires that the President shall, from time to time, not only recommend to the consideration of Congress such measures as he may judge necessary and expedient, but also that he shall give information to them of the state of the Union. To do this fully involves exposition of all matters in the actual condition of the country, domestic or foreign, which essentially concern the general welfare. While performing his constitutional duty in this respect, the President does not speak merely to express personal convictions, but as the executive minister of the government, enabled by his position, and called upon by his official obligations, to scan with an impartial eye the interests of the whole, and of every part of the United States.

Of the condition of the domestic interests of the Union, its agriculture, mines, manufactures, navigation and commerce, it is necessary only to say that the internal prosperity of the country, its continuous and steady advancement in wealth and population, and in private as well as public well-being, attest the wisdom of our institutions, and the predominant spirit of intelligence and patriotism, which, notwithstanding occasional irregularities of opinion or action resulting from popular freedom, has distinguished and characterized the people of America.

In the brief interval between the termination of the last and the commencement of the present session of Congress, the public mind has been occupied with the care of selecting, for another constitutional term, the President and Vice President of the United States.

The determination of the persons, who are of right, or contingently, to preside over the administration of the government, is, under our system, committed to the States and the people. We appeal to them, by their voice pronounced in the forms of law, to call whomsoever they will to the high post of Chief Magistrate.

And thus it is that as the senators represent the respective States of the Union, and the members of the House of Representatives the several constituencies of each State, so the President represents the aggregate population of the United States. Their election of him is the explicit and solemn act of the sole sovereign authority of the Union.

It is impossible to misapprehend the great principles, which, by their recent political action, the people of the United States have sanctioned and announced.

They have asserted the constitutional equality of each and all of the States of the Union as States; they have affirmed the constitutional equality of each and all of the citizens of the United States as citizens, whatever their religion, whatever their birth, or their residence; they have maintained the inviolability of the constitutional rights of the different sections of the Union; and they have proclaimed their devoted and unalterable attachment to the Union and to the constitution, as objects of interest superior to all subjects of local or sectional controversy, as the safeguard of the rights of all, as the spirit and the essence of the liberty, peace and greatness of the Republic.

In doing this, they have, at the same time, emphatically condemned the idea of organizing in these United States mere geographical parties; of marshalling in hostile array towards each other the different parts of the country, North or South, East or West.

Schemes of this nature, fraught with incalculable mischief, and which the considerate sense of the people has rejected, could have had countenance in no part of the country, had they not been disguised by suggestions plausible in appearance, acting upon an excited state of the public mind, induced by causes temporary in their character, and it is to be hoped transient in their influence.

Perfect liberty of association for political objects, and the widest scope of discussion, are the received and ordinary conditions of government in our country. Our institutions, framed in the spirit of confidence in the intelligence and integrity of the people, do not forbid citizens either individually or associated together, to attack by writing, speech, or any other methods short of physical force, the Constitution and the very existence of the Union. Under the shelter of this great liberty, and protected by the laws and usages of the government they assail, associations have been formed, in some of the States, of individuals, who, pretending to seek only to prevent the spread of the institution of slavery into the present or future inchoate States of the Union, are really inflamed with desire to change the domestic institutions of existing States. To accomplish their objects, they dedicate themselves to the odious task of depreciating the government organization which stands in their way, and of calumniating, with indiscriminate invective, not only the citizens of particular States, with whose laws they find fault, but all others of their fellow citizens throughout the country, who do not participate with them in their assaults upon the Constitution, framed and adopted by our fathers, and claiming for the privileges it has secured, and the blessings it has conferred, the steady support and grateful reverence of their children. They seek an object which they well know to be a revolutionary one. They are perfectly aware that the change in the relative condition of the white and black races in the slaveholding States, which they would promote, is beyond their lawful authority; that to them it is a foreign object; that it cannot be effected by any peaceful instrumentality of theirs; that for them, and the States of which they are citizens, the only path to its accomplishment is through burning cities, and ravaged fields, and slaughtered populations, and all there is most terrible in foreign, complicated with civil and servile war; and that the first step in the attempt is the forcible disruption of a country embracing in its broad bosom a degree of liberty, and an amount of individual and public prosperity, to which there is no parallel in history, and substituting in its place hostile governments, driven at once and inevitably into mutual devastation and fratricidal carnage, transforming the now peaceful and felicitous brotherhood into a vast permanent camp of armed men like the rival monarchies of Europe and Asia. Well knowing that such, and such only, are the means and consequences of their plans and purposes, they endeavor to prepare the people of the United States for civil war by doing every thing in their power to deprive the Constitution and the laws of moral authority, and to undermine the fabric of the Union by appeals to passion and sectional prejudice, by indoctrinating its people with reciprocal hatred, and by educating them to stand face to face as enemies, rather than shoulder to shoulder as friends.

It is by the agency of such unwarrantable interference, foreign and domestic, that the minds of many, otherwise good citizens, have been so inflamed into the passionate condemnation of the domestic institutions of the southern States, as at length to pass insensibly to almost equally passionate hostility towards their fellow-citizens of those States, and thus finally to fall into temporary fellowship with the avowed and active enemies of the Constitution. Ardently attached to liberty in the abstract, they do not stop to consider practically how the objects they would attain can be accomplished, nor to reflect that, even if the evil were as great as they deem it, they have no remedy to apply, and that it can be only aggravated by their violence and unconstitutional action. A question, which is one of the most difficult of all the problems of social institution, political economy and statesmanship, they treat with unreasoning intemperance of thought and language. Extremes beget extremes. Violent attack from the North finds its inevitable consequence in the growth of a spirit of angry defiance at the South. Thus in the progress of events we had reached that consummation, which the voice of the people has now so pointedly rebuked of the attempt, of a portion of the States, by a sectional organization and movement, to usurp the control of the government of the United States.

I confidently believe that the great body of those, who inconsiderately took this fatal step, are sincerely attached to the Constitution and the Union. They would, upon deliberation, shrink with unaffected horror from any conscious act of disunion or civil war. But they have entered into a path, which leads nowhere, unless it be to civil war and disunion, and which has no other possible outlet. They have proceeded thus far in that direction in consequence of the successive stages of their progress having consisted of a series of secondary issues, each of which professed to be confined within constitutional and peaceful limits, but which attempted indirectly what few men were willing to do directly, that is, to act aggressively against the constitutional rights of nearly one-half of the thirty-one States.

In the long series of acts of indirect aggression, the first was the strenuous agitation, by citizens of the northern States, in Congress and out of it, of the question of negro emancipation in the southern States.

The second step in this path of evil consisted of acts of the people of the northern States, and in several instances of their governments, aimed to facilitate the escape of persons held to service in the southern States, and to prevent their extradition when reclaimed according to law and in virtue of express provisions of the Constitution. To promote this object, legislative enactments and other means were adopted to take away or defeat rights, which the Constitution solemnly guaranteed. In order to nullify the then existing act of Congress concerning the extradition of fugitives from service, laws were enacted in many states, forbidding their officers, under the severest penalties, to participate in the execution of any act of Congress whatever.

In this way that system of harmonious co-operation between the authorities of the United States and of the several states, for the maintenance of their common institutions, which existed in the early years of the Republic, was destroyed; conflicts of jurisdiction came to be frequent; and Congress found itself compelled, for the support of the Constitution, and the vindication of its power, to authorize the appointment of new officers charged with the execution of its acts, as if they and the officers of the States were the ministers, respectively, of foreign governments in a state of mutual hostility, rather than the fellow magistrates of a common country, peacefully subsisting under the protection of one well-constituted Union. Thus here, also, aggression was followed by reaction; and the attacks upon the Constitution at this point did but serve to raise up new barriers for its defence and security.

The third stage of this unhappy sectional controversy was in connexion with the organization of territorial governments, and the admission of new states into the Union. When it was proposed to admit the state of Maine, by separation of territory from that of Massachusetts, and the state of Missouri, formed of a portion of the territory ceded by France to the United States, representatives in Congress objected to the admission of the latter, unless with conditions suited to particular views of public policy. The imposition of such a condition was successfully resisted. But, at the same period, the question was presented of imposing restrictions upon the residue of the territory ceded by France. The question was, for the time, disposed of by the adoption of a geographical line of limitation.

In this connexion it should not be forgotten that France, of her own accord, resolved, for considerations of the most far-sighted sagacity, to cede Louisiana to the United States, and that accession was accepted by the United States, the latter expressly engaging that "the inhabitants of the ceded territory shall be incorporated in the Union of the United States, and admitted as soon as possible, according to the principles of the Federal Constitution, to the enjoyment of all the rights, advantages, and immunities of citizens of the United States; and in the meantime they shall be maintained and protected in the free enjoyment of their *liberty, property*, and the religion which they profess"—that is to say, while it remains in a territorial condition, its inhabitants are maintained and protected in the free enjoyment of their liberty and property, with a right then to pass into the condition of States on a footing of perfect equality with the original States.

The enactment, which established the restrictive geographical line, was acquiesced in rather than approved by the States of the Union. It stood on the statute-book, however, for a number of years; and the people of the respective States acquiesced in the re-enactment of the principle as applied to the state of Texas; and it was proposed to acquiesce in its further application to the territory acquired by the United States from Mexico. But this proposition was successfully resisted by the representatives from the northern states, who, regardless of the statute line, insisted upon applying restriction to the new territory generally, whether lying north or south of it, thereby repealing it as a legislative compromise, and, on the part of the North, persistently violating the compact, if compact there was.

Thereupon this enactment ceased to have binding virtue in any sense, whether as respects the North or the South; and so in effect it was treated on the occasion of the admission of the State of California, and the organization of the Territories of New Mexico, Utah, and Washington.

Such was the state of this question, when the time arrived for the organization of the Territories of Kansas and Nebraska. In the progress of constitutional inquiry and reflection, it had now at length come to be seen clearly that Congress does not possess constitutional power to impose restrictions of this character upon any present or future state of the Union. In a long series of decisions, on the fullest argument, and after the most deliberate consideration, the Supreme Court of the United States had finally determined this point, in every form under which the question could arise, whether as affecting public or private rights—in questions of the public domain, of religion, of navigation, and of servitude.

The several States of the Union are, by force of the Constitution, co-equal in domestic legislative power. Congress cannot change a law of domestic relation in the state of Maine; no more can it in the state of Missouri. Any statute which proposes to do this is a mere nullity; it takes away no right, it confers none. If it remains on the statute-book unrepealed, it remains there only as a monument of error, and a beacon of warning to the legislator and the statesman. To repeal it will be only to remove imperfection from the statutes, without affecting, either in the sense of permission or of prohibition, the action of the States, or of their citizens.

Still, when the nominal restriction of this nature, already a dead letter in law, was in terms repealed by the last Congress, in a clause of the act organizing the Territories of Kansas and Nebraska, that repeal was made the occasion of a wide-spread and dangerous agitation.

It was alleged that the original enactment being a compact of perpetual moral obligation, its repeal constituted an odious breach of faith.

An act of Congress, while it remains unrepealed, more especially if it be constitutionally valid in the judgement of those public functionaries whose duty it is to pronounce on that point, is undoubtedly binding on the conscience of each good citizen of the Republic. But in what sense can it be asserted that the enactment in question was invested with perpetuity and entitled to the respect of a solemn compact? Between whom was the compact? No distinct contending powers of the government, no separate sections of the Union, treating as such, entered into treaty stipulations on the subject. It was a mere clause of an act of Congress, and like any other controverted matter of legislation, received its final shape and was passed by compromise of the conflicting opinions or sentiments of the members of Congress. But if it had moral authority over men's consciences, to whom did this authority attach? Not to those of the North, who had repeatedly refused to confirm it by extension, and who had zealously striven to establish other and incompatible regulations upon the subject.—And if, as it thus appears, the supposed compact had no obligatory force as to the North, of course it could not have had any as to the South, for all such compacts must be mutual and of reciprocal obligation.

It has not unfrequently happened that lawgivers, with undue estimation of the value of the law they give, or in view of imparting to it peculiar strength, make it perpetual in terms; but they cannot thus bind the conscience, the judgment, and the will of those who may succeed them, invested with similar responsibilities, and clothed with equal authority. More careful investigation may prove the law to be unsound in principle. Experience may show it to be imperfect in detail and impracticable in execution. And then both reason and right combine not merely to justify, but to require its repeal.

The Constitution, supreme as it is over all the departments of the government, legislative, executive, and judicial, is open to amendment by its very terms; and Congress or the States may, in their discretion, propose amendment to it, solemn compact though it in truth is between the sovereign States of the Union.—In the present instance, a political enactment, which had ceased to have legal power or authority of any kind, was repealed. The position assumed, that Congress had no moral right to enact such repeal, was strange enough, and singularly so in view of the fact that the argument came from those who openly refused obedience to existing laws of the land, having the same popular designation and quality as compromise acts—nay, more, who unequivocally disregarded and condemned the most positive and obligatory injunctions of the Constitution itself, and sought, by every means within their reach, to deprive a portion of their fellow citizens of the equal enjoyment of those rights and privileges guarantied alike to all by the fundamental compact of our Union.

This argument against the repeal of the statute line in question, was accompanied by by another of congenial character, and equally with the former destitute of foundation in reason and truth. It was imputed that the measure originated in the conception of extending the limits of slave-labor beyond those previously assigned to it, and that such was its natural as well as intended effect; and these baseless assumptions were made in the northern States, the ground of unceasing assault upon constitutional right.

The repeal in terms of a statute, which was already obsolete, and also null for unconstitutionality, could have no influence to obstruct or to promote the propagation of conflicting views of political or social institution. When the act organizing the Territories of Kansas and Nebraska was passed, the inherent effect upon that portion of the public domain thus opened to legal settlement, was to admit settlers from all the States of the Union alike, each with his convictions of public policy and private interest, there to found in their discretion, subject to such limitations as the Constitution and acts of Congress might prescribe, new States, hereafter to be admitted into the Union. It was a free field, open alike to all, whether the statute line of assumed restriction were repealed or not. That repeal did not open to free competition of the diverse opinions and domestic institutions a field, which, without such repeal, would have been closed against them: it found that field of competition already opened, in fact and in law. All the repeal did was to relieve the statute-book of an objectionable enactment, unconstitutional in effect, and injurious in terms to a large portion of the States.

Is it the fact, that, in all the unsettled regions of the United States, if emigration be left free to act in this respect for itself, without legal prohibitions on either side, slave-labor will spontaneously go everywhere, in preference to free labor? Is it the fact, that the peculiar domestic institutions of the southern States possess relatively so much of vigor, that, wheresoever an avenue is freely open to all the world, they will penetrate to the exclusion of those of the northern States? Is it the fact, that the former enjoy, compared with the latter, such irresistibly superior vitality, independent of climate, soil, and all other accidental circumstances, as to be able to produce the supposed result, in spite of the assumed moral and natural obstacles to its accomplishment, and of the more numerous population of the northern States?

The argument of those, who advocate the enactment of new laws of restriction, and condemn the repeal of old ones, in effect avers that their particular views of government have no self-extending or self-sustaining power of their own, and will go nowhere unless forced by act of Congress. And if Congress do but pause for a moment in the policy of stern coercion; if it venture to try the experiment of leaving men to judge for themselves what institutions will best suit them; if it be not strained up to perpetual legislative exertion on this point; if Congress proceed thus to act in the very spirit of liberty, it is at once charged with aiming to extend slave labor into all the new territories of the United States.

Of course, these imputations on the intentions of Congress in this respect, conceived as they were in prejudice, and disseminated in passion, are utterly destitute of any justification in the nature of things, and contrary to all the fundamental doctrines and principles of civil liberty and self government.

While therefore, in general, the people of the northern States have never, at any time, arrogated for the federal government the power to interfere directly with the domestic condition of persons in the southern States, but on the contrary have disavowed all such intentions, and have shrunk from conspicuous affiliation with those few who pursue their fanatical objects avowedly through the contemplated means of revolutionary change of the government, and with acceptance of the necessary consequences—a civil and servile war—yet many citizens have suffered themselves to be drawn into one evanescent political issue of agitation after another, appertaining to the same set of opinions, and which subsided as rapidly as they arose when it came to be seen, as it uniformly did, that they were incompatible with the compacts of the Constitution and the existence of the Union. Thus, when the acts of some of the States to nullify the existing extradition law imposed upon Congress the duty of passing a new one, the country was invited by agitators to enter into party organization for its repeal; but that agitation speedily ceased by reason of the impracticability of its object. So, when the statute restriction upon the institutions of new States, by a geographical line, had been repealed, the country was urged to demand its restoration, and that project also died almost with its birth. Then followed the cry of alarm from the North against impated southern encroachments; which cry sprang in reality from the spirit of revolutionary attack on the domestic institutions of the South, and, after a troubled existence of a few months, has been rebuked by the voice of a patriotic people.

Of this last agitation, one lamentable feature was, that it was carried on at the immediate expense of the peace and happiness of the people of the Territory of Kansas. That was made the battle field, not so much of opposing factions or interests within itself, as of the conflicting passions of the whole people of the United States. Revolutionary disorder in Kansas had its origin in projects of intervention, deliberately arranged by certain members of that Congress, which enacted the law for the organization of the Territory.

And when propagandist colonization of Kansas had thus been undertaken in one section of the Union, for the systematic promotion of its peculiar views of policy, there ensued, as a matter of course, a counter-action with opposite views, in other sections of the Union.

In consequence of these and other incidents, many acts of disorder it is undeniable, have been perpetrated in Kansas, to the occasional interruption, rather than the permanent suspension, of regular government.—Aggressive and most reprehensible incursions into the Territory were undertaken, both in the North and the South, and entered it on its northern border by the way of Iowa, as well as on the eastern by way of Missouri; and there has existed within it a state of insurrection against the constituted authorities, not without countenance from inconsiderate persons in each of the great sections of the Union. But the difficulties in that Territory have been extravagantly exaggerated for purposes of political agitation elsewhere. The number and gravity of the acts of violence have been magnified partly by statements entirely untrue, and partly by reiterated accounts of the same rumors or facts.—Thus the Territory has been seemingly filled with extreme violence, when the whole amount of such acts has not been greater than what occasionally passes before us in single cities to the regret of all good citizens, but without being regarded as of general or permanent political consequence.

Imputed irregularities in the elections had in Kansas, like occasional irregularities of the same description in the States, were beyond the sphere of action of the Executive. But incidents of actual violence or of organized obstruction of law, pertinaciously renewed from time to time, have been met as they occurred, by such means as were available and as the circumstances required; and nothing of this character now remains to affect the general peace of the Union. The attempt of a part of the inhabitants of the Territory to erect a revolutionary government, though sedulously encouraged and supplied with pecuniary aid from active agents of disorder in some of the States, has completely failed. Bodies of armed men, foreign to the Territory, have been prevented from entering or compelled to leave it.—Predatory bands, engaged in acts of rapine, under cover of the existing political disturbances, have been arrested or dispersed. And every well disposed person is now enabled once more to devote himself in peace to the pursuits of prosperous industry, for the prosecution of which he undertook to participate in the settlement of the Territory.

It affords me unmingled satisfaction thus to announce the peaceful condition of things in Kansas, especially considering the means to which it was necessary to have recourse for the attainment of the end, namely, the employment of a part of the military force of the United States. The withdrawal of that force from its proper duty of defending the country against foreign foes or the savages of the frontier, to employ it for the suppression of domestic insurrection, is, when the exigency occurs, a matter of the most earnest solicitude. On this occasion of imperative necessity it has been done with the best results, and my satisfaction in the attainment of such results by such means is greatly enhanced by the consideration, that, through the wisdom and energy of the present Executive of Kansas, and the prudence, firmness and vigilance of the military officers on duty there, tranquility has been restored without one drop of blood having been shed in its accomplishment by the forces of the United States.

The restoration of comparative tranquility in that Territory furnishes the means of observing calmly, and appreciating at their just value, the events which have occurred there, and the discussions of which the government of the Territory has been the subject.

We perceive that controversy concerning its future domestic institutions was inevitable; that no human prudence, no form of legislation, no wisdom on the part of Congress, could have prevented this.

It is idle to suppose that the particular provisions of their organic law were the cause of agitation. Those provisions were but the occasion, or the pretext of an agitation, which was inherent in the nature of things. Congress legislated upon the subject in such terms as were most consonant with the principle of popular sovereignty which underlies our government. It could not have legislated otherwise without doing violence to another great principle of our institutions, the imprescriptible right of equality of the several States.

We perceive, also, that sectional interests and party passions, have been the great impediment to the salutary operation of the organic principles adopted, and the chief cause of the successive disturbances in Kansas.—The assumption that, because in the organization of the Territories of Nebraska and Kansas, Congress abstained from imposing restraints upon them to which certain other Territories had been subject, therefore disorders occurred in the latter Territory, is emphatically contradicted by the fact that none have occurred in the former. Those disorders were not the consequence, in Kansas, of the freedom of self government conceded to that Territory by Congress, but of unjust interference on the part of persons not inhabitants of the Territory. Such interference wherever it has exhibited itself, by acts of insurrectionary character, or of obstruction to processes of law, has been repelled or suppressed, by all the means which the Constitution and the laws place in the hands of the Executive.

In those parts of the United States where, by reason of the inflamed state of the public mind, false rumors and misrepresentations have the greatest currency, it has been assumed that it was the duty of the Executive not only to suppress insurrectionary movements in Kansas, but also to see to the regularity of local elections. It needs little argument to show that the President has no such power. All government in the United States rests substantially upon popular election. The freedom of elections is liable to be impaired by the intrusion of unlawful votes, or the exclusion of lawful ones, by improper influences, by violence, or by fraud. But the people of the United States are themselves the all sufficient guardians of their own rights, and to suppose that they will not remedy, in due season, any such incidents of civil freedom, is to suppose them to have ceased to be capable of self-government. The President of the United States has not power to interpose in elections, to see to their freedom, to canvass their votes, or to pass upon their legality in the Territories any more than in the States. If he had such power the government might be republican in form, but it would be a monarchy in fact; and if he had undertaken to exercise it in the case of Kansas, he would have been justly subject to the charge of usurpation, and of violation of the dearest rights of the people of the United States.

Unwise laws, equally with irregularities at elections, are, in periods of great excitement, the occasional incidents of even the freest and best political institutions. But all experience demonstrates that in a country like ours, where the right of self constitution exists in the completest form, the attempt to remedy unwise legislation by resort to revolution, is totally out of place; inasmuch as existing legal institutions afford more prompt and efficacious means for the redress of wrong.

I confidently trust that now, when the peaceful condition of Kansas affords opportunity for calm reflection and wise legislation, either the legislative assembly of the Territory, or Congress, will see that no act shall remain on its statute book violative of the provisions of the Constitution, or subversive of the great objects for which that was ordained and established, and will take all other necessary steps to assure to its inhabitants the enjoyment, without obstruction or abridgment, of all the constitutional rights, privileges, and immunities of citizens of the United States, as contemplated by the organic law of the Territory.

Full information in relation to recent events in this Territory will be found in the documents communicated herewith from the Departments of State and War.

I refer you to the report of the Secretary of the Treasury for particular information concerning the financial condition of the government, and the various branches of the public service connected with the Treasury Department.

During the last fiscal year the receipts from customs were, for the first time, more than sixty-four million dollars, and from all sources, seventy-three million nine hundred and eighteen thousand one hundred and forty-one dollars; which, with the balance on hand up to the 1st of July, 1855, made the total resources of the year to amount to ninety-two million eight hundred and fifty thousand one hundred and seventeen dollars. The expenditures, including three million dollars in execution of the treaty with Mexico, and excluding sums paid on account of the public debt, amounted to sixty million one hundred and seventy-two thousand four hundred and one dollars; and, including the latter, to seventy-two million nine hundred and forty-eight thousand seven hundred and ninety two dollars, the payment on this account having amounted to twelve million seven hundred and seventy six thousand three hundred and ninety dollars.

On the 4th of March, 1853, the amount of the public debt was sixty-nine million one hundred and twenty-nine thousand nine hundred and thirty-seven dollars. There was a subsequent increase of two million seven hundred and fifty thousand dollars for the debt of Texas—making a total of seventy-one million eight hundred and seventy-nine thousand nine hundred and thirty-seven dollars. Of this the sum of forty-five million five hundred and twenty five thousand three hundred and nineteen dollars, including premium, has been discharged, reducing the debt to thirty million seven hundred and thirty-seven thousand one hundred and twenty-nine dollars; all which might be paid within a year without embarrassing the public service, but being not yet due, and only redeemable at the option of the holder, cannot be pressed to payment by the government.

On examining the expenditures of the last five years, it will be seen that the average, deducting payments on account of the public debt and ten millions paid by treaty to Mexico, has been but about forty-eight million dollars. It is believed that, under an economical administration of the government, the average expenditure for the ensuing five years will not exceed that sum, unless extraordinary occasion for its increase should occur. The acts granting bounty lands will soon have been executed, while the extension of our frontier settlements will cause a continued demand for lands and augmented receipts, probably, from that source. These considerations will justify a reduction of the revenue from customs, so as not to exceed forty-eight or fifty million dollars. I think the exigency for such reduction is imperative, and again urge it upon the consideration of Congress.

The amount of reduction, as well as the manner of effecting it, are questions of great and general interest; it being essential to industrial enterprise and the public prosperity, as well as the dictate of obvious justice, that the burden of taxation be made to rest as equally as possible upon all classes, and all sections and interests of the country.

I have heretofore recommended to your consideration the revision of the revenue laws, prepared under the direction of the Secretary of the Treasury, and also legislation upon some special questions affecting the business of that department, more especially the enactment of a law to punish the abstraction of official books or papers from the files of the government, and requiring all such books and papers and all other public property to be turned over by the out going officer to his successor; of a law requiring disbursing officers to deposit all public money in the vaults of the treasury or in other legal depositories, where the same are conveniently accessible; and a law to extend existing penal provisions to all persons who may become possessed of public money by deposit or otherwise, and who shall refuse or neglect, on due demand, to pay the same into the treasury. I invite your attention anew to each of these objects.

The army during the past year has been so constantly employed against hostile Indians in various quarters, that it can scarcely be said, with propriety of language to have been a peace establishment. Its duties have been satisfactorily performed, and we have reason to expect, as a result of the year's operations, greater security to the frontier inhabitants than has been hitherto enjoyed. Extensive combinations among the hostile Indians of the Territories of Washington and Oregon at one time threatened the devastation of the newly formed settlements of that remote portion of the country. From recent information, we are permitted to hope that the energetic and successful operations conducted there will prevent such combinations in future, and secure to those Territories an opportunity to make steady progress in the development of their agricultural and mineral resources.

Legislation has been recommended by me on previous occasions to cure defects in the existing organization, and to increase the efficiency of the army, and further observation has but served to confirm me in the views then expressed, and to enforce on my mind the conviction that such measures are not only proper but necessary.

I have, in addition, to invite the attention of Congress to a change of policy in the distribution of troops, and to the necessity of providing a more rapid increase of the military armament. For details of these and other subjects relating to the army, I refer to the report of the Secretary of War.

The condition of the navy is not merely satisfactory, but exhibits the most gratifying evidences of increased vigor. As it is comparatively small, it is more important that it should be as complete as possible in all the elements of strength; that it should be efficient in the character of its officers, in the zeal and discipline of its men, in the reliability of its ordnance, and in the capacity of its ships. In all these various qualities the navy has made great progress within the last few years. The execution of the law of Congress, of Feb. 28, 1855, "to promote the efficiency of the navy," has been attended by the most advantageous results. The law for promoting discipline among the men is found convenient and salutary. The system of granting an honorable discharge to faithful seamen on the expiration of the period of their enlistment, and permitting them to re-enlist after a leave of absence of a few months, without cessation of pay, is highly beneficial in its influence.—The apprentice system recently adopted, is evidently destined to incorporate into the service a large number of our countrymen hitherto so difficult to procure. Several hundred American boys are now on a three years' cruise in our national vessels, and will return well-trained seamen. In the ordnance department there is a decided and gratifying indication of progress creditable to it and to the country. The suggestions of the Secretary of the Navy in regard to further improvement in that branch of the service, I commend to your favorable action.

The new frigates ordered by Congress are now afloat, and two of them in active service. They are superior models of naval architecture, and with their formidable battery add largely to public strength and security.

I concur in the views expressed by the Secretary of the Department in favor of a still further increase of our naval force.

The report of the Secretary of the Interior presents facts and views in relation to internal affairs over which the supervision of his department extends, of much interest and importance.

The aggregate sales of the public lands, during the last fiscal year, amount to nine million two hundred and twenty-seven thousand eight hundred and seventy-eight acres; for which has been received the sum of eight millions eight hundred and twenty-one thousand four hundred and fourteen dollars. During the same period there have been located, with military scrip and land-warrants, and for other purposes, thirty million one hundred thousand two hundred and thirty acres, thus making a total aggregate of thirty-nine million three hundred and twenty-eight thousand one hundred and eight acres. On the 30th of September last, surveys had been made of sixteen million eight hundred and seventy-three thousand six hundred and ninety-nine acres, a large proportion of which is ready for market.

The suggestions in this report in regard to the complication and progressive expansion of the business of the different bureaux of the department; to the pension system; to the colonization of Indian tribes, and the recommendations in relation to various improvements in the District of Columbia, are especially commended to your consideration.

The report of the Postmaster General presents fully the condition of that department of the government. Its expenditures for the last fiscal year, were ten million four hundred and seven thousand eight hundred and sixty-eight dollars; and its gross receipts seven million six hundred and twenty thousand eight hundred and one dollars—making an excess of expenditure over receipts of two millions seven hundred and eighty-seven thousand and forty-six dollars. The deficiency of this department is thus seven hundred and forty four thousand dollars greater than for the year ending June 30, 1853. Of this deficiency

three hundred and thirty thousand dollars is to be attributed to the additional compensation allowed postmasters by the act of Congress of June 22, 1854. The mail facilities in every part of the country have been very much increased in that period, and the large addition of railroad service, amounting to seven thousand nine hundred and eight miles, has added largely to the cost of transportation.

The inconsiderable augmentation of the income of the Post Office Department under the reduced rates of postage, and its increasing expenditures, must, for the present, make it dependent to some extent upon the treasury for support. The recommendations of the Postmaster General, in relation to the abolition of the franking privilege, and his views on the establishment of mail steamship lines, deserve the consideration of Congress. I also call the special attention of Congress to the statement of the Postmaster General respecting the sums now paid for the transportation of mails to the Panama Railroad Company, and commend to their early and favorable consideration the suggestions of that officer in relation to new contracts for mail transportation upon that route, and also upon the Tehuantepec and Nicaragua routes.

The United States continue in the enjoyment of amicable relations with all foreign powers.

When my last annual message was transmitted to Congress, two subjects of controversy, one relating to the enlistment of soldiers in this country for foreign service, and the other to Central America, threatened to disturb good understanding between the United States and Great Britain. Of the progress and termination of the former question you were informed at the time; and the other is now in the way of satisfactory adjustment.

The object of the convention between the United States and Great Britain of the 19th of April, 1850, was to secure, for the benefit of all nations, the neutrality and the common use of any transit way, or interoceanic communication, across the isthmus of Panama, which might be opened within the limits of Central America. The pretension subsequently asserted by Great Britain, to dominion or control over territories, in or near two of the routes, those of Nicaragua and Honduras, were deemed by the United States, not merely incompatible with the main object of the treaty, but opposed even to its express stipulations. Occasion of controversy on this point has been removed by an additional treaty, which our minister at London has concluded, and which will be immediately submitted to the Senate for its consideration. Should the proposed supplemental arangement be concurred in by all the parties to be affected by it, the objects contemplated by the original convention will have been fully attained.

The treaty between the United States and Great Britain, of the 5th of June, 1854, which went into effective operation in 1855, put an end to causes of irritation between the two countries, by securing to the United States the right of fishery on the coast of the British North American provinces, with advantages equal to those enjoyed by British subjects.—Besides the signal benefits of this treaty to a large class of our citizens engaged in a pursuit connected to no inconsiderable degree with our national prosperity and strength, it has had a favorable effect upon other interests in the provision it made for reciprocal freedom of trade between the United States and the British provinces in America.

The exports of domestic articles to those provinces during the last year amounted to more than twenty-two millions of dollars, exceeding those of the preceding year by nearly seven millions of dollars; and the imports therefrom during the same period, amounted to more than twenty-one millions—an increase of six millions upon those of the previous year.

The improved condition of this branch of our commerce is mainly attributable to the above-mentioned treaty.

Provision was made, in the first article of that treaty, for a commission to designate the months of rivers to which the common right of fishery, on the coast of the United States and the British Provinces, was not to extend. This commission has been employed a part of two seasons, but without much progress in accomplishing the object for which it was instituted, in consequence of a serious difference of opinion between the commissioners, not only as to the precise point where the rivers terminate, but in many instances as to what constitutes a river. These difficulties, however, may be overcome by resort to the umpirage provided by the treaty.

The efforts perseveringly prosecuted since the commencement of my administration, to relieve our trade to the Baltic from the exaction of sound dues by Denmark, have not yet been attended with success. Other governments have also sought to obtain a like relief to their commerce, and Denmark was thus induced to propose an arrangement to all the European Powers interested in the subject;—and the manner in which her proposition was received, warranting her to believe that a satisfactory arrangement with them could soon be concluded, she made a strong appeal to this government for temporary suspension of definite action on its part, in consideration of the embarrassment which might result to her European negotiations by an immediate adjustment of the question with the United States. This request has been acceded to, upon the condition that the sums collected after the 16th of June last, and until the 16th of June next, from vessels and cargoes belonging to our merchants, are to be considered as paid under protest and subject to future adjustment. There is reason to believe that an arrangement between Denmark and the maritime powers of Europe on the subject, will be soon concluded, and that the pending negotiation with the United States may then be resumed and terminated in a satisfactory manner.

With Spain no new difficulties have arisen, or has much progress been made in the adjustment of pending ones.

Negotiations entered into for the purpose of relieving our commercial intercourse with the island of Cuba of some of its burdens, and providing for the more speedy settlement of local disputes growing out of that intercourse, have not yet been attended with any results.

Soon after the commencement of the late war in Europe, this government submitted to the consideration of all maritime nations, two principles for the security of neutral commerce: one, that the neutral flag should cover enemies' goods, except articles contraband of war; and the other, that neutral property on board merchant vessels of belligerents should be exempt from condemnation, with the exception of contraband articles. These were not presented as new rules of international law; having been generally claimed by neutrals, though not always admitted by belligerents. One of the parties to the war—Russia—as well as several neutral powers, promptly acceded to these propositions; and the two other principal belligerents, Great Britain and France, having consented to observe them for the present occassion, a favorable opportunity seemed to be presented for obtaining a general recognition of them both in Europe and America.

But Great Britain and France, in common with most of the states of Europe, while forbearing to reject, did not affirmatively act upon the overtures of the United States.

While the question was in this position, the representatives of Russia, France, Great Britain, Austria, Prussia, Sardinia, and Turkey, assembled at Paris, took into consideration the subject of maritime rights, and put forth a declaration containing the two principles which this government had submitted, nearly two years before, to the consideration of maritime powers, and adding thereto the following propositions: "Privateering is and remains abolished," and "Blockades, in order to be binding, must be effective, that is to say, maintained by a force, sufficient really, to prevent access to the coast of the enemy;" and to the declaration thus composed of four points, two of which had already been proposed by the United States, this government has been invited to accede by all the powers represented at Paris, except Great Brittain and Turkey. To the last of the two additional propositions—that in relation to blockades—there can certainly be no objection. It is merely the definition of what shall constitute the effectual investment of a blockaded place, a definition for which this government has always contended, claiming indemnity for losses where a practical violation of the rule thus defined has been injurious to our commerce. As to the remaining article of the declaration of the conference of Paris, "that privateering is and remains abolished,"—I certainly cannot ascribe to the powers represented in the conference of Paris, any but liberal and philanthropic views in the attempt to change the unquestionable rule of maritime law in regard to privateering. Their proposition was doubtless intended to imply approval of the principle that private property upon the ocean, although it might belong to the citizens of a belligerent state, should be exempted from capture; and had that proposition been so framed as to give full effect to the principle, it would have received my ready assent on behalf of the United States. But the measure proposed is inadequate to that purpose. It is true that if adopted, private property upon the ocean would be withdrawn from one mode of plunder, but left exposed, meanwhile, to another mode, which could be used with increased effectiveness. The aggressive capacity of great naval powers would be thereby augmented, while the defensive ability of others would be reduced. Though the surrender of the means of prosecuting hostilities by employing privateers, as proposed by the conference of Paris,, is mutual in terms, yet, in practical effect, it would be the relinquishment of a right of little value to one class of states, but of essential importance to another and a far larger class. It ought not to have been anticipated that a measure, so inadequate to the accomplishment of the proposed object, and so unequal in its operation, would receive the assent of all maritime powers. Private property would be still left to the depredations of the public armed cruisers.

I have expressed a readiness on the part of this government, to accede to all the principles contained in the declaration of the conference of Paris, provided that relating to the abandonment of privateering can be so amended as to effect the object for which, as is presumed, it was intended, the immunity of private property on the ocean from hostile capture. To effect this object, it is proposed to add to the declaration that "privateering is and remains abolished," the following amendment: "And that the private property of subjects and citizens of a belligerent on the high seas, shall be exempt from seizure by the public armed vessels of the other belligerent, except it be contraband." This amendment has been presented not only to the powers which have asked our assent to the declaration to abolish privateering, but to all other maritime states. Thus far it has not been rejected by any, and is favorably entertained by all which have made any communication in reply.

Several of the governments regarding with favor the proposition of the United States, have delayed definite action upon it, only for the purpose of consulting with others, parties to the conference of Paris. I have the satisfaction of stating however, that the Emperor of Russia has entirely and explicitly approved of that modification, and will co-operate in endeavoring to obtain the assent of other powers; and that assurances of a similar purport have been received in relation to the disposition of the Emperor of the French.

The present aspect of this important subject allows us to cherish the hope that a principle so humane in its character, so just and equal in its operation, so essential to the prosperity of commercial nations, and so consonant to the sentiments of this enlightened period of the world, will command the approbation of all maritime powers, and thus be incorporated into the code of international law.

My views on the subject are more fully set forth in the reply of the Secretary of State, a copy of which is herewith transmitted, to the communications on the subject made to this government, especially to the communication of France.

The government of the United States has at all times regarded with friendly interest the other States of America, formerly, like this country, European colonies, and now independent members of the great family of nations. But the unsettled condition of some of them, distracted by frequent revolutions, and thus incapable of regular and firm internal administration, has tended to embarrass occasionally our public intercourse, by reason of wrongs which our citizens suffer at their hands, and which they are slow to redress.

Unfortunately it is against the Republic of Mexico, with which it is our special desire to maintain a good understanding, that such complaints are most numerous; and although earnestly urged upon its attention, they have not as yet received the consideration which this government had a right to expect. While separation for past injuries has been withheld, others have been added. The political condition of that country, however, has been such as to demand forbearance on the part of the United States. I shall continue my efforts to procure for the wrongs of our citizens that redress which is indispensable to the continued friendly association of the two republics.

The peculiar condition of affairs in Nicaragua in the early part of the present year, rendered it important that this government should have diplomatic relations with that state. Through its territory had been opened one of the principal thoroughfares across the isthmus connecting North and South America, on which a vast amount of property was transported, and to which our citizens resorted in great numbers, in passing between the Atlantic and Pacific coasts of the United States. The protection of both required that the existing power in that state should be regarded as a responsible government; and its minister was accordingly received. But he remained here only a short time. Soon thereafter the political affairs of Nicaragua underwent unfavorable change, and became involved in much uncertainty and confusion. Diplomatic representatives from two contending parties have been recently sent to this government;—but, with the imperfect information possessed, it was not possible to decide which was the government *de facto*; and, awaiting further developments, I have refused to receive either.

Questions of the most serious nature are pending between the United States and the Republic of New Granada. The government of that republic undertook, a year since, to impose tonnage duties on foreign vessels in her ports, but the purpose was resisted by this government, as being contrary to existing treaty stipulation with the United States, and to rights conferred by charter upon the Panama Railroad Company, and was accordingly relinquished at that time, it being admitted that our vessels were entitled to be exempt from tonnage duty in the free ports of Panama and Aspinwall. But the purpose has been recently revived, on the part of New Grenada, by the enactment of a law to subject vessels visiting her ports to the tonnage duty of forty cents per ton; and, although the law has not been put in force, yet the right to enforce it is still asserted, and may, at any time, be acted on by the government of that republic.

The Congress of New Grenada has also enacted a law, during the last year, which levies a tax of more than three dollars upon every pound of mail matter transported across the Isthmus. The sum thus required to be paid on the mails of the United States would be nearly two millions of dollars annually, in addition to the large sum payable by contract to the Panama Railroad Company. If the only objection to this exaction were the exorbitancy of its amount, it could not be submitted to by the United States.

The imposition of it, however, would obviously contravene our treaty with New Granada, and infringe the contract of that republic with the Panama Railroad Company. The law providing for this tax was, by its terms, to take effect on the first of September last, but the local authorities on the isthmus have been induced to suspend its execution, and to await further instructions on the subject from the government of the republic. I am not advised of the determination of that government. If a measure so extraordinary in its character, and so clearly contrary to treaty stipulations, and the contract rights of the Panama Railroad Company, composed mostly of American citizens, should be persisted in, it will be the duty of the United States to resist its execution.

I regret exceedingly that occasion exists to invite your attention to a subject of still graver import in our relations with the Republic of New Granada. On the fifteenth day of April last, a riotous assemblage of the inhabitants of Panama committed a violent and outrageous attack on the premises of the railroad company, and the passengers and other persons in or near the same, involving the death of several citizens of the United States, the pillage of many others, and the destruction of a large amount of property belonging to the railroad company. I caused full investigation of that event to be made, and the result shows satisfactorily that complete responsibility for what occurred attaches to the government of New Granada. I have, therefore, demanded of that government that the perpetrators of the wrongs in question should be punished; that provision should be made for the families of citizens of the United States who were killed, with full indemnity for the property pillaged or destroyed.

The present condition of the Isthmus of Panama, in so far as regards the security of persons and property passing over it, requires serious consideration. Recent incidents tend to show that the local authorities cannot be relied on to maintain the public peace of Panama, and there is just ground for apprehension that a portion of the inhabitants are meditating further outrages, without adequate measures for the security and protection of persons or property having been taken, either by the State of Panama, or by the general government of New Granada.

Under the guaranties of treaty, citizens of the United States have, by the outlay of several millions of dollars, constructed a railroad across the Isthmus, and it has become the main route between our Atlantic and Pacific possessions, over which multitudes of our citizens and a vast amount of property are constantly passing—to the security and protection of all which, and the continuance of the public advantages involved, it is impossible for the government of the United States to be indifferent.

I have deemed the danger of the recurrence of scenes of lawless violence in this quarter so imminent as to make it my duty to station a part of our naval force in the harbors of Panama and Aspinwall, in order to protect the persons and property of the citizens of the United States in those ports, and to insure to them safe passage across the Isthmus. And it would, in my judgment, be unwise to withdraw the naval force now in those ports, until, by the spontaneous action of the republic of New Granada, or otherwise, some adequate arrangement shall have been made for the protection and security of a line of inter-oceanic communication so important at this time, not to the United States only, but to all other maritime States both of Europe and America.

Meanwhile, negotiations have been instituted by means of a special commission, to obtain from New Granada full indemnity for injuries sustained by our citizens on the Isthmus, and satisfactory security for the general interests of the United States.

In addressing to you my last annual message, the occasion seems to me an appropriate one to express my congratulations in view of the peace, greatness, and felicity which the United States now possess and enjoy. To point you to the state of the various departments of the government, and of all the great branches of the public service, civil and military, in order to speak of the intelligence and the integrity which pervades the whole, would be to indicate but imperfectly the administrative condition of the country, and the beneficial effects of that on the general welfare. Nor would it suffice to say that the nation is actually at peace at home and abroad; that its industrial interests are prosperous; that the canvass of its mariners whitens every sea; and the plough of its husbandmen is marching steadily onward to the bloodless conquest of the continent; that cities and populous States are springing up, as if by enchantment, from the bosom of our western wilds, and that the courageous energy of our people is making of these United States the great republic of the world. These results have not been attained without passing through trials and perils, by experience of which, and thus only, nations can harden into manhood. Our forefathers were trained to the wisdom which conceived, and the courage which achieved independence, by the circumstances which surrounded them, and they were thus made capable of the creation of the republic. It devolved on the next generation to consolidate the work of the revolution, to deliver the country entirely from the influences of conflicting transatlantic partialities or antipathies, which attached to our colonial and revolutionary history, and to organize the practical operation of the constitutional and legal institutions of the Union. To us, of this generation, remains the not less noble task of maintaining and extending the power of the United States. We have, at length, reached that stage of the national career, in which the dangers to be encountered, and the exertions to be made, are the incidents, not of weakness, but of strength. In our foreign relations we have to attemper our power to the less happy condition of other republics in America, and to place ourselves in the calmness and conscious dignity of right by the side of the greatest and wealthiest of the empires of Europe. In our domestic relations, we have to guard against the shock of the discontents, the ambitions, the interests, and the exuberant, and, therefore, sometimes irregular impulses of opinion, or of action, which are the natural product of the present political elevation, the self-reliance and the restless spirit of enterprise of the people of the United States.

I shall prepare to surrender the Executive trust to my successor, and retire to private life with sentiments of profound gratitude to the good Providence which, during the period of my administration, has vouchsafed to carry the country through many difficulties, domestic and foreign, and to enable me to contemplate the spectacle of amicable and respectful relations between ours and all other governments, and the establishment of constitutional order and tranquility throughout the Union.

FRANKLIN PIERCE.

WASHINGTON, *December* 2, 1856.

CONGRESS.

This august body met on Monday. A quorum was present in each house. In the House of Representatives, Mr. Whitfield offered himself as a Delegate from Kansas, but was objected to; and the motion to swear him in was negatived, 97 to 104.—The question will come up again.

On Tuesday, at noon, the President's Message was delivered.

CHICAGO, Dec. 1.—*Kansas.*—We have Kansas dates to the 24th ult. Thirty-nine free state prisoners at Lecompton escaped on the night of the 22d ult. No violence was used by them. The report that Judge Lecompte had issued a process against Gov. Geary, for contempt of Court, is not confirmed; but it is stated that he has granted a writ of habeas corpus in the case of Hayes.

OSWEGO, Dec. 1.—*The Late Gale*—The Canadian steamer Monarch went ashore near Toronto in a gale, on Saturday, and lies full of water. The gale yesterday was very severe; snow fell to a depth of four inches.

NEWBURG, Dec. 1.—*The Poole Murder.*—In the case of Baker, for the murder of Wm. Poole, the testimony on the part of the prosecution closed to-day. Mr. Brady will open the case for the defence to-morrow.

LOCAL.

POLICE COURT—Monday, Dec. 1.

Before Justice Odell: Mrs. Susan Chase was accused of selling liquor to Wm. Patch, on the 28th of November. Plea Not Guilty. The respondent produced a cloud of witnesses, who testified that she did not sell any liquor to Patch at the time alleged, and that they never knew her recently to sell any liquor at all. She stated, herself, that she had not sold any for a number of years.

She was discharged.

RAILROAD ACCIDENTS.—The bridge of the Manassas Gap Railroad, over the Shenandoah, gave way on Saturday night, precipitating the engine and five cars into the river, a distance of 45 feet. The engineer, fireman and conductor were killed. A passenger, belonging to Viginia, named John E. Buck, was fatally injured.

The Chicago express train of the 28th ult., was thrown from the track of the Erie Railroad, near Allegany, by a broken rail, injuring three persons seriously, one of whom had an arm broken. Three others were injured slightly. Two cars were badly broken.

City Clerk's Office, Portsmouth, December 2d, 1856.

At a meeting of the Mayor and Alderman, held today, for the purpose of investigating the cause of the fire at Mr. H. Remick's house, Islington street:—they have, after due investigation and consideration of the subject, directed me to say, that they are of opinion that it was caused by accident and not by design.

JOHN BENNETT, *City Clerk.*

"LONG IN THE LAND."—Mr. William Slade, of Alstead, N. H., was *one hundred years old*, on Tuesday, Nov. 25. His brother Samuel Slade, is ninety-seven years old. Their farms are contiguous, and have been occupied by them for seventy-nine years. They are both revolutionary pensioners.

From the Boston Saturday Evening Gazette

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

The Mustang Liniment cures Rheumatism;

1,000,000 DOLLARS PER ANNUM

To the United States, as the preserver and restorer of valuable Horses and Cattle. It cures all Sprains, Galls, Wounds, Stiff Joints, &c.

Will you answer this question? Did you ever hear of any ordinary Sore, Swelling, Sprain or Stiffness, either on man or beast, which the Mustang Liniment would not cure? Did you ever visit any respectable druggist in any part of the world—in Europe, Asia, or America—who did not say "it was the greatest discovery of the age." Sold everywhere. Every family should have it; 3 sizes.

BARNES & PARK,
Nov. 10. 1m Proprietors, New York.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuT&hS 6m.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

LAKE VILLAGE, N. H.

Dr. Wm. R. Hayden: Dear Sir,—Please send me, by return of cars, some of your pills; I think they will take very well. I have been waiting for the people to try them in this vicinity, and within a few days a number have called for them, who have tried them, and say they like them the best of any they have ever tried, in their operation, &c." WM. EAMES.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for the purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, if I could not take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTREBY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the past forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 8, 1856.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no one else could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We believe his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, or SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous disease that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years.—It having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stoves. Also, Shop and Box Stoves, Cylinders of different patterns and sizes: in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

The Stanley Coal Burner!

NOTWITHSTANDING this Stove has been in the market more than eight years, and that hundreds of new patterns have since its introduction been brought before the public, still this, as a coal burner, stands pre-eminent. The subscriber has sold them for the past seven years, and the sales are annually increasing, and now has in Store the various sizes, which he offers at the usual price.

SOUSED TRIPE for Saleby
n22 LAFAYETTE LAIGHTON.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Heretofore all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufactures."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly **NINETEEN THOUSAND.** Volumes of testimony to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very respectfully, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	50
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	150

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,

Chickering's Piano Fortes.

BOSTON, Oct 1856.

WE have appointed JOHN S. HARVEY & SON *sole Agents* for the sale of our Piano Fortes for Portsmouth and vicinity, and have made arrangements with them to supply our Instruments on the same terms as can be purchased at our Sales Rooms.
CHICKERING & SONS.

WE have now on hand and are constantly receiving the above Instruments, and shall take great pleasure in exhibiting them to all who favor us with a call. The world-wide renown and celebrity of these Piano Fortes and the acknowledged superiority of the makers over all competitors are too well known to need comment.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in continuance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D.D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc.

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel, commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle his patriotism at its spirit-stirring narrative; and point to the exhibition of genius and skill, with those feelings of fleeting enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail, postage free. Sub-oribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoas, Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine;* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."
To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ anh ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.
☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"
☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.
☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.
Boston, Aug. 19, 1856. oo6m

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty,* as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal thrown him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11 1856 d6eodry

THURSDAY, DECEMBER 4, 1856.

ANNUAL REPORT

OF THE CITY MISSIONARY OF PORTSMOUTH.

It is not yet three months since your present Missionary commenced his labors among you.

The field was then entirely new to him. Its localities were wholly unknown. All was to be learned and explored.

This was not the work of a day, nor of a week. It has necessarily consumed much time, which would otherwise have been given directly to missionary labor.

He has, however, been much aided by the general sympathy and cordial co-operation of all the clergymen in the city, and of the different charitable associations; and particularly by the prompt and cheerful assistance of several benevolent persons, who, having previously explored portions of the field, were able to render him valuable service in his work.

Yet, with all these helps, he could not reasonably be expected to labor as efficiently the first few months, as he could after acquiring a personal knowledge of the field, and of the condition and wants of those whom he was expected to benefit.

To gain this knowledge has thus far been with him a very important object, as preparatory to his future usefulness.

Two hours each day, that is, from ten to twelve in the morning, he has been at his office, where he has received numerous calls from those seeking aid for themselves or others.

To these calls he has always promptly responded. Such families as were known to need his visits have received his first attention, and the remainder of the day has been spent in visiting from house to house in different parts of the city.

In all these visits, he has endeavored to make himself known as a minister of Christ, one whom the benevolent in this city have employed to look after the neglected and suffering, with a special reference to their moral and religious improvement.

Perhaps all are not prepared to believe that among the Protestant population of this city, there are more than four thousand who are not connected with any religious society. But a careful computation by those who are well able to judge in the matter, makes the number even larger than this.

To all these your Missionary is, so far as possible, to make himself a pastor, carrying to their homes those religious instructions which they have neglected to seek from the sanctuary.

This he has been, and is still, trying to do, endeavoring to make all feel that their spiritual necessities are the special object of his care—that his mission has regard to their future, no less than to their present well being.

Thus far he has every where been treated with respect, and invited to repeat his calls. Even those who habitually absent themselves from public worship have in no case refused him the privilege of conversing religiously or praying with them.

It is impossible, in a report like this, to give you the details of such visits.

Some of them have been very painful, not only on account of the destitution and wretchedness which he has been obliged to witness, but because there seemed so little principle on which to operate.

Whatever may be said of the comparative superiority of sexes, it is evident, that in the family, *woman* is the presiding spirit. Where her influence is what it should be, we may, under any circumstances, have hope for the children.

Your Missionary has found some cases, though he is happy to say they have been but few, where the habits of the mother were such as to leave little hope of benefitting her children, except they could be removed from under her influence.

On the other hand, he has found several cases where the mother truly deserved the sympathy of the benevolent; standing, as she did, between the influence of an intemperate husband and the claims of her helpless offspring, bearing in silence her own wrongs, and, under the double pressure of poverty and grief, keeping her children at school and seeking to train them to habits of industry and virtue.

In the abodes of poverty and suffering, he has in some instances found a spirit of peace and child-like trust in God, which many in more prosperous circumstances might well covet.

It has also been his privilege to witness the progress and triumph of faith in at least one who, at his first visit, he found darkly groping her way without God and without hope.

He found her in the last stage of consumption, suffering for want of care, but still more from religious anxiety.

She listened with intense interest as he endeavored to unfold to her anxious mind the great principles of the gospel and to direct her thoughts to One who is able to save to the uttermost all who come unto God by him.

At a subsequent visit, he found her in the possession of a peaceful and joyful hope that her sins had been forgiven and her soul redeemed unto God, through faith in his beloved Son.

She continued for a few days in the same happy state of mind, and then quietly passed from earth, as we trust, to join the redeemed in heaven.

He has more recently been called to attend the funeral of one with whom he had more than once conversed, but with what success is known only to the Searcher of hearts.

In seeking to impress upon all the importance of placing themselves under the preaching of the gospel, he has been happy to feel that he was not acting as the representative of any one sect, but as the voice of this whole religious community—that, while all denominations united in sustaining him, no one expected him to proselyte for themselves.

This has given him an influence over the conscience which he could not have exerted under other circumstances.

Very seldom has he found any who were willing to avow that they had no confidence in any religious sect. The more common excuse for non-attendance on public worship or for keeping their children from Sabbath School, is the want of suitable apparel.

And here it may be proper to remark, that the work of a City Missionary must always include a suitable regard to the physical wants of the poor. Though he has for the most part prepared to leave the supply of these to other agencies, your Missionary has found it necessary, to some extent, to connect this element with his work.

To some cases he has called the attention of the overseers of the poor. In other instances he has received aid from the Humane Society. He has also received twenty dollars from a benevolent lady in this city, to be appropriated among the poor as he might have occasion.

A considerable part of this has been already expended, partly in providing comforts for the sick, but mainly in furnishing with shoes such children as would otherwise have been kept from school.

Many families, however, required a kind of aid which only woman can give. Your Missionary has seen much of this, and his companion has cheerfully given her time and strength to the work.

From one family she has in this way fitted for school four children, between the ages of 5 and 13, no one of whom was able to read intelligibly the most simple page.

To get into our Sabbath and day schools all who might in this way be saved from a life of ignorance or vagrancy, must require combination of effort.

The Ladies' General Charitable Society of this city has been formed in reference to this want. And, if their work is prosecuted with the energy which has characterized its commencement, another year will tell you of a great amount of good effected through this instrumentality.

Your Missionary has also received from a benevolent gentleman five dozen testaments and a dozen and a half of bibles for gratuitous distribution among the poor. When these are exhausted provision is made for a further supply. He will therefore see that no person who is able to read, and who is willing to receive it, shall be destitute of the word of God.

(Remainder to-morrow.)

FEARFUL DEATH FROM HYDROPHOBIA.—The Allentown (Pa.) Register of Nov. 26th, says, that a young man named Henry Brotzman recently died there from the effects of hydrophobia, having been bitten by a mad dog some six weeks previously. After being bitten he received prompt medical aid, and no bad symptoms were apparent. A few weeks since a horse that was bitten died. The young man assisted to skin the body of the animal, in doing which he received through a wound in his fingers some of the virulent blood of the horse. Soon after he was seized with all the horrible symptoms of hydrophobia, and, although medical aid was summoned, all attempts to save his life were unavailing.

One of the most brutal deeds ever heard of was perpetrated by a shoemaker in Jesus Maria street, Havana, upon the person of a young mulatto, his apprentice. The boy was talking to another boy, and his brute of a master seized a hot boiled egg just off the fire, and thrust it into the poor lad's mouth, holding his hand over his mouth until the poor boy was suffocated and died.

BRIEF REVIEW OF THE MESSAGE.—The first dozen pages of the President's Message, in which he speaks of the recent election and of Kansas affairs, are exactly the language we might expect from the mere partisan; not such as we should expect from a statesman and an honest man nevertheless, they are quite consistent with his action in taking up the bill of Douglas and crowding it through the House against the opinions and the will of his best friends there, and of his best friends at home;—by which he upset himself, and by which he came within an ace of upsetting his party also.

Such a special plea for slavery as he makes, is worthy of Gov. Wise and the Richmond Examiner—abounding in misrepresentations, and even in calumny of the north and of its citizens who have so signally condemned him and his measures in this particular matter.

He recommends a reduction of the duties on imports.

Hope they will take the duty off from brown sugar and molasses.

Army, Navy, and Post Office, in good order,—President's remarks about them, very well.

Foreign relations, well discussed, generally, with some exceptions.

Remarks on privateering &c. perfectly just, and quite to the purpose, viz. we will not agree that there shall be no privateers, until the nations agree that naval ships shall not plunder nor burn merchantmen.

The little piece of general and self glorification at the end, is quite refreshing, and need not offend any body.

☞ Putnam's Monthly for December is just received by A. Williams & Co. of Boston, and J. H. Foster of Portsmouth.

It is an interesting number, and contains an admirable political essay, on The Late Election.

Miss Ann Parker, Witching Times, On Divorce, are also interesting articles.

Dix & Edwards, publishers, New York:

COSMOPOLITAN ART ASSOCIATION. — We call attention to the advertisement of the Cosmopolitan Art Association, which appears in the Chronicle this morning. It seems to be an excellent institution, upon a fair and legitimate basis. Any of the three-dollar Magazines published in this country, or the British Reviews, can be obtained at the publishers' prices, besides a ticket in the distribution of works of art of a high character. The distribution takes place in January, and those who contemplate becoming subscribers, should hand in their names immediately, in order that that they may be duly served with the first numbers of the Magazines for the coming year. Edw. N. Fuller, Secretary, New Hampshire Gazette office, Portsmouth.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

Agent in Portsmouth, Jos. H. Thatcher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by druggists everywhere, and at my office, No. 51 Hanover St., Boston. aug8 6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. nov27 TuT&hS 6m.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

LAKE VILLAGE, N. H.

Dr. Wm. R. Hayden: Dear Sir,—Please send me, by return of cars, some of your pills; I think they will take very well. I have been waiting for the people to try them in this vicinity, and within a few days a number have called for them, who have tried them, and say they like them the best of any they have ever tried, in their operation, &c. WM. EAMES.

WM. R. PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6tdaw

THE SLAVE TRADE. — The New York Journal of Commerce states, on the authority of the U. S. deputy marshals, that the practice of fitting out slavers at that port still continues, notwithstanding the efforts that have been made to break it up. The enormous profits accruing from the business are more than a match for the terrors of the law. The business is conducted with great shrewdness. Experienced and sagacious government officers say that the nefarious traffic may be broken up by so amending the law relating to the shipment of crews, that vessels engaged in the African trade *shall take none but Americans*. Such a regulation, it is believed, would inflict no insuperable hardship upon the twenty-five or thirty small vessels legitimately engaged in the trade. The crews of African slavers are invariably foreigners, mostly Portuguese, who are not likely to be troubled with conscientious scruples. Americans could not easily be induced to engage in slave trading, except under false representations, in which case the guilty parties would be exposed.

TUFTS COLLEGE.—Our friend Mr. Bazin, of the Trumpet, has sent us two finely printed pamphlets from the press of Bazin & Chandler, Boston. One of them is the catalogue of Tufts College for 1856-7; the other is The Claims of Tuft's College on its First Students.—being an oration before a literary society there. The oration has, as it ought to have, a high and healthful moral tone.

LOCAL.

☞ Schooner Montezuma, Knowlton, from Bangor for Boston was wrecked on Duck Island, (Isles of shoals) on Saturday night last.

The M. came out of Portland the night before, about 1 o'clock, soon after which it began to snow, and was so thick they could see no light, hove too, was drifted till she struck on Duck Island, about 6 1-2 o'clock Saturday evening.

The crew remained in the rigging until 3 P, M. Sunday, when they were taken off by three gallant men from the Shoals.

One of the crew was nearly exhausted, and thinks he would have lived but a short time if he had not been releived—he is much frost bitten.

The M. was owned by the master, (Henry W. Knowlton) and his father, Robert Knowlton, of Deer Isle.

No insurance on vessel, and the Capt. thinks, none on cargo.

The vessel will be nearly a total loss; a portion of the rigging has been saved.

The hull remains on the rocks entirely under water.

☞ The schooner Enterprise, Hews, Bangor for Dorchester, arrived in our lower harbor on Monday. On Saturday last, at 3 P. M., in running for this Harbor, (at the time snowing fast) ran on Cutts Ledge, near Brave Boat harbor, but got off on Sunday, with slight damage.

Also arrived schooner Empire, Chambers, from Boston. Reports saw a fore and aft schooner ashore on the Isle of Shoals. She appeared to be full of water.

Book on Botany.—We have looked at an Analytical Class Book of Botany, which the agent, Mr. J. H. Hoyt, has been selling to our citizens, and find in it all things desirable both for students, and those who understand fully the principles of Botany. The lessons and diagrams are admirably arranged, leading the learner along step by step, and entertaining as well as instructing him. J.

☞ The owner of a lost Shawl is requested to call at this office.—The finder has called twice.

☞ Godey's Lady's Book for January, 1857, is received from the publisher, Louis A. Godey, Philadelphia. It is a very fine number indeed, and is thus truly described in the circular:

January No., 1857., the 54th volume of its existence. First in point of time, and first, we believe, in point of merit. The first plate, the Only Child, was engraved by the same artist that engraved the Moment of Trial in the last Febuary No., the best plate, so pronounced, ever published in a magizine, and this, we think, is quite equal in point of merit. The Title Page is a Family Scene illustrative of the Lady's Book. The 54 volumes are "a library in itself," and we have often received letters from ladies who have stated to us, that their mothers took the Book for them and they now take it for their children. Our Six Figure Fashion Piate the ladies will say, is the handsomest we have ever published, while the Brioche Cushion is as pretty a colored plate as any ever given in the pages ot a magazine.

Godey is one of the most punctual of publishers, and deals most exactly and correctly with the press.

Price in advance.—One copy one year, $3. Two copies one year, $5. Three copies one year, $6. Five copies one year, and an extra copy to the person sending the club, making six copies, $10.

Godey's Lady's Book and Chronicle & Phenix $3,50.

Damrell & Moore, of Boston, have just issued from their press, and John P. Jewett have just published the Lady's Almanac for 1857, a beautiful and convenient annual, whose name implies its character and its uses.

☞ The American Phrenological Journal, from December, is just received from Fowler & Wells, publishers, New York & Boston. It contains portraits of Prescott, the Historian, and Goodyear, the India Rubber man—and is able as ever.

The Water Cure Journal, for Dec. by the same publishers, is also received;—it contains the prospectus for 1857. Now is the time to subscribe.

Mr. Buchanan and the Pacific Railroad.—Mr. Buchanan's California letter on the subject of the Pacific Railroad, has already begun to brew trouble at the South, and the Charleston Standard says, in reference to this matter:

"We would hesitate to consult a course so revolutionary as that of withholding from Mr. Buchanan the electoral vote, but it is a subject worthy of serious consideration, whether we should go on and inaugurate a President, one of the very first measures of whose Administration will be that which of all others will be most to the hand of the Black Republican Party; consolidation is the end they aim at, and no measure, not even the admission of Kansas as a Free State, will lead so directly to such a consummation."

DONALDSON AND GEARY.

Marshal Donaldson of Kansas has resigned his office, rather than execute Gov. Geary's order to arrest the murderer Hayes. His principal reason is:

As a ministerial officer, I am unwilling to arrogate to myself the power to contravene or set aside the acts of a Court of Justice, even if I disapprove of the acts of such a Court.

It is a great misnomer to call such Courts *Courts of Justice.* Judge Lecompte admitted the murderer to bail. This was illegal—clearly so. The Governor orders him *rearrested*—and this seems illegal too.

A Lecompton writer says:

This affair is likely to create considerable excitement at Lecompton among the territorial officials. The Governor sent Col. Titus out with six men; they were successful in finding and arresting Hayes. He was taken to Lecompton for confinement. Hugh M. Moore, Esq., counsel for the prisoner, set about to procure his release, and for that purpose he came to this city to see Judge Lecompte, and have him issue a writ to take him out of prison. The Judge will probably do it, and the Governor will undertake the task of preventing its execution.

His Excellency claims the right to put his veto upon the doings of the judiciary, if it does not please him, and, like old Jackson, takes the responsibility for his assumption of power.

The final termination of this affair is looked upon with great interest by our people. It is believed that it will eventually end in the removal or resignation of one or both the parties concerned. Both the Executive and Chief Justice are men not at all disposed to give up a position once taken, whatever the consequence may be.

Our people here justify the Governor for interposing his authority to put a stop to the one-sided and unjust action of Lecompte in his persecution of free state, and granting favors to pro-slavery men—imprisoning one party and releasing the other, when charged with the same offences. The Governor's promptness and energy in arresting Hayes, and bringing him to justice in spite of Lecompte's opposition, is to be commended, even if we cannot fully understand where he gets his authority for superseding the judiciary of the territory. Marshal Donaldson has resigned, and is now in this city.

A Congressional Slaveholder, named Wm. A. Lake of Mississippi, recently passed through Ohio on his way to Washington, with three persons whom he had stolen, or whose services for life he had stolen, which is pretty nearly the same thing in the highest court of morals, whatever it may be in the highest courts of the United States. At Columbus, an attempt was made to procure their release by a writ of habeas corpus, but the officers refused to serve the writ. The telegraphic office was also for the time being under the control of Slavery, and a message which was ordered to be sent to Evansville, or some other place on the route of the honorable man-and-woman-thief, was destroyed or suppressed.

We are by no means surprised to see the slave-holders taking the very first opportunity to test the value of their recent victory. In their estimation, it has given them the power not only to travel with their stealings, in free States, but to tarry with them there as long as they please. And if this claim is disputed, they mean to have a legal decision in their favor from the Supreme Court of the United States.

The Lemmon case is already before that Court with a smart prospect of being decided in their favor.—*Boston Telegraph.*

Some of our readers may remember that when this case was last laid over by the Court, we offered the suggestion that it was so laid over beyond the then coming presidential election,—and that the complexion of the vote might influence the legal decision. We expect now to see it decided so as to make Slavery National. But *Nous Verrons.*

Washington, Dec. 1.—[Correspondence of the N. Y. Tribune.]—The resignation of Donaldson, U. S. Marshal for Kansas, has reached this city and has been accepted.—A great effort is making to have him re-appointed in spite of Gov. Geary, but the President insists that Geary shall be sustained. The vacancy has not been filled. Mr. Faim, deputy under Donoldson, is acting Marshal of the Territory, and may receive the appointment.

St. Louis, Dec. 1.—*Kansas.*—A letter to the Democrat, of the 25th ult., says that the militia under Col. Titus will soon be disbanded by Gov. Geary.

Gov. Geary has quietly submitted to the action of Judge Lecompte, in issuing a writ of habeas corpus in the case of Hayes.

It is reported that Col. Titus, with 100 men, will shortly leave the territory for Nicaragua.

The wife of John W. Browning, of Brimfield, committed suicide last Saturday forenoon by precipitating herself head foremost into a well in the cellar. She went into the cellar to get some potatoes for dinner, being in her usual health. She sat the dish of potatoes on the stairs, then removed the covering from the well and pitched in. She was found soon after, but life had departed. Her age was 41.

The Atlas learns that in consequence of the dismissal of Mr. Conway, for preaching upon the subject of slavery, steps are taking to place him in a new church in Washington, for which reason Mr. Conway has declined a call to Cincinnati.

Washington, Dec. 2.—Ehe President was called upon to-oay by some Southern Democrats, who protested strongly against the removal of Judge Lecompte.

The Cataract House at Niagara Falls closed for the winter last week. For the past two winters it has been kept open, but the experiment was not found profitable enough to warrent its repetition.

Ephraim Sprague of Stonington, R.I., was killed on the railroad on the 17th ult. He was laboring under an attack of delirium tremens.

From the Boston Saturday Evening Gazette

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

Shaving Made Easy.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

The Mustang Liniment cures Rheumatism;
The Mustang Liniment cures Stiff Joints;
The Mustang Liniment cures Burns & Wounds;
The Mustang Liniment cures Sores & Ulcers;
The Mustang Liniment cures Caked Breasts & Sore Nipples;
The Mustang Liniment cures Neuralgia;

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors.* Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away whatever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause,* by freeing the blood from impediments to its proper fulfilment of its life-giving functions.
This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases
Resulting from Poisons in the Blood,
that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES*
AND VITAL FLUID
are enabled to cure them so that they *stay cured.*
Vital Fluid 50 cents per bottle; Globules 25 cents per box.

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purposes ever put out. With a bad cold I should scarcely pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MASS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your Selectmen, for the South, appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 31 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our Clergyman. The first dose relieved the soreness in my throat and lungs; less than one-half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has laboured under an affection of the lungs for the past forty years. HENRY L. PARRS, Merchant.

A. A. RAMSEY, M.D., ALMON, MONROE Co., IOWA, writes, Sept. 5, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

AYER HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no relief we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Unless his kindness, as we do your skill, for she has improved from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBY'S

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best chemists in the world, and its cures all around us testify to the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they act superbly upon the stomach of all men. They are sugar-coated and pleasant to take, but powerful to cure. Their purgating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow dismper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasing to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dyspepsia, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Piles arising therefrom, Flatulency, Loss of Appetite, all Dropsical and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

Having received the Agency of this strong and reliable Company—one of the best in the United States, we are prepared to insure against loss or damage by Fire, on Buildings, Stores, Shops, Churches, Houses, Furniture, Goods and Merchandize, at equitable rates. Policies issued by
J. S. HARVEY & SON, *Agents*,
7 Exchange Buildings, Portsmouth.

Hartford Fire Insurance Co.

HARTFORD, CONN.
INCORPORATED IN 1810.
Capital $300,000—all paid in and invested.

THIS long established and well known Institution, has transacted a most extensive insurance business for more than forty years, throughout the United States and the British North American Provinces. It has aimed to secure public confidence, by an honorable and faithful fulfilment of its contracts; and owners of property are assured that all fair claims for loss under its policies will be liberally adjusted and promptly paid. Public Buildings, Manufactories, Mills, Machinery, Dwelling Houses, Stores, Merchandise, Household Furniture, Vessels on the Stocks or while in port, &c., will be insured as low as the risk will admit. The following gentlemen constitute the

Board of Directors.

H. Huntington, Charles Boswell, Job Allyn,
Albert Day, Henry Kenney, John P. Brace,

Applications for Insurance received by
JACOB WENDELL.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance of Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than ¼ of 1 per cent. annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1 10 of 1 per cent. on the amount insured. In the 3d, or Union Class, from Jan. 1 '53 to Jan 1856, the yearly average of assessments has been less than 1-5 of 1 per cent. on the amount insured.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Store has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Furnish stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

The Stanley Coal Burner!

NOTWITHSTANDING this Stove has been in the market more than eight years, and that hundreds of new patterns have since its introduction been brought before the public, still this, as a coal burner, stands pre-eminent. The subscriber has sold them for the past seven years, and the sales are annually increasing, and now has in Store the various sizes, which he offers at the usual price.

SOUSED TRIPE for Sale by
n22 LAFAYETTE LAIGHTON.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Heretofore, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Volunta ry testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We there fore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed Instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$40
Four and a half octave, " C to F.....60
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....120

IN PIANO CASE:

Five octave Melodeon, from F to F.....$100
Six octave Melodeon, " F to F.....120
Five octave, double reed, " F to F.....150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds.....350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,
cor. Niagara & Maryland sts., Buffalo,
and 87 Fulton street, New York.

Agents, for the sale of our Melodeons, for Portsmouth and vicinity,

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire machinery of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has probably been much more than can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powers, Chapman, Chappel and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle hispatriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of decorous enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION,

These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoas, Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."
To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb Oolong "	1.75	5 lb Java "	90
1 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1¼ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.
☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"
☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.
☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.
Boston, Aug. 19, 1856. oodlm

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered by inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS instead of *twenty,* as paid back by others, will be committed by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY.**
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11 1856 d1ecdly

FRIDAY, DECEMBER 5, 1856.

ANNUAL REPORT

OF THE CITY MISSIONARY OF PORTSMOUTH.

(Concluded from Yesterday.

As has been already remarked, your *present* Missionary has but just entered on his work. He has, however, made himself acquainted to a considerable extent with all the religious societies in the city, and has visited most of their Sabbath Schools.

In pursuance of his work he has called on over one hundred and seventy-five families. On some where sickness or other causes demanded it, he has called a number of times, making the whole number of visits two hundred and sixty-five.

He has preached twice at the almshouse and conversed with the sick and infirm at their rooms. Several times he has visited the jail for the purpose of conversing with its inmates. He has also taken some pains to look after the sailors who have come into our port, and has been gratified to know that his attentions and advice have been kindly and gratefully received.

When he has heard profane language from boys in the street, as he often has, he has not only conversed with them, but has put into their hands such tracts or papers as he deemed suited to their condition.

It is a satisfaction to him to know that he has been the means of improving the present, as well as the future condition of many under his care.

To see the home of the sick and destitute made comfortable, to learn from teachers that children, who, through his influence, have been gathered into school, are doing well, or to know that he has by unwearied efforts found a good home for some destitute or friendless child, this is a reward of Missionary labor which cannot be estimated by dollars and cents.

We cannot, however, measure the value of the city Mission by the present amount of good it accomplishes. If rightfully conducted it will infuse a leaven into the community which will gradually operate through the mass.

The deep interest which you have so generally manifested in the mission, and the kind reception which you have everywhere extended to him whom you have employed in that service, leads him to calculate with great confidence upon your co-operation in this work. Particularly would he ask it in reference to gathering and keeping all children of suitable age in your Sabbath and day schools.

Those who are now sent out by their parents to beg at your doors may seem too interesting as well as too needy to be sent away empty. But call them to your side, put a book into their hands, and see if your pity for their ignorance will not force you to adopt with them some course which will not thus interfere with their right to an education.

So long as you give to such, there are parents among us who will send their children to beg in preference to keeping them in school.

Your missionary is trying hard to stop this evil. May he not depend upon your co-operation in this matter?

No community can look too well after their children. They form the under stratum of society which is gradually rising to its surface impressed with whatever character we give it.

The hope of our country and of the world which is looking to us for the model of a christian republic, lies in the proper training of the rising generation. Each community must look after its own.

If after all that you have done in providing school rooms, teachers, &c., parents are still found in your midst who have so little regard to the interests of their children as to allow them to grow up in ignorance, will not philanthropy compel us to interfere in their behalf—at least so far as to remove their temptation to truancy—at any rate the children must be saved.

Are there not in this community some who might give employment to such children as would be glad to earn something out of school hours?

We might instance a case in your midst, where a benevolent lady has now a child under her care, whom she took into her family mainly for the purpose of keeping her out of the streets when not in school, and giving her such home instruction as she needed. This is real missionary work brought to our very doors.

It may be a great benefit to give a lad a pair of shoes or a jacket when he cannot go to school without them, but it is a greater benefit to provide him with the means of earning them.

The lad who can point to his garment and say, "I earned it," will have much more the feelings of a man than he who is forced to own that he received it as a charity.

To the sick and helpless we may cheerfully give without return; but to those who have health and strength, employment well paid for is the best gift we can bestow.

The coming winter will probably be one of much poverty and suffering. Provisions of every kind are unusually high. From many worthy families the means of support will be in a great measure cut off until the opening of spring.

Your Missionary will be obliged to witness many a scene of destitution. Gladly would he leave to other agencies the supply of all physical wants, but this cannot be wholly done.

Our blessed Savior, that great model Missionary, while everywhere rebuking sin and exhorting all to repentance and faith, considered it no unimportant part of his work to manifest his kind compassion by feeding the famishing and healing all manner of sickness and disease among the people.

Though we cannot do his works, we may, and ought to cherish the spirit which prompted them. In order to succeed in our work, we must to some extent accompany our instructions with the relief of present want.

It is for you to say what means shall be placed at our disposal. All that we can promise is, that whatever is entrusted to us shall be faithfully appropriated, as our best judgment may dictate, and accurately accounted for.

Let us remember that we are but the stewards of another; that to God belongs the silver and the gold with the cattle upon a thousand hills; and let us each act in reference to that day when the sentence of the Judge shall be, "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me."

Since the above Report was presented, your Missionary has been officially informed that he has been appointed one of the Directors of the Howard Benevolent Society and as such would have the privilege of aiding in the distributing of their charities.

He is also happy to learn that he will be appointed a distributing agent of the Portsmouth Bible Society, by which he will be enabled to put the word of God into the hands of all the destitute who are willing to receive and read it.

☞ The following mysterious rumor is from the Washington correspondence of the New York Herald:—

There is a rumor about town, communicated with studied caution and reserve, that a person high in position has betrayed unmistakable symptoms of insanity. The alarming probability has caused his particular friends to watch his course with intense interest, and if the symptoms of aberation are confirmed it will cause great excitement and changes in a certain quarter.

SYLVESTER WATERHOUSE, L. L. B., the distinguished young classical scholar from Harvard University, has been appointed Professor of the Latin Language and Literature in Antioch College, Ohio. Mr. Waterhouse is, we believe, a relative of the eminent Dr. Benjamin Waterhouse, who was for more than a third of a century Professor in the University at Cambridge. Mr. Waterhouse is said to be the youngest Professor in the country.—*Traveller.*

The Great Falls Journal says, Mr. Waterhouse is a native and resident of Barrington, in this State. He fitted for college at Exeter, and entered at Dartmouth. Remaining there one year he went to Harvard where he graduated both in the College and the Law school. His abilities and scholarship are of very high order, and we are confident that he will fill with much credit the chair to which he has been invited in Antioch College.

A CENTENNIAL.—At Newburyport, the services at the First Presbyterian Church on Friday last, upon the completion of the repairs of their meeting-house, and the 100th year from its building, were of great interest, and the church was crowded throughout the day. A great number of clergymen and other distinguished gentlemen were present. In the forenoon a historical sermon was preached by the pastor, Rev. Mr. Vermilye. In the afternoon, in the pulpit were four living pastors of the church, whose services carried us back, in the history of the church, to an early period. The four were, Rev. Daniel Dana, D. D., the eldest of the clergy in that city; Rev. Dr. Proudfit, who preached there from 1828 to '34; Rev. Dr. Stearns, who was there from '35 to '49; and Rev. Mr. Vermilye, the present pastor.

A Mrs. Mary Chamberlain lost two children in Boston, one 13 months old and the other four years, by the brutal practice of leaving them locked up in the house. They found matches to play with, set themselves and the house on fire, and one burned to death and the other smothered. This ought to be a caution to ten thousand women who do the same thing.

WASHINGTON, Dec. 3.—[Correspondence the N. Y. Tribune.]—Col. Wm. Spencer, of Newark, Ohio, late employee under Mr. Calhoun, Surveyor General of Kansas, has been appointed United States Marshal of Kansas, vice Donaldson, resigned. Judge Lecompte is not yet removed. The new Marshal was formerly Sheriff of his county, President of the Mansfield and Newark Railroad, and more recently was sent to Kansas by the President as Commissioner to appraise the Delaware Lands. He is spoken highly of here by the friends of free Kansas, and his appointment has given offense to the Southern Buchaneers. It is a triumph of Gov. Geary over Judge Lecompte.

NEW YORK, Dec. 4.—On the morning of 3d inst. a locomotive attached to a milk train of the New York and Erie Railroad, when near Suffern's station, exploded killing instantly G. W. Vance, the engineer, and severely injuring H. Carey, the fireman, and two brakemen.

FROM KANSAS.—*Chicago, 3d.*—Kansas advices of 26th state that Gov. Geary had taken measures for the recapture of the prisoners who recently escaped from Lecompton. The Grand Jury having found bills against several pro-slavery men, a public meeting has been called, Surveyor Gen. Calhoun presiding, at which Gov. Geary and his inquisitorial courts were repudiated and denounced, and a call issued for a Law and Order Convention to meet at Lawrence Dec. 1.

Col. Titus gives notice to all persons wishing to go to Nicaragua to rendezvous at St. Louis Dec. 10. A free passage is offered. He says after the settlement of the Central American question, the purpose is to turn attention to Cuba.

SINGULAR SUICIDE.—A remarkable suicide occurred on board the steamer Mount Savage on her last trip from Baltimore to New York. Capt. Watson states that at the mouth of the Potapsco, a man named John Foss, a native of Portland, Me., who was at the wheel, requested the second mate to relieve him, complaining that he was tired of living. Stepping from the wheel house he passed forward, and jumping upon the rail, called all hands to see him go. Hurriedly exclaiming "God Almighty have mercy on my unfortunate soul," he leaped overboard and rapidly passed astern before any one recovered from their surprise at such an act. As he passed astern he shouted "stop the ship!" "stop the ship," but before a boat could reach him he had disappeared.

This man was about twenty-six years of age and leaves a wife in New York. Capt. Watson states him to be a sober man, and can assign no reason for so strange a suicide.

WASHINGTON, Dec. 3.—No northern democrat here defends President Pierce's pettifogging in his message, relative to the late election and sectional parties. On the contrary, it is generally denounced as insulting, impertinent and silly. This opinion is concurred in by all Southern men, even those who are not his partizans. Senator Bright of Indiana, denounces it openly.—*Special Dis. to Bos. Adv.*

EFFECTS OF LOTTERIES.—A London paper some time since had the following announcement, "Died, at his lodgings in Scoreditch, Feb. 6, in a state of great indigence, at the age of 61 years, Mr. James Calvert, formerly a capital merchant. He was the sole tproprietor of the first prize ticket which ever drew so high a prize as £20,000, in the English Lottery, and in a subsequent lottery he got £5000." This result of lottery money is to be found generally attending those who are so unfortunate as to draw high prizes.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co.

HEALTH AND STRENGTH.

☞ DR. S. D. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized in a any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by druggists everywhere, and at my office, No. 51 Hanover St., Boston sus*6m

---

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all hope when and before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 1yIaAbS 6m.

For Sale Dec. 15th, 1856.

A HOUSE LOT near Boiling Rock. Enquire at the Chronicle Office. n26

DR. J. C. AYER, The world renowned Chemist of New England, is now stopping at the Burnet house in this city. He has been making a tour of the Western States, with his scientific associates, to investigate their remedial productions, or such as he can make remedial. We notice he has been received with marked distinction by our leading citizens of the West and are rejoiced to find they have shown a proper estimate of the man who has perhaps done more for the relief of humnu ills than any other American.—*Daily Journal, Cincannati O.*

☞ The alarm of fire on Thursday night, roceeded from the burning of the chimey of the old Goodrich house, Hanover reet.

FOREIGN NEWS.

The Arabia's dates from Liverpool come own to the 22d ult., as received at Halix. The James Baines from Australia ith £700,000 had arrived at Liverpool, hich relieved the minds of many who ere fearful with regard for her. The rench money market looks better.

The Liverpool cotton market betrayed ttle change; lower grades had fallen off little in price; good qualities were firm. breadstuffs and provisions were dull and little lower. The political news is not ery important.

A movement had taken place in Spain t Malaga. On the 18th of November the arrison was attacked by persons proclaiming the republic. The troops resisted, and rder was soon reestablished. Five of the nsurgents were killed. The garrison had even men wounded. Latest accounts report the insurrection as having no political im, but as simply intended for smuggling purposes. It is understood that all the prisoners taken have been executed. Further movements are expected, as the incorporation of the militia into the regular army had led to the desertion of vast numbers who will be quite ready for such attempts.

The force of the artillery is fixed at 12,000 men; the engineers at 3600, and the cavalry at 12,000. Tranquility is restored at Malaga. There have slight disturbances at Madrid, and numerous arrests have been made among the lower classes.

The elections at Lisbon, Portugal, had not been favorable to the government. The majority has been obtained by the candidates of the "regeneration."

The American and European Telegraph. The British government has, at the request of Cyrus W. Field of New York, ordered a steamer to be fitted out under efficient officers to examine fully the coasts of Ireland and Newfoundland, and to sound across the Atlantic between these countries, to ascertain the best place for laying and landing the submarine telegraph cable. The British government has further agreed to guarantee four per cent interest per annum on the whole capital required to manufacture and lay down the cable between Newfoundland and Ireland. Contracts for the whole extent of the Atlantic cable were signed in London on the 19th of Nov. It is all to be completed and placed on board two steamers ready for sea on or before the 31st day of May next, and by the 4th of July next it is confidently expected that we shall be in telegraphic communication with the United States.

The ships James Baine and Lightning had arrived at Liverpool with one million three hundred thousand pounds sterling in specie. In connection with these arrivals and the absence of farther withdrawals from the Bank of England, the Times anticipates an early return to the rate of 6 per cent;, but says that much will depend upon the next advices from India and China.

☞ Peterson's Ladies' National Magazine for January, 1857, is embellished with four full page engravings, viz. the the Butterflies, Les Modes Parisiennes, The Twins, and the Old English Inn. There are also several minor engravings, and a rich table of literary contents.—The Works of Affection.—and the Dead Bride, are almost opposite, but both gems. Chas. J. Peterson, publisher, Philadelphia. Price, $1.

Says the New York Evening Post: On Thursday, the 27th ult., at Wayland. Mass., died Convers Francis, aged 95. Mr. Francis was the father of Rev. Dr. Convers Francis, the Professor of Pulpit Eloquence in the Cambridge Divinity School, and of Mrs. Lydia Maria Child, the distinguished author. He was an excellent and liberal man, and the philantrophic societies of the day were much aided by his active and substantial benevolence. The illness of the last three years of his life, was alleviated by the constant attentions of his gifted daughter, whose filial ministrations have withdrawn her almost entirely from the pleasures of literary labor and the companionship of literary friends.

APPLES.—Since it has been ascertained that there is a very short crop of apples, not only at the West, but in the Eastern States and throughout the coutry generally, the price of fruit is enormously high.—Greenings retail at $5 per barrel; russets $5, &c. It is probable that apples will be higher by the next holidays than for many years past, at the time. Respecting apples which have been exported, the accounts are unfavorable. Instead of the total export being some 8000 or 10,000 barrels, as estimated early in the season, the amount will probably be nearer 20,000. The excessive exportation, taken in connection with the fact that the fruit has not kept well, has made the shipment of apples during the past season unprofitable, and in some cases we understand that shippers have experienced a loss of something like two dollars per barrrel.—*New York Journal of Commerce.*

CONGRESS.

WASHINGTON, Dec. 2.

SENATE.—After the reading of the message, a debate sprung up incident to the motion to print it, and the accompanying documents.

Mr. Hale of New Hampshire attacked the positions of the President, denying altogether the charges which imputed to a majorty of the of eleven states want of fidelity to constitutional obligations and a love of the Union. He said it was untrue that they sought to usurp the power of this government.

Mr. Brown of Mississippi thanked the President for his fidelity in sounding the voice of waning against sectional strife, and took occation to charge the supporters of Fremont with the intention of abolishing slavery everywhere, and in this connection, alluded to the views of Seward and Wilson.

Tuis called up Mr. Seward of New York, who remarked that what he had said on that subject was not in a corner, and referred Mr. Brown for further information to Redfield's publication of his speeches.

Mr. Witson of Massachusetts stated he had never entertained nor expressed the opinion that Congress had the power to abolish slavery within the states, nor had he uttered the sentiment that those with whom he had acted intended to assume or exercise such power.

Mr. Mason of Virginia maintained that the constant agitation of slavery brought the people of the South to the conviction that the preservation of that institution rested with themsleves alone, and that, if Fremont's party had been able to execute what they avowed, it would have led to a dissolution of the Union—immediate and eternal.

Mr. Trumbull of Illinois denied that the Republicans had any intention to interfere with slavery in the states. They had avowed the rights of the states, and that the union of the states, and the Constitution of the country, must be preserved.—He spiritedly controverted the President's remarks that the Missouri Compromise was obsolete, being unconstitutional, saying he had no foundation for the assertion. Adjourned.

HOUSE.—The House was engaged all the session on the subject of Whitfield's admission, and adjourned with out disposing of the question.

On Wednesday, Dec. 3, Mr. Clayton's decease was formally announced in both Houses, and they adjourned with the usual formalities. The other proceedings were not of great consequence. In the House,

The question pending was on Mr. Grow's motion to reconsider the vote by which the House refused to let Mr. Whitfield be sworn as a delegate from Kansas, and to lay that motion on the table.

Mr. Campbell of Ohio, made an unsuccessful motion to go into Committee of the Whole on the state of the Union, and Mr. Cobb of Ga., failed to obtain the unanimous consent of the House to draw for the choice of seats.

The friends of Mr. Whitfield made various motions which were negatively decided by yea and nay votes, with a view to postponing action on Mr. Whitfield's case till next week.

The French refugees, who arrived in New York a few days ago, are about to take up their new homes in Virginia. They go out under the auspices of the American Industrial Association of that city. It is proposed to make this party the nucleus of an emigrant colony.

THE FOUNDATION.—There is much in having a good foundation for any transaction or attempt. If the basis is right there is a fair chance at any time for abundant success. The foundation of Arnold's Chemical Medicines may safely be said to rest on Chemical and natural laws. They supply the elements wanting to give health to the system. they strengthen the blood and nerves, and they eradicate the causes of diseases from the blood. They cure costiveness by removing the causes, an item not previously obtained at will. They keep the stomach and bowels *right*, and this action, united with their strengthening qualities, makes them the most effective family medicines before the people. —*Boston Paper.*

A CURE FOR DISPEPSIA.—The Oxygenated Bitters are highly recommended by persons whose names give the most satisfatory evidence of astonishing cures by using this medicine. It will certainly *relieve* the worst cases.

SOUTHERN LOTTERIES.—We notice in the Southern papers that the Southern Military Academy Lottery at Mobile, Alabama and the Fort Gaines, Academy Lottery, at Atlanta, Georgia, of which S. Swan & Co. of Atlanta, Ga., and S. Swan, of Montgomery, Ala., managers, are to be drawn on the 18th and 20th of December respectively. These lotteries are not arranged with the mysterious combination numbers which made lotteries unpopular some years ago. The tickets have a single number on them. All the tickets are placed in one wheel, and the corresponding prizes in another one. When a number is taken out a prize is taken from the wheel, and that settles the matter. Thus ten dollars, or a half, or a quarter of that sum, will purchase of S. Swan & Co. a whole ticket or proportional share. The lottery drawing is supervised by the commissioner of the state, and the reputation of the managers for integrity is so high that nothing but fair play need be anticipated. Now, if people will speculate, the advocates of lotteries contend that this is as safe and reasonable a way as any other to make investments It saves a man's precious time, and he does it legally because he purchases his tickets in a state authorizing the speculation, corresponding with the managers to do so, as we suppose thousands of persons do, as we have heard of many large prizes being won not a thousand miles from this neighborhood—and what is better of their being promptly paid. Many arguments are used to prove that the bar upon lotteries in the Northern states has increased the spirit of gambling, which vents itself in worse channels than the comparatively innocent one of risking a few dollars on reasonable chances.—[Adv.

From the Boston Saturday Evening Gazette

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

d3 JOSEPH H. FOSTER.

J. WENTWORTH,
(Successor to A. Littlefield,)
DEALER IN
Fancy Goods, Toys, Etc.,
No. 309 WASHINGTON STREET,
BOSTON.

THE subscriber having leased the store known as "WOODFORD'S OLD STAND," and purchased the stock, consisting of Rich Fancy Goods, Toys, Games, Children's Carriages, Rocking Horses, Propellers, and all other kinds of goods appertaining to a
First Class Toy Shop;
and, with much labor and care in the selection, added greatly thereto, making it as complete and attractive a stock as possible; would respectfully invite those who hitherto patronized the establishment, as also his friends and the public generally, to an examination of the same; trusting by strict personal care and attention, to merit a continuance of the support so liberally bestowed upon it during the past seventeen years.
Boston, November, 1856. J. WENTWORTH.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scarcely pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicine are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the past forty years. HENRY L. PARES, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid she could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Wonderfully has kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried Ayer's CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness to the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE science of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and nrow distempers, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass

STOVES! STOVES!

Frank Jones' Improved

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stoves. Also, Shop and Box Stoves. Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest price.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

The Stanley Coal Burner!

NOTWITHSTANDING this Stove has been in the market more than eight years, and that hundreds of new patterns have since its introduction been brought before the public, still (this, as a coal burner) stands pre-eminent. The subscriber has sold them for the past seven years, and the sales are annually increasing, and now has in Store the various sizes, which he offers at the usual price.

SOUSED TRIPE for Saleby
n22 LAFAYETTE LAIGHTON.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000

of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINE THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	130

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than those sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machine of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

THIS National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as a Book for the American People.

Every Public Institution of our country, every family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle his patriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of generous enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

May 17. JOHN H. GARDINER,

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Sole Agents for the United States and Canada, I. C. BALDWIN & CO., Rochester, N. Y.

TUTTLE & MOSES, Auburn, N. Y., General Agents.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by one Druggist in every town in the United States.

Burr, Foster & Co. 1 Cornhill, Boston, Wholesale Agents for New England.

JOB AND CARD PRINTING promptly executed.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power over those humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed*. It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

Burr, Foster & Co., 1 Cornhill, General Agents. Weeks & Potter, 168 Washington street, and Geo. Goodwin, 99 Union street, Wholesale dealers. Mansfield & Co., 11 City wharf, Special Agents. Boston.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices*. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	90
5 lb. Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half of the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Boston, Aug. 19, 1856. oo6m

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, Oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of forty), as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in his and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Boston, Jan 11 1856 d1eodiy

For Sale.

4 HOUSE LOTS, containing 1¼ acres each. They would be sold separately, or together in one lot, to suit the purchaser. The lot fronts the road leading to Newington,—and as good land as there is in the county.

OFFICIAL VOTES FOR ELECTORS

As officially counted by the Governor and Council, the votes for Electors of President and Vice President, given in this State on the 4th ult. stood by counties as follows:

	Fremont.	Buch.	Fill.
Rockingham,	5914	4915	111
Strafford,	3566	2683	20
Belknap,	2062	2220	21
Carroll,	2185	2511	17
Merrimack,	4949	4780	43
Hillsborough,	7081	5326	85
Cheshire,	3910	2269	56
Sullivan,	2389	1960	19
Grafton,	4977	4551	35
Coos,	558	726	1
	37,591	31,891	408
	31,891		
Republican plurality,	5,700		
Fillmore vote,	408		
Majority,	5,292		

Returns from the following towns were not received in season to be counted, viz.: Langdon, in Sullivan county; Woodstock, in Grafton county; and Berlin, Clarkville, Dalton, Dixville, Dummer, Lancaster, Milan, Millsfield, Randolph, Stark, Stratford and Stewartston, in Coos county. The non-appearing votes from that county were brought in on Monday, by the Sheriff, too late to be counted.

Whole number of votes in 12 towns not officially returned, as follows:

Fremont, 754; Buchanan, 898; Fillmore, 14.

Whole vote in the State for	Fremont,	38,342
" "	Buchanan,	32,789
" "	Fillmore,	422
	Whole vote,	71,556
Fremont's majority,		5,134
Fremont's plurality,		5,556
Majority against Buchanan,		5,978

THE PRESIDENT'S MESSAGE.—The Washington correspondent of the Boston Advertiser says:

"No northern democrat here defends President Pierce's pettifogging in his message, relative to the late election and sectional parties. On the contrary, it is generally denounced as insulting, impertinent and silly. This opinion is concurred in by all southern men, even those who are not his partisans. Senator Bright of Indiana denounces it openly."

ILL HEALTH OF DR. KANE.—The New York Journal of Commerce says:

"We regret to state that letters from London by the last steamer bring the most discouraging accounts of the health of the brave arctic navigator. He is very pale—much reduced in flesh—and his night sweats are 'terrible.' His cough is also alarming. His physician has enjoined him to leave for a warmer climate as soon as possible, and he was accordingly to sail on Monday the 17th November for St. Thomas and Havana."

SALEM CITY MISSION.—In a card from Mr. Ball, in the Salem Gazette, he tenders his thanks to the friends of the poor, by whose liberality about one hundred and fifty families were provided, through him, with a good dinner on Thanksgiving day.

Those who attended the Portsmouth alms-house at the dining hour on that day, and saw on the large tables twenty fine turkeys and proper accompaniments, and the happy countenances which animated the three score and ten partakers, would almost be induced to be Mayor for one term, that they might through all coming time make so many happy on one day in the year.—*Journal.*

DEPARTURE OF THE "MORNING STAR."—On Monday afternoon, interesting services were held on board of the new missionary ship "Morning Star," lying at India wharf. The deck of the vessel and the wharves in the vicinity were crowded with the throng, many of whom were ladies.—Services commenced by the singing of the hymn commencing, "Jesus shall reign where'er the sun," &c. Rev. Dr. Worcester, of Salem, then briefly addressed the assemblage. Prayer was then offered by Rev. Mr. Bingham, and the two last stanzas of the Missionary hymn were sung, and the benediction was pronounced by Rev. Dr. Pomroy.

As those on board were passing from the vessel to the wharf upon a plank, which was rendered very slippery from the quantity of snow upon it, Mrs. Dutch, of Chelsea, slipped, and fell into the dock between the ship and the wharf. Her clothes fortunately buoyed her up on the surface till assistance could be rendered, and she was released from her somewhat chilly seat, without having experienced any severe injury.

The Morning Star left her dock about 2 o'clock on Monday afternoon.—*Boston Atlas.*

CALIFORNIA ITEMS.—The Democrats have carried the State by at least 8000 majority, and the legislature will be the same. This gives them two United States Senators. The reformed and republican ticket carried San Francisco and that county. The election passed off very quietly.—The Alta says:

Our citizens had adopted the most admirable and perfect arrangements for the protection of their rights. The boxes were all glass; the judges and inspectors good, reliable men, and the volunteer policemen knew their duty and dared to perform it. Rowdyism was at an extraordinary discount. The Caseys and Mulligans were missing, and but for the interference of that chief of tyrants, old alcohol, we do not believe there would have been a case of fight in any of the districts.—Our citizens have reason to rejoice over the victory they have gained against the enemies that but a little while ago surrounded them. The rule of corruption has passed away, and we are once more a free and sovereign people.

SAN FRANCISCO, Nov. 5.—Philip Herbert leaves to-day for Washington. On Monday he challenged Thomas S. King, editor of the Evening Bulletin, for articles commenting upon the murder of Keating, which challenge King returned with a contemptible message. On Tuesday, Herbert stood on Montgomery street all day with a bludgeon, waiting avowedly to attack King. The latter however brushed past Herbert at 5 o'clock, on his way to dinner, in company with two friends, without any hostile demonstrations on the part of our Congressman. Had Herbert assailed King he would have adorned a lamp post in ten minutes thereafter.

VOLCANIC ERUPTION IN THE PACIFIC.—Capt. Newell, of the whaling bark Able Fraser, of New Bedford, at San Francisco, reports that on the 26th of July last, a volcano burst out on the island of Gunimask, in the Pacific, throwing the water some 800 feet into the air, followed by an ejection of lava which covered the deck of the ship. Five other vessels were lying near at the time, but received no damage.

SACRED CONCERT.—We learn that Mr. H. P Crane has made arrangements for a Concert of Sacred Music, next Sunday evening, at the Universalist Church. He is assisted by a class of our own singers, and presents a very attractive programme. Those who attend will no doubt be amply repaid

Morning Chronicle.

SATURDAY, DECEMBER 6, 1856.

MUSICAL CONVENTIONS.

These annual gatherings of choristers and music teachers, of late so common in New England and other parts of the United States, originated in New Hampshire. In 1829, the idea of holding musical conventions was suggested to the members of the New Hampshire Central Musical Society, at Goffstown, and the first was appointed to be holden at Concord in September. It was a two days meeting, and was conducted by Henry Eaton Moore. In 1830 a similar meeting was held at Pembroke, closing with a concert; and in 1831 the third musical convention was held at Goffstown. These were all under the lead of Mr. Moore. Soon after a three days' convention was called and holden at Haverhill.

In 1836 a convention was holden in Boston, by the Boston Academy of Music, under the direction of Messrs. Lowell Mason and George James Webb, The first class afforded such encouragement as to lead to the appointment of another the following year, which was attended by a much larger number of teachers. This class gave increasing proof of the utility of the plan, and led to the appointment of a third. The attendance at the third class was so much increased, that a fourth was appointed, and the thing began to assume the appearance of an annual festival, which was looked for with increasing interest.

After a few years the interest thus awakened gave rise to other conventions, held at the same time, and in the same city, under other auspices, The *original* class, however, suffering neither in numbers nor interest on account of the other conventions, annually increased, and the fourteenth annual meeting of the regular American Convention and Teachers' class, held by Messrs. Mason and Webb, at Boston, in Octo 849, was more numerously attended than any of its predecessors, more than one thousand persons being in attendance.

The third annual convention of the Rockingham County Musical Association, will be holden at Portsmouth, commencing Tuesday, Jan. 6, 1857—Prof. B. F. Baker, conductor.

PORTLAND.—The Journal says:—Under the present free rum law, intemperance flows on apace. For years Portland has not seen so much drinking and intemperance. It is truly startling, and still there is nothing done by our City authorities to prevent it. Some days ago, a gentleman of the liberal school called on his honor the Mayor—as we understand—and asked him if something could not be done to check this tide. His honor told his friend and constituent that nothing could be done because the temperance men would not complain, and that he could not do anything because the naughty temperance men will not help him. The Mayor, we suppose, considers this a convenient shift. But what has his honor to say to the following provision of the law:

SECTION 19.—It shall be the duty of the Aldermen, Selectmen and Assessors, respectively, in every city, town and plantation, to prosecute all violations of this act.

Cannot the Mayor urge the Aldermen to the performance of their duty?

And why should the Mayor wait for the people to complain for the violation of this law, any more than for the violation of other laws? Does not his oath require him to enforce as chief magistrate of the city, all laws?

Gov. Bragg, of North Carolina, has transmitted to the Legislature of that State, which is now in session, the resolves of the States of New Hampshire, Massachusetts and Ohio, relating to Kansas, slavery kindred subjects, remarking that they indicate such a state of public mind in the States from whence they emenate, as to render it worse than useless, in his opinion, to undertake any reply to them, and recommends that no further notice be taken of any of them.

FOR THE PRESIDENT.—The Portland Argus says, of the Message:

The argument on the Kansas question is a clear and logical vindication of the course of the administration.

AN ANNOUNCEMENT.—The Boston Courier of Friday says:

"Rev. Mr. Pike has announced that he will not be again a candidate for Congress in the first district" in New Hampshire.

We never saw this announcement until we saw it in the Courier. If true, it is remarkable that Mr. Pike should make that paper his organ for the occasion.—But it is probably a *bogus* report, raised by some outside barbarian who would like to see it come true, but may more likely be disappointed.

SENATORS TRUMBULL AND CASS. — The Washington correspondent of the New York Tribune relates the following:

A lively scene occurred between Senators Trumbull and Cass. Mr. Trumbull quoted a decision of Chief Justice Marshall that Congress has the same legislative powers over a Territory that a State Legislature has over its citizens. Mr. Cass demanded the production of such decision, stating that he had never seen it. A page was dispatched for the first volume of Peters's Report, and the decision was read, to the great confusion of Gen. Cass, and the amusement of the grave Senate and the crowded galleries.

Gen. Cass might be innocently ignorant of this decision,—but he could not have been always ignorant of the principle and usage about Territories. He, however, in common with many editors and others claiming to be somebody, has found it convenient to *forget* the difference between a State and a Territory. There is, however, this important difference, viz.: that the State chooses its own Governor, fixes his salary, pays it; appoints its Judges, &c.—But in the Territory, all these little items are different,—the President appoints the Governor and Judges; and Congress fixes their pay,—and the powers and duties of the citizens of the State and Territory vary in many other instances.

RUMORED DUEL BETWEEN COL. FREMONT AND MR. TOOMBS.—A correspondent of the Albany Argus says that Col. Fremont has challenged Mr. Toombs of Georgia to a duel, on the ground that Mr. Toombs had made reflections on his birth and questioned his legitimacy.

A GLEAM OF HOPE.—The leaders of fashion in Paris are getting tired of hoops and extended crinoline. By way of bringing down the great circumferences gradually, however, they are beginning to flatten the hips. The next new dresses, therefore, instead of puffing away from the waist, will shed the silken torrent down in a direct line, so that the flow of the lower circle must be considerably reduced. We are thankful for this gleam of hope, at last, says Porter's Spirit.

BREACH OF PROMISE.—In the Supreme Court at Cambridge, Mass., Miss Lucy Ray recovered $1040 of Mr. Joseph Smith who had married another lady after agreeing to marry Miss Ray. The parties belong to Lowell.

KANSAS.—A Lawrence letter says:

"Gov. Robinson has returned in fine health and spirits. It is his intention to authorize the convening of the legislature next January, as provided by the Topeka Constitution. No flinching—no compromise.

Two villains in Tallahassee, recently went into a house and attempted to violate a girl agad 18. She seized a gun, shot one fatally, and wounded the other.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

Enfield, Aug 26, 1848.

DR. HAYDEN: Sir,—I have sold all the pills I had of you last week, and I am happy to say that the the testimony of all who have used them is that they are a very superior medicine. Please send me two gross immediately and oblige

MATTHEW WHITE.

WM. R PRESTON. Druggist, wholesale and retail agent, Portsmouth. 6td&w

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co.

HEALTH AND STRENGTH.

DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston aus8 6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no row'd hot it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all druggists. n27 TuTh&S 6m.

SOUSED TRIPE for Sale by
n22 LAFAYETTE LAIGHTON.

PRO-SLAVERY RUSE.—A despatch from St. Louis, 5th, says: "The Democrat has a letter from Lawrence, signed by Col. Harvey and 90 free State men, denouncing Kansas Aid Societies as speculating operations, originating in Yankeedom — and warning all honest donators to be duped no longer for bleeding Kansas.

As a party of four persons were playing cards last Sunday morning, at Circleville, Ohio, a dispute arose between Thomas Moore and another man, when Moore caught up a corn cutter and literally cut his opponent to pieces. Moore was arrested.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Honarseness.

BRIMFIELD, MASS., 20th Dec, 1855.
Dr. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL, by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE Co., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no old remedy could procure her relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We place his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills,

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, All Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove will many, for several years;—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *price*.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stoves. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the low est prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.
61 Market street, Portsmouth, N H.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resp'lly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	90
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	130

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,

Chickering's Piano Fortes.

BOSTON, Oct 1856.

WE have appointed JOHN S. HARVEY & SON *sole Agents* for the sale of our Piano Fortes for Portsmouth and vicinity, and have made arrangements with them to supply our Instruments on the same terms as can be purchased at our Sales Rooms.
CHICKERING & SONS.

WE have now on hand and are constantly receiving the above Instruments, and shall take great pleasure in exhibiting them to all who favor us with a call. The world-wide renown and celebrity of these Piano Fortes and the acknowledged superiority of the makers over all competitors are too well known to need comment.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have fully tried and approved. Sewing machines of other manufacture often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The extreme RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, a family sewing machine ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Sole Agents for the United States and Canada, I. C. BALDWIN & CO., Rochester, N.Y.
TUTTLE & MOSES, Auburn, N. Y., General Agents.
N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.
For sale, wholesale and retail, by W. R PRESTON, Portsmouth, and by one Druggist in

LOCAL.

CITY COUNCIL.

Dec. 4th, 1856.—In Board of Aldermen, Mayor Jenness in the Chair.

Petition of J. J. Lambert and others, for a bell to be placed on the Franklin School House to be used as a fire-bell.—Referred to Committee on City Lands and Buildings.

Jefferson Hall was granted to the Portsmouth Cornet Band for a levee during Christmas week.

Petition of many citizens asking the City to purchase the Pleasant St. Meeting House,—referred to joint special Committee, consisting of Aldermen Rundlett and Yeaton, and Messrs. Gerrish, Clarke and Wendell.

Deaths in November.—The record of mortality in Portsmouth, as kept by Mr. Robert Bell, superintendent of city hearse, is as follows:—

Males, five—aged 1 month, 4 months, 18 years, 45, 76.

Females, six—aged 8 months, 9 months, 49 years, 70, 84, 87.

Total deaths for the month, eleven.

Oysters, Fine Oysters!—So they were very fine, of a cold night,— when Mr. Washington Freeman, the purveyor of all the oysters, sent in to the Morning Chronicle office a good full oyster supper for all hands present, with the fixings.—May his shadow never be less, nor his oysters fail to be fat and flourishing.

☞ A new Missionary ship, built by the donations of the Congregational Sabbath School of Boston, sailed on the second for the Sandwich Islands. Previous to weighing anchor, appropriate religious exercises were held on board. The ship, the wharf, and the whole immediate vicinity were crowded with spectators. The ship is well furnished, and has on board a valuable library, which, as well as the most valuable articles of furniture, were donated by the friends of the missionary cause, Sabbath Schools, &c.

A Horrid Story.—A free negro in Manchester, Ohio, about Nov, 20, broke into a house by night, and ravished and otherwise abused a respectable married woman whose husband he knew was absent.

The woman alarmed the neighbors, who took the rascal and hung him; but the rope broke, and the officers of the law put him in jail.

The husband of the woman returned, and a mob headed by her brother, went to the jail, smashed the locks and bolts, took out the prisoner, in spite of the sheriff and his gun, led the wretch to a tree, and hung him again till he was dead.

This summary and condign justice is in strict accordance with the Laws of Moses, which aimed to rid the land of such monsters.

☞ George Crowther, a merchant doing business in New York, and residing in Brooklyn, L. I., was last week sentenced to a fine of one hundred dollars and ten days imprisonment in the common jail of Kings county, N. Y., for brutally whipping his niece, a young lady sixteen years of age, with a cane, for disobedience of his orders as guardian.

A party of lads in Bridgewater, Penn., who had dug a cave in the side of a hill, whither they were in the habit of resorting, were, on Tuesday last buried in the earth by the roof of the cave falling in, having become saturated by recent rains. Two of the lads were taken out dead, and the remainder were seriously injured.

R. C. Gardiner, of Detroit, claims to have invented a sewing machine no longer than a pair of scissors, which will do the work in first rate style, and can be sold for a dollar.

The attempt of the Chicago Gas Works to make good gas from Illinois coal, has proved a failure.

A small pocket telegraph apparatus has been invented, not larger than a tobacco box, which can be attached to the wire at any point along the line, at the instant, and a message sent as desired.

☞ The Quebec Chronicle of the 27th ult., states that sleighing has commenced in Quebec, several inches of snow having fallen.

The New England Society of Montreal will celebrate the landing of the Pilgrims on teetotal principles.

Several gentlemen in Charleston, S. C., are about to present a carriage to the President elect.

☞ The Installation of Rev. E. H. Richardson as Pastor of the Congregational Church in Dover, will take place on Wednesday evening, 10th inst.

Thursday, Dec. 4.

Senate.—Mr. Comegyns of Delaware, appointed to fill the vacancy occasioned by the death of Mr. Clayton, appeared and took his seat.

The credentials of Mr. Foot, elected by the Vermont Legislature for six years, were presented by Mr. Collamore.

The motion to print 15,000 extra copies of the President's message and accompanying documents was then taken up,

Mr. Fitzpatrick of Alabama said this motion had always been submitted in similar cases. He had thought it would have been agreed to without objection. He was pained to see this occasion seized upon to arraign the President for the manner in which he had performed his constitutional duty of communicating to Congress from to time such facts and suggestions as he might deem necessary and expedient.

Mr. Wade of Ohio said the Senator from Alabama had expressed his surprise and regret that this subject should have been discussed upon this occasion, and considered this an improper time to take it up. But if it was a legitimate and constitutional question, and was proper to be submitted by the President in his annual message, then it was especially a proper question for Congress to consider. The President was therefore responsible for the commencement of this agitation, if blame was to be cast upon any one for that. Nearly one-half of his message is taken up with the discussion of the slavery question. Mr. Wade charged the President with having pronounced a libel upon a large majority of the people of Ohio. He talked in his message as if the election of Mr. Buchanan was an endorsement of his administration. Did he not know the Democratic party did not dare to renominate him on account of his complicity with the Kansas affair. If the avowal had been openly made before the election, as it is now made by the Senator from Virginia, (Mason) that the South claims the right of expansion for slavery as much as its protection where it exists the freemen of the North would have given in almost unanimous verdict against that party.

Mr. Butler of South Carolina defended slavery and was indignant at the abolitionists. He said the South never has made sectionalism. He proceedeed to show that the slave states were flourishing, and the institution not so baneful as the sentimentalists of the North endeavored to represent it.

The question was farther debated by Messrs. Rusk, Fessenden and Benjamin, when without disposing of the subject the Senate adjourned.

House.—The Speaker announced the Standing Committees. They are nearly the same as those of the first session.

The question of Mr. Whitfield's admission as delegate from Kansas has been resumed.

The yeas and nays were frequently taken on motions made by Whitfield's advocates to adjourn, for a call of the house, etc., their desires being to stave off present action thereon.

This matter was debated till adjournment.

Ufford's Celebrated Patent

Smoke Consuming Lamp—

An article well known, producing a SPLENDID LIGHT, at the least expense in the world, requiring only the POOREST OIL or other material, and incomparably superior to any Lamps ever offered to the public. For sale by G. N. CARLETON, 15 Daniel street, Portsmouth, N. H. November 4th.

From the Boston Saturday Evening Gazette

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

Shaving Made Easy.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

Johnson begs leave to inform the Ladies and Gentlemen of Portsmouth and vicinity that he has taken a shop, No. 21 DANIEL STREET, where he will endeavor to oblige all who may favor him with their patronage, and will keep for sale a good article of RAZORS that he will warrant to give satisfaction. Also, an assortment of Table and Pocket Cutlery, Glazier's Diamonds, &c.

N. B.—Knife Blades put in, Glazier's Diamonds re-set, and Parasols neatly repaired. n22

Winter Hats.

This day opened, the latest style of

LADIES' WINTER HATS,

at No 26 Market street, by n17 2w MRS. O. M. TRICKEY.

MacGregor Stoves.

The subscriber has for sale all sizes of this long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—not a dry, suffocating air, such as is often generated by coal stoves

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and examine at E. A. STEVENS. d1 46 Market street.

"The Greatest Book of the Age!"

History United States,

From the earliest Period to the Present Time.

BY J. A. SPENCER, D. D.,

Member of the New York Historical Society, Membre de la Societe Orientale de France, author of "Egypt and the Holy Land," etc., etc

This National History, written by an accomplished American author, and copiously and beautifully embellished by American artists, (among whom are Leutze, Weir, Vanderlyn, Powell, Chapman, Chappell and Oertel,) commends itself by its sterling merit to the favorable consideration of the American public.

No pains or expense have been spared to render this work worthy of being in every respect hailed as the Book for the American People.

Every Public Institution of our country, every Family—every citizen should possess such a National Work, that he may con over its instructive records, and kindle his patriotism at its spirit stirring narrative; and point to its exhibition of genius and skill, with those feelings of generous enthusiasm, which such a production of native talent cannot fail to awaken in the heart of every true American.

The work is now in course of publication in semi-monthly parts, price Twenty-five cents each, delivered at the Subscriber's residence or sent by mail postage free. Subscribers' names respectfully solicited, and all letters and inquiries promptly replied to by the Publishers.

MARTIN, JOHNSON & CO 27 Beekman street, New York.

W S WEIGHTMAN, 22 Bromfield street, Boston, General Agent. o15 2m

Job and Card Printing.

Having recently much increased our facilities for the execution of Job and Card Printing in all its varieties, promptly, and in good style, and being ready to furnish our office still further with the new styles of type and the improvements in this branch of the business, as occasion may render desirable—we would respectfully solicit orders in this line, from our friends and the public, in the city or elsewhere.

In order to devote more attention to this branch of our business, we have engaged the services of Mr. WM. H. FOSTER, the well-known, experienced and tasteful Job Printer, who will have charge of the Job and Card Department; and will run

FOSTER'S CARD PRESS

in a manner that cannot fail to suit gentlemen or ladies who may favor us with their patronage.

Orders by mail or express, promptly answered. Prices to suit the times.

FRANK W. MILLER. Chronicle Office, Portsmouth.

National Monument

TO THE PILGRIM FATHERS,

TO BE ERECTED

AT PLYMOUTH, MASS.

The Pilgrim Society, of Plymouth, having decided to erect a Monument at Plymouth, to commemorate the virtues of our "Forefathers," decline to announce to the American people, that they have accepted a design presented by the undersigned, and respectfully request all who cherish the memory of those who laid the foundations of the Civil and Religious Liberties of our Country, to aid by contribution in the erection of said Monument.

JOHN CHRISTIE, Esq., of Portsmouth, is duly authorized to collect subscriptions for this object, in New Hampshire.

HAMMATT BILLINGS, Architect, n25 8½ Tremont Row, Boston.

J. WENTWORTH,

(Successor to A. Littlefield,)

DEALER IN

Fancy Goods, Toys, Etc.,

No. 309 WASHINGTON STREET, BOSTON.

The subscriber having leased the store known as "WOODFORD'S OLD STAND," and purchased the stock, consisting of Rich Fancy Goods, Toys, Games, Children's Carriages, Rocking Horses, Propellers, and all other kinds of goods appertaining to a

First Class Toy Shop;

and, with much labor and care in the selection, added greatly thereto, making it as complete and attractive a stock as possible; would respectfully invite those who hitherto patronized the establishment, as also his friends and the public generally, to an examination of the same; trusting by strict personal care and attention, to merit a continuance of the support so liberally bestowed upon it during the past seventeen years.

J. WENTWORTH.

Boston, November, 1856.

Rich Furniture,

AND NEW STYLES.

Owing to the liberal encouragement and constantly increasing patronage, the subscriber announces to his friends and the public that he has enlarged his Stock of ELEGANT FURNITURE, and has added to his Ware Rooms, the Chambers recently occupied by Messrs. Barton & Cobb, next store west of his old rooms.

Being determined to satisfy all those who may please to call on him, he has employed one of the best CARVERS from Boston, to enable him to manufacture the best styles of Parlor Furniture, of Rosewood, Black Walnut and Mahogany, (that cannot be easily outdone,) for less than Boston prices.

Those who call at his place of business will find Rosewood, Black Walnut, and Mahogany Marble top CENTRE TABLES, from $16 to $40.

Also a great variety of all other articles, such as Sofas, Large Easy Chairs, Ladies' Sewing do., &c.

16 elegant Chamber Sets, new style; Mahogany and Black Walnut Washsts; Card Tables, &c.

Eight dozen Mahogany, Black Walnut and Rosewood Stuffed Chairs, from $2 50 to $8, covered with Plush, Damask and Hair Cloth.

All kinds of common Furniture, such as Cottage Bedsteads, Tables, Cane Seat and Back Chairs, with and without rockers; Gilt, Rosewood, Mahogany and Black Walnut frame Looking Glasses, and a great variety of all common and useful articles.

JOB AND CARD PRINTING promptly executed.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of all impurities and humors. Hence its power to cure humors that mere medicine cannot cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates, and always when ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable material. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to bright and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause,* by freeing the blood from a improper admixture, and by its proper fulfilment of its life giving functions.

This is the principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is the medication in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
6 lb. Oolong "	1.75	6 lb. Java "	[illegible]
6 lb. Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty,* as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—the immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in his and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in a suring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1856.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Boston, Jan 11 1856. dfeodjy

For Sale.

4 HOUSE LOTS, containing 1½ acres each. They would be sold separately, or together in one lot, to suit the purchaser. The lot fronts the road leading to Newington,—and as good land as there is in the county.

MONDAY, DECEMBER 8, 1856.

LETTER OF WINNIPISEOGEE

TO UNCLE TOBY.

STEAMER DOVER, ALTON BAY, Oct. 29, 1857.

My Dear Uncle Toby:—You know I took kindly to you, when at your instance and without my consent, Mr. Chency introduced us many months ago. I have written much less frequently than I intended, but now will give you the history of my two attempts to visit you. Indeed I have nothing else to do, as you will see when I come to tell you how I came here and why.

My first attempt to visit you was early in October. I do not wish to flatter you by intimating that you were the sole object of my visit. From boyhood I have had a love for the ancient town of Portsmouth, because there I first saw pavements, square-rigged vessels, and really salt water. Small reasons, you say; but I too was then small; and it is a fact that the three were sufficient to give me a bias that I never have lost. I have since learned with great satisfaction that it enjoys one of the best harbors in New England, which is never frozen over. But I have been saddened to see that it has long since stopped growing; and I was anxious to find out why. My very attempts to get at the patient have revealed to me, I think, the nature of the disease.

My first attempt, thanks to the steamer Dover and the Cocheeho Railroad, succeeded admirably till I came within eight miles of you. Here I was brought to a stand. Had the cars kept on only 15 minutes longer I should have hopped in upon you. But here they stopped, and said the track went no further. They told me that I could go by stage 3 miles, or wait till a train would take me 13 miles towards Boston or carry me six miles towards Portland. Now I do not like a choice of so many ways, and so very different, but I chose the latter. After riding to near S. Berwick, I got out and walked over to the road that runs from Great Falls to Portsmouth, and found it *dead*. The uniform coating of rust on the rails told a sad tale for the stockholders. Meditating on this, I turned to calculate my course. I had limited myself to two days only to make a journey of 56 miles and back, and found I must return without seeing Uncle Toby. You may wonder what I did with so much time. I found I must start back the same day, as the only train from Dover for the head of the lake left in the morning before the arrival of the train from Berwick. So I reached Dover on my return, before dark, and left late next morning for the lake. Here I found the Dover waiting for the train. I stepped aboard and before noon was far on my watery way.

But here came a reverse. The Dover put into Wolfboro'; and then carried me straight back to Alton! True, this little trip cost me nothing but the time, but I counted that something when for want of that element my trip had totally failed. But at early bedtime, I was home again, and the trip stood adjourned till yesterday.

I now determined to make accurate calculations on my arrival at Dover, and lose no time, even if I had to hire a guide. So I started at break of day, and duly reached the halting point rather than terminus of the Cocheeho Rail Road. But here I had to wait for a train, so I discovered that I could not reach you that day, and I stopped over at Rochester. At 11 o'clock today I left there, hoping to be here as early as before. Not so. After a preliminary voyage to Wolfboro' and back, a thick storm has laid an embargo on me, and here I am. Night is settling on the lonely boat, as I conclude this long preface to a letter which I meant for a kind one, but to which my various disappointments will I fear give some acerbity.

What earthly use is there, Uncle Toby, in a town that one cannot get to? Nature meant your sleepy, old, woe-begone, fossilized, hide-bound, atrophied, stationary town, for our emporium; but your citizens are resolved that future gazetteers shall write "Portsmouth, a fishing sea port, near Dover and Great Falls, between Kennebunkport and Newburyport." Now why is this? Cannot you build six miles of railroad to save your life! Is there a hill in the way that you can neither get round nor tunnel? Are the Doverians so selfish and the legislature so powerless, that you cannot cross the Boston and Maine track?

On board the boat I saw a country trader who had been down to Dover to buy fish, salt, iron and groceries. I asked him whether he ever went to Portsmouth to buy such things. He had heard of such a place, but said it was no use to visit it, as from Boston the freight and time would not be much greater.

Now, Uncle Toby, when you go from home, do you own yourself from Portsmouth? If so, what do folks say to you? And when they ask you why your railroad stops eight miles before it reaches you, and is sixteen miles too short at the other end, what do you say? What do they call the Portsmouth people? We know the meaning of Buckeye, Hoosier, Sucker, Hawk-eye, Puke, and Blue-nose; but from what created thing do Portsmouth people borrow their designation? The turtle, basking in the sun, the stationary barnacle or oyster, or the retrograde crab?

Now, do not think, dear Uncle Toby, that I write thus crabbedly, because I am snowed in on Saturday night, 30 miles from home, after consuming four precious days in two attempts to get to Portsmouth. It is more in sorrow than in anger that I write. Can you not throw off your incubus, open your wharves to our produce, import at least our heavy articles for us, and give the tropics a chance at our Winnipiseogee ice, which is thicker and sweeter, if not cooler, than any that Boston can show?

Above all, Uncle Toby, don't take this letter unkindly, for I do really wish to get you to make the 24 miles of railroad which shall connect you with northern New Hampshire and Vermont, and give us fresh fish every week of the year. Your affectionate nephew, . WINNIPISIOGEE.

Uncle Toby is much obliged by the letter—but he is not a builder of railroads, but a teller of stories, old and new, especially the old. He is sorry, though, for the stockholders, on the unfinished and unfortunate railroads, because they get no dividends, and for the public because they can't travel every where. But when the trains and stages don't go to suit him, he walks over the hills with entire independence. And though his native place, Portsmouth, is not so *fast* as some, yet she is pretty *sure* to be as durable.

VIRGINIA COURTESY.—Mr. John C. Underwood of Virginia, who was exiled from that State for attending the Republican Convention at Philadelphia, recently returned to Virginia. He was informed by a Vigilance Committee that he could remain long enough to close up his business without molestation; but should he persist in renewing his citizenship, he would be left to "suffer whatever may follow at the hands of the community."

This we presume is what they call *liberty* in Virginia. The fanatics of New England would call it slavish—but the model patriots of the Old Dominion rebuked the fanatical notion that any man had a right to do or say anything against slavery—he is only at liberty to work *for it*.

For the Chronicle.

PROGRESS.

WRITTEN BY THOMAS P. MOSES.

"Progress is the beneficent law of our race, and in the end it will prevail. The manhood of our nature cannot be confined within the swaddling clothes of its infancy."

Awake thee to rapture, O harp of the soul!
And breathe a melodious lay;
Be tuneful, each chord, till obtained is the goal
Of high hope, on this jubilant day.
The beautiful radiance of Truth we behold,
And it guides to the noble and free;
All cheerful the story in music be told,
By voices harmonious in glee.
There is joy with the heavenly minstrels on high
At the progress of man here below;
O harp of the soul, echo up to the sky,
For the blessings that bountiful flow.
Away with the boasting of ancestral blood,
Away with the worship of gold;
Full long have these passions rushed on like a flood
The people to menace and mould.
But heaven most gracious now lights up the way
Of the hard-faring, virtuous poor;
And there's joy for the "million" at promise of day,
When bondmen shall stoop never more.
Away speculation that trifles with woe
When hunger is knawing the life;
That thrives but too oft on the misery below,
And challenges discord and strife.
Away vile oppressor allied unto wrong,
Who can strip the unfortunate man,
And worry the widow and fatherless throng,
Then gibber with miserly clan.
Be frowns on the proud-swelling, scholastic heart
That scorns the less favored of earth;
But praises for him who is free to impart
All his jewels of intrinsic worth.
A whip for dishonesty, hide where it may,
And a rod for monopoly too;
A scourge for the villians who darken life's day
By the evils they dare to pursue.
All honor be given for deeds nobly done,
All merit with garlands be crowned;
The zenith of glory be honestly won,
And the people in union be found.
The hearts of a people aspiring and free,
Are conning the worth of the soul;
And never shall yield to despotic decree,
While the earth on its orbit shall roll.
Then echo the watch word of progress along,
Whilst mind above matter shall rise;
And be moral beauty the epice of our song,
Till the soul finds its home in the skies.

EDGEVILLE DIST., S. Carolina, November, 1856.

AID FOR KANSAS.—The Boston Advertiser publishes the report of Dr. Samuel Cabot, from the Committee on sending clothing to Kansas under the auspices of the State Kansas Committee. From this official statement it appears that there have been forwarded through this Committee 19,109 articles of wearing apparel and bed clothing, 2726 yards of cotton cloth, 303 yards of de laine, 967 yards of woollen cloth and flannel, 50 yards of linen, 47 rolls of cotton batting, 60 packages of hooks and eyes, 8 gross of knitting-needles, 600 papers of needles, 8 pounds of yarn, 16 pounds of thread, 19 packages of sundries. These goods amounted in weight to twenty tons, and all of them, it is believed, will have arrived in the Territory before the close of navigation.

Large as the above amount is, Dr. Cabot reports, and our own knowledge confirms his statement, (says the Boston Transcript,) that cases and barrels from some cities and towns of New England have gone forward to Kansas without being reported to this committee. This report, therefore, is even less than the whole amount of the New England contribution.

Some of our personal friends, upon learning that boots and shoes were needed in Lawrence, purchased about three hundred dollars, worth of those articles in Boston, and forwarded them to parties in Kansas, where they have been safely and joyfully received. These cases of leather goods are not included in any official report, and there are doubtless scores of other instances where liberal donations have been made without the agency of the State Committee.

We heartily endorse the statement of the Advertiser, that "the history of this whole movement for the supply of clothing on a sufficient scale to the destitute of a region at a great distance, is the history of a most remarkable act of Christian liberality and wisdom."

It ought to be remembered that in the midst of such energetic work of New England women, to clothe naked women who had not, for want, left their cabin for weeks, and children who would freeze to death if winter surprised them without such relief,—they were surrounded with words of discouragement, and sneers at their charitable intentions. Men of repute were not ashamed to say that Kansas would be forgotten after the 4th of November, or to warn them that their clothing would warm the Missouri borderers. In the face of such sneers they worked on. In the face of them they succeeded. The committee who called for their work proved to be true advisers. And every mail from Lawrence brings the eager thanks of those who never begged and never will, from all parts of that virgin territory, for the relief, which is more than ever precious, because it is the voluntary work of women who only cared to know that there was need which they could relieve.

We compare it, with some pride, with the effort which the government of England made two years ago to clothe its soldiers likely to freeze in the Crimea. The problem there was, with unlimited means, of money, of transport, and of work, to clothe an army of forty thousand men at fifteen hundred miles distance of easy navigation, with no enemy between. Six months passed before the problem began to be solved. In this case, the amount of work to be done was less. But the distance was the same; the carriage was over a continent; an enemy lay ready to intercept the stores; and it was nobody's business to attend to the duty. Two months saw the organization effected—the clothing created—the transportation carried through and paid for—the enemy foiled, and the naked clothed before winter came.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

Enfield, Aug. 26, 1848.

DR. HAYDEN: Sir,—I have sold all the pills I had of you last week, and I am happy to say that the testimony of all who have used them is that they are a very superior medicine. Please send me two gross immediately and oblige

MATTHEW WHITE.

WM. R PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus'6m

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps. If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE, d8 corner of High and Congress sts.

HORSE BLANKETS AND

Woolen Sleigh Robes.

LOCAL.

PORTSMOUTH BRASS BAND.

We are gratified to learn that there is so od a prospect of the complete success of r proposed Band in this city. The calls r subscriptions have generally been re-onded to liberally, as far as they have en made.

And by the report of the City Council, hich we published on Saturday, it will be en that it is designed to hold a Fair for e benefit of the Band, about Christmas. he ladies have the matter in charge—and course all interested in music will do eir part.

The object is a worthy and commendable ne, and should receive the countenance nd aid of all citizens. We hear it sug-ested that a petition is to be circulated; sking the City for the $250 not yet ex-ended of the conditional Fourth of July ppropriation. We wrote and circulated one petition, for the whole $500 to be giv-en to the Printers' Committee—which was lone; and we thought we should have a and in spending the last cent of it. But he half was untouched—and perhaps the Band may get it. We think it probable they will, and certainly hope they may.

The cost of superior instruments, with the expenses of practising this winter, will amount to more than $1000; and Ports-mouth is better able to aid a band than many other places which have done it.—Let us not wonder that we have no good Band, until we have bestowed at least as much money on the attempt, as many a man expends for a single piano.

ACCIDENT.—On Friday forenoon, Mr. George Stackpole, while engaged in un-loading timber from the schooner James H. Chadbourne, at the ship-yard of Geo. Raynes, had one of his legs crushed below the knee. He was in the hold; as the tim-ber was canted, it caught his leg. The bone was much crushed, but hopes are en-tertained that it will not have to be ampu-tated.

☞ Those old familiar friends and favor-ite family singers, the Hutchinsons, are to sing this evening in the Temple,—to a full house, we presume, as they commonly do. Tickets only 15 cents, with a programme of popular pieces.

ROCKINGHAM AGRICULTURAL SOCIETY.—The annual meeting of this Society will be held at Exeter, on Wednesday, 10th inst., for the choice of officers.

MEETING OF THE N. H. ELECTORAL COL-LEGE.—The Electoral College of the State of New Hampshire consisting of the fol-lowing gentlemen, Wm. H. H. Bailey of Concord, Thomas L. Whitton of Wolf-boro, Daniel Clark of Manchester, Thomas M. Edwards of Keene, and John H. White of Lancaster: met on Tuesday, Dec. 2, at the State House in Concord; organized by the choice of Thomas M. Elwards as Pres-ident and Wm. E. Chandler of Concord as Secretary, and gave notice to the Governor and Council that they were present, and accepted the office of Electors. On Wed-nesday, Dec. 3d, being the first Wednesday in December, the Board of Electors assem-bled as required by law, and cast by ballot the five electoral votes of New Hampshire for John C. Fremont of California, as President, and for William L. Dayton, as Vice President.

The board then signed three differen cer-tificates of the result of the ballotings, ad-dressed to the President of the Senate of the United States, and caused one to be de-livered to the Hon. Matthew Harvey, Judge of the United States District Court; one to be deposited in the post office at Con-cord, and the other to be delivered to the messenger appointed to take the same to Washington. John M. Brackett, Esq., of Wolfborough, was chosen messenger to take the certificate of votes to Washington, and the board then adjourned without day.

☞ The failure of Jacob Little & Co. in New York, has created a great trouble in the Stock Markets, as they were immensely great Brokers.

The New York papers also notice the failure of a large dealer in rice, whose liabilities amount to $130,000, all to Charleston (S. C.) houses. The assets are at present unavailable, but are said to extend to $136,000.

☞ The public are warned against re-ceiving altered $2 bills on the Tremont Bank, purporting to be $10's. These are the very best altered bills ever offered, be-cause the red letters *ten* are printed across. The face of the bill is exactly the same as in the genuine. The altered bills may be told by an oval figure on the left of the bill.

CONGRESS.

FRIDAY, Dec. 5.

HOUSE.—The house resumed the consid-eration of Mr. Whitfield's case.

Mr. Phelp's of Missouri moved as a test question that there be a call of the House. He said in reply to Mr. Giddings of Ohio, he was sure there was a majority of Mr. Whitfield's friends in the city, and his ob-ject was to have them all in the House.

The motion was agreed to by one majori-ty. Two hundred and eighteen memoers answered to their names.

Mr. Akers moved that gentlemen pro-ceed to draw for the selection of seats. Mr. Grow objected.

The House voted on the pending ques-tion, viz: Mr. Grow's motion to lay on the table the motion to reconsider the vote by which the House on Monday refused to consent that Mr. Whitfield be sworn as delegate from Kansas. Decided in the negative by 108 against 111.

It now being clearly ascertained that Mr. Whitfield's friends were in the major-ity, Mr. Jones of Tennessee moved the previous question.

Mr. Giddings moved a call of the House amid laughter and various cries.

Mr. Stanton appealed to gentlemen to draw for their seats.

Mr. Matteson moved an adjournment. Decided in the negative.

By general concert the further consider-ation of the whole subject was postponed until Tuesday next.

Mr. McMullen called for the reading of the President's message. The House, he said, would not do itself credit unless this be done.

The Speaker decided the motion out of order.

The resolution submitted by Mr. Stan-ton, to draw seats, being regularly before the House, was adopted, and the members drew for their seats, and then adjourned till Monday.

WHISKEY.

Two cities, New York and Cincinnati, contend for the distinction of being the greatest whiskey manufacturers in the world. We gave the other day a statement of the business about New York. Cincin-nati is said to exceed that, however, hav-ing a great number of distilleries, that are driven by steam and doing a large busi-ness. One of these consumes 312,000 bushels of corn in a year, and produces about 4600 gallons of whiskey a day, or a million and a quarter of gallons a year. Of the production in the Ohio valley the Cincinnati Times says; "The quantity sold in the Cincinnati market annually is about 220,000 barrels, or about 9,000,000 gal-lons. This is probably not more than one-half the production of Ohio and Indiana alone. We presume that the production is 18,000,000 gallons, and we find the con-sumption of corn averaging four and a half million bushels. It is probable that the production of whiskey in the Ohio Valley is 50,000,000 gallons per annum, involving a consumption of 12,500,000 bushels of corn, the average value of which is $5,000,000." The demand for the ar-ticle is great and daily increasing, and will increase so long as the wine crop fails, and foreign brandies are high. We are having millions of gallons of brandy imported un-der the name of Cognac, that is nothing but rectified American whiskey.

And thousands of drinkers swallow this stuff, *pure as imported!*—and think it not a mere luxury but a necessity,—and make themselves slaves to a wretched appetite and besotted habit.

BALTIMORE, 5th.—Some excitement has existed in Charles county, Md., caused by rumors of an intended insurrection by the slaves. Two negroes have been arrested. Two white men, suspected of having been engaged in the plot, have absconded.

WASHINGTON, Dec. 5th.—A special mes-senger has arrived from Kansas, bringing despatches from Gov. Geary relative to the release by Judge Lecompte of the murder-er Hayes, and also to other matters at issue between him and the Judge—all of which is submitted to the consideration of the ad-ministration. Affairs in the territory are represented to be still peaceful.

KANSAS AT WASHINGTON.—A letter from Washington says that the President ex-presses his unmingled satisfaction at the restoration of order in Kansas, and that he has taken decided measures to preserve this state of things by sustaining Governor Geary in his contest with Judge Lecompte and Marshal Donaldson. He has superse-ded the latter, and is about to dismiss the former.—*Boston Courier.*

THE NICARAGUAN GOVERNMENT.—*New York, Dec.* 5.—The special correspondent of the Evening Post telegraphs from Wash-ington that Mr. Wheeler, Minister at Cen-tral America, has been peremptorily re-called by the President, on account of his recognition of Walker's Nicaraguan gov-ernment, which the administration had de-liberately resolved not to recognize.

CINCINNATI, Dec. 3.—*Navigation of the Ohio.*—We had heavy rains yesterday and last night, and it is now cold and cloudy with a light fall of snow. The river is rising rapidly, measuring nine feet now in the channel. All the small rivers above and below are rising. There is no doubt we shall have an ample stage of water for navigation, and 49 steamers are now load-ing for ports above and below.

THE SLAVE TRADE.—Resolutions have been introduced in the South Carolina Legisla-ture, deprecating the continued agitation of the abstract theories relating to the slave trade and other matters, as dividing and distracting the state, and alienating from her the support and sympathies of other states.

A SLANDER NAILED.—The Washington Union not long since published an article asserting that just previous to the election Col. Fremont remained several days in Philadelphia in the house of Mr. Isaac R. Davis—that he had several interviews with Mr. Isaac Newton, a candidate for elector on the Fillmore ticket, and that during these interviews Col. Fremont made use of the strongest personal appeals and the most dishonorable propositions with the view of seducing Mr. Newton into his support.—The Union was very specific in its details, and for the truth of its statements refered to Mr. Newton himself.

Mr. Newton, in reply to this appeal, writes as follows:

I have never seen Col. Fremont since last January; I saw him then in company with Isaac R. Davis, in my store in Phila-delphia, by whom I was introduced to him. But I did not then, nor have I ever exchang-ed a word, or had any communication with Col. Fremont, on political subjects.

Very respectfuly, &c., ISAAC NEWTON.

It is furthermore certain that Col. Fre-mont was not in Philadelphia at all during the month preceding the Presidential elec-tion.

From the Boston Saturday Evening Gazette

A PERFUMED BREATH.—What lady or gent-leman would remain under the curse of a disagree-able breath, when using the "Balm of a Thou-sand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as al-abaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and delicate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

Job and Card Printing.

HAVING recently much increased our facili-ties for the execution of Job and Card Print-ing in all its varieties, promptly, and in good style, and being ready to furnish our office still further with the new styles of type and the im-provements in this branch of the business, as oc-casion may render desirable—we would respect-fully solicit orders in this line, from our friends and the public, in the city or elsewhere.

In order to devote more attention to this branch of our business, we have engaged the services of Mr. WM. H. FOSTER, the well-known, experi-enced and tasteful Job Printer, who will have charge of the Job and Card Department; and will run

FOSTER'S CARD PRESS

in a manner that cannot fail to suit gentlemen or ladies who may favor us with their patronage.

National Monument

TO THE PILGRIM FATHERS,
TO BE ERECTED
AT PLYMOUTH, MASS.

THE Pilgrim Society, of Plymouth, having de-cided to erect a Monument at Plymouth, to commemorate the virtues of our "Forefathers," desire to announce to the American people, that they have accepted a design presented by the un-dersigned, and respectfully request all who cher-ish the memory of those who laid the foundations of the Civil and Religious Liberties of our Coun-try, to aid by contribution in the erection of said Monument.

JOHN CHRISTIE, Esq., of Portsmouth, is duly authorized to collect subscriptions for this object, in New Hampshire.

HAMMATT BILLINGS, Architect,
n25 8½ Tremont Row, Boston.

J. WENTWORTH,

(Successor to A. Littlefield,)
DEALER IN

Fancy Goods, Toys, Etc.,

No. 309 WASHINGTON STREET,
BOSTON.

THE subscriber having leased the store known as "WOODFORD'S OLD STAND," and purchased the stock, consisting of Rich Fancy Goods, Toys, Games, Children's Carriages, Rock-ing Horses, Propellers, and all other kinds of goods appertaining to a

First Class Toy Shop;

and, with much labor and care in the selection, added greatly thereto, making it as complete and attractive a stock as possible; would respectfully invite those who hitherto patronized the estab-lishment, as also his friends and the public gener-ally, to an examination of the same; trusting by strict personal care and attention, to merit a con-tinuance of the support so liberally bestowed upon it during the past seventeen years.

J. WENTWORTH.
Boston, November, 1856.

Rich Furniture,

AND NEW STYLES.

OWING to the liberal encouragement and con-stantly increasing patronage, the subscriber announces to his friends and the public that he has enlarged his Stock of ELEGANT FURNI-TURE, and has added to his Ware Rooms, the Chambers recently occupied by Messrs. Barton & Cobb, next store west of his old rooms.

Being determined to satisfy all those who may please to call on him, he has employed one of the best CABINETS from Boston, to enable him to manufacture the best styles of FRENCH FURNITURE, of Rosewood, Black Walnut and Mahogany, (that cannot be easily outdone,) for less than Boston prices.

Those who call at his place of business will find Rosewood, Black Walnut, and Mahogany Marble top CENTRE TABLES, from $16 to $40.

Also a great variety of all other articles, such as SOFAS, Large EASY CHAIRS, Ladies' Sewing do., &c. 10 elegant CHAMBER SETS, new style; Mahogany and Black Walnut WHATNOTS; CARD TABLES, &c. Eight dozen Mahogany, Black Walnut and Rosewood Stuffed CHAIRS, from $2.50 to $8, cov-ered with Plush, Damask and Hair Cloth.

All kinds of common Furniture, such as Cottage Bedsteads, Tables, Cane Seat and Back Chairs, with and without rockers; Gilt, Rosewood, Mahogany and Black Walnut frame LOOKING GLASSES, and a great variety of all common and useful articles.

MacGregor Stoves.

THE subscriber has for sale all sizes of this long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—not a dry, suffocating air, such as is often generated by coal stoves

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and ex-amine at E. A. STEVENS,
c11 46 Market street.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scorn pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, ILLINOIS, Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup,* and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 24 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the past forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even in those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 3, 1856.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months labouring under the dangerous symptoms of Consumption, from which no aid she could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Needless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us testify the high merits of its virtues. — *Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win their unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and spread disease, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best pills that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Piles arising therefrom, Flatulency, Loss of Appetite, all Fleshy and Cutaneous Diseases, require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give, you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

Applications for Insurance received by
JACOB WENDELL.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance on Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than ¼ of 1 per cent annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1 per cent, on the amount insured. In the 3d, or Union Class, from Oct. 1st to Jan 1856, the yearly average of assessments has been less than 1-8 of 1 per cent. on the amount insured.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft. Those about purchasing will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal

Also, Repairing Stoves, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *price.*

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment,* of the best patterns, ever brought into the market which I am determined to sell cheaper than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

61 Market street, Portsmouth, N. H.
Oct. 21. FRANK JONES.

At his Kitchen Furnishing Ware Rooms, No. 15 Daniel Street.

Terms—Net Cash invariably.

Prices—LOWER than elsewhere.

a12 G. N. CARLETON.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL,** secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of our new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Bristow, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to A	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	100

IN LONG CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 notes, 8 stops, 1½ octave pedals, 4 sets of reeds	350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co., cor. Niagara & Maryland sts., Buffalo, and 87 Fulton street, New York.

Agents, for the sale of our Melodeons, for Portsmouth and vicinity,

JOHN S. HARVEY & SON,
nov5 7 Exchange Buildings.

Also, Melodeons TO LET.

Chickering's Piano Fortes.

BOSTON, Oct 1856.

WE have appointed JOHN S. HARVEY & SON *sole Agents* for the sale of our Piano Fortes for Portsmouth and vicinity, and have made arrangements with them to supply our Instruments on the same terms as can be purchased at our Sales Rooms.

CHICKERING & SONS.

WE have now on hand and are constantly receiving the above Instruments, and shall take great pleasure in exhibiting them to all who favor us with a call. The world-wide renown and celebrity of these Piano Fortes and the acknowledged superiority of the makers over all competitors are too well known to need comment.

a27 7 Exchange Buildings.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire attention of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a trail and delicate construction, are recommended by other manufacturers. Such machines we make to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for families, if they are singer's. The speed of our machines has lately been doubled, no other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis. I M SINGER & CO.

Cooking Stoves.

IT is important in buying a Stove to get a good one, and there are so many new jangled ones urged upon the public, that it is no easy matter for a person who is not acquainted with the Stove business to select the best.

The subscriber would respectfully invite the attention of the public to the following Stoves, from the foundry of A. C. Barstow, Providence, R. I.—all of which he can warrant, or give satisfaction in every respect—with wood or coal:

B. SLATE,	Patented 8 years since.	
BANNER STOVE,	" 6 "	"
LILLY DALE,	" 4 "	"
SWEET HOME,	" 2 "	"

These Stoves have been used in Portsmouth for years, and we can refer to thousands who are now using them.

We have also for sale a variety of cheap Cook Stoves, and second hand Stoves—all of which will be sold cheap for cash. Please call at No. 46 MARKET STREET and examine the Stock.

Oct. 29. E. A. STEVENS.

SIDES, JOHN H. GARDINER, } *Drivers.*
May 17.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

Sole Agents for the United States and Canada, A. C. HALLWIN & CO., Rochester, N. Y.

TUTTLE & MOSES, Auburn, N. Y., General Agents.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

☞ Obituary Communications charged as advertisements. Notices of Funerals, 25cts; each. Advertisements of articles lost, 25 cents, if not found, 50 cts. if found.

JOB AND CARD PRINTING promptly executed.

Arnold's Vital Fluid

PURIFIES and trengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It turnises *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away wha ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free, open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas. Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	.90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted, to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Boston, Aug. 19, 1856. oo6m

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with U.S. Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throu h him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in his and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Boston, Jan 11 1856 d1eodiy

For Sale.

4 HOUSE LOTS, containing 1½ acres each. They would be sold separately, or together in one lot, to suit the purchaser. The lot fronts the road leading to Newington,—and as good land as there is in the county.

TUESDAY, DECEMBER 9. 1856.

JUDICIAL OATHS.

UNIVERSALISTS NOT SWORN.—The Supreme Court of North Carolina has confirmed the decision of Judge Manly, that members of the Universalist Church are incompetent to testify in courts of justice, according to the laws of that State. By this decision the Universalists of North Carolina are virtually outlaws, as no members of that religious denomination can collect his debts, swear to an assault, or testify before the courts in any case, even if his wife or child should be insulted. Think of a court refusing to hear the testimony of such eminent clergymen as the Rev. Dr. Ballou, Rev. Dr. Chapin, Rev. T. S. King, and hundreds of others; or to have a judge set aside the evidence of thousands of our honored and esteemed citizens of the same religious belief as the persons named above, on account of their theological opinions, while the oath of a miserable scamp or vile loafer is received because his theoretic belief (?) squares with the popular creed! Were Benjamin Franklin or Thomas Jefferson now alive, and in North Carolina, and to witness an assault, or be present where a murder was committed, the guilty party would escape if there were no other witnesses, because these patriots and statesmen, on account of their doctrinal views, could not testify to what transpired before their own eyes.

It is true nevertheless, that both Judge Manly and the Supreme Court of North Carolina have expounded *their laws* correctly. Those laws prescribe the *form* of the oath, which is one to which no Universalist can assent. An exceptional clause is added, in favor only of the Quaker, or any other person who has scruples of conscience against swearing. The Universalist who came before Judge Manly declared he had no such scruple, but he could not honestly take *that* oath. The judge could administer no other, the man did not testify—and the Supreme Court sustained the action of the judge.

The fault is not in the Court, but in the statutes themselves. In all the States, and in our Federal Government, nine-tenths of the oaths had better be struck out of existence.—(as the English have blotted out their whole batch of Custom House oaths,) —and then the remaining tenth should be reduced to simple *Affirmations*, under the pains and penalties of perjury.

We should then have quite as much truth as we get now, with vastly less profanity.

☞ The Boston Saturday Evening Gazette favors its readers with a few choice extracts from the poem of Geo. Edward Rice, Esq., recently delivered before the Mercantile Library Association in Boston. We understand that Mr. Rice has had invitations to read his poem in several places in New England, and are glad to see that this rich production, which was so highly appreciated by one of the largest audiences that has assembled in Boston this season, is to be engaged by so many other similar literary societies. The poem is full of good things, and we are informed is one of the best affairs of the kind that has been listened to for many years.

REMOVAL.—A Washington item in the Traveller, says, "the President has at last removed G. W. Clark, the alleged murderer of Barber, in Kansas, from the office of Indian Agent in that Territory, and appointed Isaac Winston, Whig, of Culpepper Co., Virginia, in his place. Clark was shielded by Shannon and Donaldson, and I do not learn that he has yet been arrested for the high crime alleged against him. Lecompte's turn will come next, but it is doubtful if Pierce will have the pluck to remove him."

MANUAL OF THE ARTS.—James French & Co., Boston, have just published, and J. S. Harvey & Son of Portsmouth have for sale, a Manual of the Arts, for Young People; or a Present for all seasons,—in a finely bound and neat volume of 450 pages, embellished with numerous cuts, illustrative of the various Arts. The design is to make a useful book, at once instructive and popular. It is a pretty present for the holidays.

WASHINGTON AND RICHMOND. — Gov. Wise and the Virginia electors seem to have had a high time over their election of Mr. Buchanan,—and have nominated Ex-Gov. Floyd to the Cabinet.—But the Virginia members of Congress go for Mr. Mead as a Cabinet-man.

GOOD MOVE.—At Concord all the traders have agreed to close their stores at dark, except on Saturday evenings.

The post-master at Yazoo City, Mississippi, in a recent note to one Andrew Patterson, says:

"I understand you was at the post office, making a fuss about your Cincinnati abolition Gazette. I have authorized Mr. Holingsworth not to deliver the same or any other abolition document out of the post-office, I am responsible, and if you want a fuss, I am the one to make it with.

M. D. HAYNES, P. M."

This fact furnishes a striking commentary to the assertion in President Pierce's message, that "perfect liberty for political objects, and the widest scope for discussion, are the received and ordinary conditions of government in our country." Not in a single one of the states that Mr. Pierce glorifies at the expense of his own section, does any such liberty exist. But in every one of the New England States, against which his tirade is driven most violently, this liberty does exist and is enjoyed.—We have rarely seen assertion and fact stand farther apart. The above Post-office case, with that of the Republican delegate from Virginia, and the Fremont voter expelled from Norfolk, show better than argument, that this part of the message is another dreadful blunder.

COL. BENTON.—The Newburyport Herald, speaking of Col Benton's reception in New England, says:

This reception of Col Benton at the north shows, as strikingly as anything could, the difference between the people in the two sections of the country; and if Col Benton ever has occasion to allude to this visit, we hope he will not forget it. Henry Wilson can not go south and be received, feasted, complimented in private, and applauded in public, as Col Benton has been at the north, because the slaveholders say that Henry Wilson wars upon their pecuniary interests and property rights, and wants to interfere with their business. Suppose that to be true; it can not be more so of Gen. Wilson, than the reverse is of Thomas H. Benton. For forty years he has warred upon the interests of New England, and especially of its seaport towns, Newburyport, Gloucester and the like. For as many years as Henry Wilson has lived, to gratify his own section and represent the wishes of a western constituency, he has warred upon the fisheries of New England, in seeking the abolition of salt duties and fishing bounties. Hundreds of poor fishermen will sit and shiver in their houses, this winter, for want of fuel, from the operation of his agitation, although he never completely triumphed. Now reverse the men and the sections of country, and let us send some Benton or Hoar to the south, and though he has not rendered himself a thousandth part so obnoxious, by any public acts and speeches, he will be kicked back over Mason and Dixon's line quicker than gentlemen often wish to be.

In our conduct, therefore, we have set a proud example for the South. * * * * We did right; and we ask the south to look at our example and say if it is not right. Was it not honorable and noble thus to extend a greeting to one of the last of that iron race of men, who have lived longer than the Union has existed, and who would be willing to die to-day, if thus he could perpetuate a national blessing to his children and ours? If it was right, then why can't you follow it? You men Missouri, when you assault Massachusetts men who are seeking new homes; when you rob them, or justify their being robbed by the ruffians on your borders; when you allow the roofs to be burned over the heads of helpless women and defenceless infancy, whose husbands and fathers have been murdered—look you here and see how Massachusetts receives and treats your citizens!

CHARADE.

Far, far, o'er distant Oceans,
On Lakes, on Rivers bright,
My 1st braves dire commotions,
In morning, noon and night.
For the camel of the desert,
Some writer takes my names
But who, I cannot ferret.
No matter, 'tis all the same.
Huge in form to mills comes my next,
Concave I appear, and convex:
So now for my whole;
In the cabin, on deck,
In the mansion, the cottage,
The free wind I check.

BOILING ROCK.

WEST INDIES.—At Washington it is said, a new project is on foot, for the extension of the provisions of the reciprocity treaty with Canada to the British West Indies, whose trade was monopolized by Great Britain and her colonies. The movement is certainly one of importance.

MRS. Sophia B. Smith, wife of Rev. William S. Smith, of Southford, Connecticut, fell backwards insensible, in which state she remained for two or three hours, when she expired. Her age was 54 years.

SUICIDE IN SAUGUS—An eccentric individual by the name of Ivory Chadwell, committed suicide in Saugus, Friday, by hanging. He has been in a state bordering on insanity for some time past. He has a son and a daughter living in Lynn, and we understand he leaves several thousand dollars to them.

LOSS OF A SCHOONER AND FOUR LIVES.—The New Haven Palladium of Friday evening, gives the following account of the loss of schooner Fanny Crocker, of Dighton, Mass., together with four of her crew, on Wednesday night:—

"We learn from Conductor Blague of the New London Railroad, that the schooner Fanny Crocker, of Dighton, Mass., Capt. Allen, was lost near Saybrook lighthouse on Wednesday night, the 3d ult.—She was loaded with copper and coal, bound for New York. She went on to Saybrook bar about 11 o'clock on Wednesday night, and after striking three times, knocked out her keleon, she ran about a mile and went down. Her crew consisted of Capt. Allen and son, together with five men. The captain, his son, and one seaman, swam to the topmast after she sunk and lashed themselves. They wound the sail about them and remained in this condition for twenty-four hours, when they were rescued by Capt. Crosby, of the schooner Northam, of Saybrook, and landed at the Point. They had nearly perished from exhaustion, but hopes are entertained of their recovery. Four of the seamen, named James Blisard, John Camford, Isaac W Iace and James Ackery, were lost. These were colored men, and were swept off when the vessel went down, and drowned. The cargo of the vessel was valuable—the copper on board being worth $12,000."

A MOVE TOWARDS POPULAR SOVEREIGNTY. Bills have been introduced into the South Carolina Legislature, providing for giving the election of Governor and of the Presidential electors to the people.

Mr. G. Garrett of Ulster county, N. Y., was married to Miss St. John of Claryville, Sullivan county. On the following morning, before breakfast, the bridegroom walked out and committed suicide by hanging himself.

Mr. John Burrill, on Saturday, on board the new ship Eddystone, at Newburyport, fell from the top gallant forecastle to the deck, breaking one of his ribs, bruising his head and otherwise injuring him. He is a well known ship painter.

General CASS openly avows that the conservative sentiments of the Detroit Free Press, upon Slavery and Kansas, are his.

In the Cumberland Presbyterian Church, in Louisville, on last Sunday night Mr. Newman, the pastor of the church, having preached a very effective discourse, descended from the pulpit and walking out into the midst of the congregation, selected a young lady who had consented to become his help meet. The couple then proceeded to the pulpit where they were immediately joined in the holy bonds of wedlock.

PROVIDENCE, Dec. 8.—This morning at half-past one o'clock a fire broke out at the India Point Depot, in the car house of the Boston and Providence Railroad, destroying sixteen cars, about one hundred cords of wood, the building in which the cars were, and quite a large quantity of other property belonging to the Railroad Company.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

Enfield, Aug. 26, 1848.

DR. HAYDEN: Sir,—I have sold all the pills I had of you last week, and I am happy to say that the the testimony of all who have used them is that they are a very superior medicine. Please send me two gross immediately and oblige

MATTHEW WHITE.

WM. R PRESTON. Druggist, wholesale and retail agent, Portsmouth. 6td&w

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—(Covington (Ia.) People's Friend.

Agent in Portsmouth, Jos. H. Thatcher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no case to which it will not cure, unless the patient is past all the aid of medicine, or has commenced using its use!* It is called the "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuTh hS 6m

MARRIED.

In this city, Dec 4th, by Rev Mr Holman, Mr Daniel McIntire to Miss Elizabeth B Thompson, both of York, Me.

Portsmouth, Dec. 8, 1856. J

PATENT SELF-GENERATING
Gas Lamp!
PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months.
It will not get out of order.
A child may take care of it
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE, d8 corner of High and Congress sts.

HORSE BLANKETS AND
Woolen Sleigh Robes.

JUST opened by JONES & MENDUM, a prime assortment of Horse Blankets and Woolen Sleigh Robes, at No. 29 Market street. d8

LOCAL.

DEACON AMOS TAPPAN.

A marble tablet, commemorative of Amos Tappan, recently erected in the vestibule of the North Church, afforded occasion for a discourse on Sunday, Dec. 7, in which the life, usefulness, and piety of Mr. Tappan were adverted to. This memorial has, at the suggestion of the present pastor, been placed within this Church, by Wm. Tappan Eustis, Esq., of Boston, the nephew of the person it commemorates.

Deacon Tappan was for several years teacher of the public school in Buck, now State street, on the spot where the present school-house now stands. He was induced to leave the public school at the instance of a few gentlemen, and take a private school on High street, receiving the same compensation as for the public. The number of scholars being limited to twenty, besides his adopted son, Wm. Tappan Eustis.

The preacher remarked that Mr. Tappan was one of the first who established the Sabbath School in Portsmouth.* The propriety of mural monuments in churches was asserted and defended. To the Puritans, we believe, they were as odious as statuary and paintings. This is the reason why they are not found in Congregational churches in New England. It was also urged that a tablet to the memory of Dr. Buckminster be placed in the wall where the pulpit he occupied formerly stood, and that those who had the privilege of hearing him, should have the privilege of being at the cost. And that in the centre of the wall in the entry there should be placed a monument indicating important events in the lives of former pastors of this ancient Church. It is to be hoped these reminiscences and suggestions will not pass unheeded by the numerous and amply able congregation, to whom they were addressed with great force and eloquence.

*The correspondent who furnishes the above item, adds the following note on Sunday Schools:

The first Sunday School in Portsmouth was in 1802 organized and conducted by the Rev. Timothy Alden, pastor of the South Parish. It is believed this was the first place of free instruction on Sunday, for *rich* and *poor*. Robert Raikes' system in England was long prior, but it was for indigent children only. Religious instruction for the children of the affluent is no less essential.

COASTING IN THE STREETS.—A boy, twelve years old, was so badly injured by coming in collision with a wagon, while sliding down a hill in Manchester, N. H., a few days since, that his physician fears he cannot recover. And this is but a legitimate result of the pernicious practice of "coasting," (or sliding, as it was called when we were boys) in the public streets.

This is done to a great extent in the streets of Portsmouth; and should be stopped somehow. If there is no law prohibiting it, the City Council should pass a special ordinance at once. For besides a great amount of positive discomfort to pedestrians by the icy smoothness of the sled-paths, and the trouble to drivers of horses,—milkmen, bakers, teamsters, &c., whose business calls them to drive and perhaps leave their horses in the vicinity of the boys thus occupied; the risk to life, limb and property, is too great to be hazarded. The boys themselves are terribly exposed to injury from passing horses,—especially if frightened into running away; and the risk of injury to horses and riders is not small.

Cannot this pernicious practice be ended? If in no other way, let every parent keep his boy from sliding in the streets—and it is done. Else, other cases, equally with the Manchester case above named, may call for our sympathy at home.

SKATING.—Our beautiful Mill-Ponds, at the North and South Ends of the city, are now covered with glassy ice of the first quality; and myriads of skaters, of both sexes and all ages are enjoying the capital skating, these glorious days and splendid moonlight evenings.

☞ In our mention of the New Band, we are to have in Portsmouth, on one or two occasions, we have inadvertently called it a *Brass* Band. This is incorrect—the instruments are to be of German silver, after the most improved modern manufacture, and the band to be called the "Portsmouth Cornet Band."

☞ The first lesson of Mr. H. P. Crane's second Term of Juvenile Singing School, (which has been twice postponed by bad weather) will be given at the Vestry of the Universalist Church, to morrow afternoon, at three o'clock.

☞ It is estimated that there are 700,000 pianos in use in this country at the present time. We believe there are about three hundred in Portsmouth.

OYSTERS AND CLAMS.—The liberal 'treat' from our old friend Washington Freeman, a day or two since, who from his much older stand, sent us a "*taste* of his quality," as we have already mentioned; and the return of the most fitting season for the eating of bivalves, induces us to say a few words at this time, respecting oysters and clams and kindred matters. And first we desire to testify to the excellent quality of the oysters from which our lot was selected. This cargo, we believe, is the first which has arrived here for the season, and the oysters are extra nice—fresh, plump, sweet, and fat,—almost equal to the New Yorkers. Try them, and see.

In the spring, large quantities of oysters are brought from Virginia, in schooners, and bedded on islands in our harbor—as in all the ports along the eastern coast—for consumption in the summer, when the weather is too hot for the transportation. And it is no easy or safe business to rake up a supply for daily use, and furnish them to the various saloons in the city.—Many a ducking, with the sinking of old boats, &c., results from these morning boat-trips—though nothing more serious has occurred here, we believe.

Mr. W. Freeman is the wholesale oysterman for this region, though a host of retail establishments have grown up in various parts of the city, since the pioneer establishment was opened—some of which are more extensive and showy than his, but none more popular with a large class.

We deem oysters and clams very healthy as well as delicious articles of food. Clams, especially, might be much more generally eaten than they are; and would be, but for prejudice against them for their cheapness, and ignorance of the proper method of cooking them. We have recently seen a statement made by a medical writer, that oysters and clams contain in a still greater degree, all the medicinal and nutritive virtues of cod liver oil; and that their liberal use at the family table, would tend to prevent consumption, &c.

We are therefore glad to know that the quantity of oysters consumed in the city, is annually increasing—though we wish more of the increase was for home consumption, and not for "night-eating" at the saloons. The chief fault we have to find with the oyster saloons, is, that they are as much, or more, beer shops, or tippling-saloons, as anything else—though of course this is more the fault of the miserable habits of their frequenters, than of the keepers. As though a man can't enjoy a dish of oysters, without swiggling down a pint of wretched beer, cider, or something of the sort!—We hope to see a change in these things, one of these days; and shall rejoice when they sell more oysters and less beer.

☞ The Hutchinsons sang last night to an immense audience—the largest Portsmouth has seen for years—and many went away disappointed. They intend giving another, on their return from an Eastern tour. They understand giving popular concerts, at "popular" prices.

HARTFORD FIRE INSURANCE COMPANY.—It will be seen in the semi-annual statement of this company, published in our columns to-day, that its affairs are in a most flourishing condition. This stock pays a regular semi-annual dividend of 10 per cent, making 20 per cent to its stockholders; and has done this for many years—showing that its business is most carefully managed, and that it receives the confidence of the public. An agency in this city, has been established for over 25 years, and our citizens universally acknowledge their promptness in the settlement of losses. Mr. John Sise, No. 5 Market Square, is the agent for Portsmouth and vicinity, and will not be found less prompt, careful and attentive than his predecessors.

THE CASE OF BAKER.—*Albany Dec.* 7.—The Jury in the case of Baker, on trial for the murder of Poole, were unable to agree on a verdict, and are discharged. They stood 6 for manslaughter in the third degree, and 6 for acquittal.

DEATH OF THE BRITISH CONSUL AT BALTIMORE.—*Baltimore Dec.* 7.—Henry George Kuper, British Consul at this port, was suffocated while in a burning house in the eastern part of the city. The other inmates narrowly escaped. The deceased has a family in England.

THE WEATHER.—*Hartford Dec.* 7.—The weather here is clear and cold, and the river is considered closed for the season.—The steamers City of Hartford, and Granite State, both left yesterday for New York, and are not expected to resume their trips this season.

☞ Meister Karl being asked what he thought of Platonic love, replied: "That like most things which begun in *pla* (play) it was apt to end in earnest."

From the Boston Saturday Evening Gazette

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and A. Williams & Co., 100 Washington street, Boston, General Agents for New England. For sale in Portsmouth by Wm. R. Preston. 6mje16

City Sales Room, No. 3 Congress Block.

A House to be removed.

Will be sold at Public Auction on SATURDAY, Dec. 20th, at 12 o'clk, on the premises,

HOUSE No. 25 Court street, next west of the Sunday School Room, to be removed before the first of March next.

The building is 16 feet wide and 50 long; is in good order except the sills—contains 4 Rooms and a scullery on the lower floor; 4 Rooms on the second, a good attic, and has closets in most of the rooms. There are two large chimnies. It is well adapted for two families. The cellar wall will not be sold.

Here is a good opportunity for any one having a lot of land to obtain a house at a small expense, as the cost of removal will be trifling when the sleighing is good

A SHED, 10x6 feet, will be sold at the same time. The building can be examined at any time on application to J. F. SHORES, Jr.
d8 G. W. TOWLE, Auctr.

Sept. 15. GEO. W. TOWLE, Aut.

Good Fits.

PANTALOONS that fit well and easily are seldom made; but if you will leave your measure with

HAM & CO.,

No. 9 CONGRESS STREET,

you will surely be suited to as good a fit as you can desire, and as can be had in any other city.

They have a large assortment of
WOOLENS, PANTALOON STUFF AND COATINGS,
which they will make up to order, or sell by the yard with or without cutting, at a small advance from cost.

All garments from our establishment warranted to give entire satisfaction to the purchaser.

To those who for the last 4 years, have so liberally patronized us, we would most respectfully return our thanks, and solicit a continuance of their favors.

o31 HAM & CO.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BENNINGTON, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scorn pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MASS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKE, Merchant.

A. A. RAMSEY, M. D., ALMON, MORGAN Co., Ga., writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid to could procure any much relief. She was steadily failing, until Dr. Strong, of this city, whose we have every for advice, recommended a trial of your medicine. Wonderfully has it kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best analytical chemists in the world, and its cures all around us speak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills,

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable people are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and sow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure the following complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with something else pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices, that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *price*.

Open Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders, different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent, 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—the Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....130

IN PIANO CASE:

Five octave Melodeon, from F to F.....$100
Six octave Melodeon, " F to F.....130
Five octave, double reed, " F to F.....150
Organ Melodeon (for churches), 6 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds.....$350

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States. GEO. A. PRINCE & Co.,

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a light and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Cooking Stoves.

IT is important in buying a Stove to get a good one, and there are so many new fangled ones urged upon the public, that it is no easy matter for a person who is not acquainted with the Stove business to select the best.

The subscriber would respectfully invite the attention of the public to the following Stoves, from the foundry of A. C. Barstow, Providence, R. I.—all of which he can warrant *to give satisfaction in every respect*—with wood or coal:

BAY STATE, Patented 8 years since.
BANNER STOVE, " 5 " "
LILLY DALE, " 4 " "
SWEET HOME, " 9 " "

These Stoves have been used in Portsmouth for years, and we can refer to thousands who are now using them.

We have also for sale a variety of cheap Cook Stoves, and second hand Stoves—all of which will be sold cheap for cash. Please call at No. 46 MARKET STREET and examine the Stock.
